*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 2871-5VPQ4H*

Dundee Realty Management Corp.
222 Queen Street, No. 200
Ottawa, Ontario
K1P 5V9

Site Location: 110 O'Connor Street
Ottawa City,
K1P 5V9

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- four (4) natural gas fired boilers and one (1) water heater tank, all having a maximum combined thermal input of 10.9 Gigajoules per hour, and,

- three (3) standby diesel generator sets, having ratings of 175, 250, and 400 kilowatts, to provide power for the office building during emergency situations,

all in accordance with the Application for Approval (Air) dated November 19, 2003, and all supporting documentation and information, signed by John Page (Vice President), Dundee Realty Management Corp.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator sets and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Sets" means the diesel generator sets described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means Dundee Realty Management Corp., and includes its successors and assignees; and

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the

submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Generator Set comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Owner shall ensure that:

(1) no other standby generator sets, located at 110 O'Connor Street, Ottawa, Ontario, are operational during the periodic testing of the Generator Sets; and,

(2) only one (1) of the three (3) standby diesel generator sets approved under this Certificate is periodically tested at any one time.

5. The Owner shall restrict the periodic testing of the Generator Sets to the daytime hours from 7:00 am to 7:00 pm.

6. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Sets.

3. Condition No. 4 is included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

**CONTENT COPY OF ORIGINAL**

4. Condition No. 5 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Sets.

5. Condition No. 6 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 6982-67RL9N*

The Cadillac Fairview Corporation Limited
20 Queen Street West, 5th Floor
Toronto, Ontario
M5H 3R4

Site Location: Commonwealth Building
77 Metcalfe Street
Ottawa City, Ontario,

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- natural gas fired heating/cooling equipment, having a maximum combined thermal input of 2,934,822 kilojoules per hour,

- one (1) standby diesel generator set, having a rating of 230 kilowatts, to provide power for the Commonwealth Building during emergency situations, and

- one (1) cooling tower,

all in accordance with the Application for Approval (Air) dated October 29, 2004, and all supporting documentation and information, signed by Wayne Banting, Director, Environmental and Health & Safety Services, National Operations.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel emergency generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means The Cadillac Fairview Corporation Limited, and includes its successors and assignees;

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(9) “Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

CONTENT COPY OF ORIGINAL

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Generator Set comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

**OPERATION AND MAINTENANCE**

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the*

**CONTENT COPY OF ORIGINAL**

*Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- two (2) standby diesel generator sets, each having a rating of 2000 kilowatts, to provide power during emergency situations, each exhausting to the atmosphere at a maximum volumetric flow of 8.147 actual cubic metres per second at an approximate temperature of 523 degrees Celsius, through a stack having an exit diameter of 0.46 metre, extending 6.1 metres above the roof and 47.83 metres above grade;

- two (2) natural gas fired boilers each having a maximum thermal input of 2,530,080 kilojoules per hour, exhausting into the atmosphere through stacks identified as 'Sources 3 and 4', respectively, each having an exit diameter of 0.3 metre, each extending 2 metres above the roof and 43.77 metres above grade;

- one (1) natural gas fired hot water tank having a maximum thermal input of 379,512 kilojoules per hour, exhausting into the atmosphere through a stack identified as 'Source 2', having an exit diameter of 0.203 metre, extending 2 metres above the roof and 43.77 metres above grade;

- two (2) cooling towers, each discharging into the atmosphere through an exhaust fan.

all in accordance with the Application for a Certificate of Approval (Air) dated January 6, 2003, and signed by Eugene Sztuka, Project Manager, and all supporting information associated with the application including all additional information provided by Jacques Whitford Environment Ltd. and Rochon Bougie & Associates.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the two (2) diesel generators, two (2) natural gas fired boilers, one (1) natural gas fired hot water tank and two (2) cooling towers described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Sets" means the two (2) diesel generator sets described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Company;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means Bell Canada, and includes its successors and assignees; and

CONTENT COPY OF ORIGINAL

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

**TERMS AND CONDITIONS**

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Company shall ensure that the noise emissions from the Generator Sets comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Company shall restrict the periodic testing of the Generator Sets to the hours between 7:00 am and 11:00 pm.

5. The Company shall ensure that no other standby generator sets, located at 78 O'Connor Street, Ottawa City, are operational during the periodic testing of the Generator Sets.

6. All air intakes, openable windows or doors, or other reception points, having a stretched string distance of 37 metres or less measured from the diesel generator exhaust stack, shall be covered or closed during testing in a manner which prevents air infiltration.

7. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the

**CONTENT COPY OF ORIGINAL**

precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Conditions No. 5 and 6 are included to ensure that the nitrogen oxides emissions will not result in an adverse effect at a sensitive receptor.

5. Condition No. 7 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

City of Ottawa

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- twelve (12) natural gas fired boilers, and five (5) natural gas fired heating, ventilation and air conditioning units, having a maximum combined thermal input of 44.4 Gigajoules per hour, and

- one (1) standby diesel generator set, having a rating of 750 kilowatts, identified as Generator 1, to provide power for a commercial complex during emergency situations, and

- one (1) standby diesel generator set, having a rating of 558 kilowatts, identified as Generator 2, to provide power for a commercial complex during emergency situations, and

- seven (7) cooling towers,

all in accordance with the Application for Approval (Air) dated July 12, 2006 and signed by Michael Reel, Signing Authority, bcIMC Realty Corporation, and all supporting information associated with the application provided by Pinchin Environmental Ltd., dated June 27, 2006, and signed by Shawn McDonald, BSc.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator sets, combustion equipment, and cooling towers described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Sets" means the diesel generator sets described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means bcIMC Realty Corporation, and includes its successors and assignees; and

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

CONTENT COPY OF ORIGINAL

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Generator Sets and cooling towers comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Owner shall ensure that:

(1) no other standby generator sets, located at 100 Queen Street, 45 O'Connor Street, and 111 Albert Street, Ottawa, Ontario, are operational during the periodic testing of the Generator Sets; and

(2) only one (1) of the two (2) standby diesel generator sets approved under this Certificate is periodically tested at any one time.

5. The Owner shall carry out periodic testing of the Generator Set under practicable reduced loading conditions.

6. The Owner shall carry out the periodic testing of the Generator Sets at reduced loads as follows:

(1) Generator 1 shall be tested at a reduced load of 25%; and

(2) Generator 2 shall be tested at a reduced load of 25%.

7. The Owner shall restrict the periodic testing of the Generator Sets to the daytime hours from 7:00 am to 7:00 pm.

8. The Owner shall ensure that the Generator Sets are properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Generator Sets, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Generator Sets, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Generator Sets suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Generator Sets;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance,

**CONTENT COPY OF ORIGINAL**

repair and inspection of the Generator Sets, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Sets and cooling towers.

3. Condition Nos. 4, 5, and 6 are included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

4. Condition No. 7 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Sets.

5. Condition No. 8 is included to emphasize that the Generator Sets must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

# AMENDED PERMIT TO TAKE WATER

Surface and Ground Water

NUMBER 4504-A6AJAW

Reference Number 1612-A4ZSC8

*Pursuant to Section 34.1 of the Ontario Water Resources Act, R.S.O. 1990 this Permit To Take Water is hereby issued to:*

Ashcroft Urban Developments Inc.
18 Antares Dr
Ottawa, Ontario, K2E 1A9
Canada

**For the water taking from:** Building Excavation Sump

**Located at:** 111 Queen St 106-116 Sparks Street
Ottawa

*For the purposes of this Permit, and the terms and conditions specified below, the following definitions apply:*

## DEFINITIONS

(a) "Director" means any person appointed in writing as a Director pursuant to section 5 of the OWRA for the purposes of section 34.1, OWRA.

(b) "Provincial Officer" means any person designated in writing by the Minister as a Provincial Officer pursuant to section 5 of the OWRA.

(c) "Ministry" means Ontario Ministry of the Environment and Climate Change.

(d) "District Office" means the Ottawa District Office.

(e) "Permit" means this Permit to Take Water No. 4504-A6AJAW including its Schedules, if any, issued in accordance with Section 34.1 of the OWRA.

(f) "Permit Holder" means Ashcroft Urban Developments Inc..

(g) "OWRA " means the *Ontario Water Resources Act*, R.S.O. 1990, c. O. 40, as amended.

*You are hereby notified that this Permit is issued subject to the terms and conditions outlined below:*

**TERMS AND CONDITIONS**

## 1. Compliance with Permit

1.1 Except where modified by this Permit, the water taking shall be in accordance with the application for this Permit To Take Water, dated March 5, 2015 and signed by Paul Rothwell, and all Schedules included in this Permit.

1.2 The Permit Holder shall ensure that any person authorized by the Permit Holder to take water under this Permit is provided with a copy of this Permit and shall take all reasonable measures to ensure that any such person complies with the conditions of this Permit.

1.3 Any person authorized by the Permit Holder to take water under this Permit shall comply with the conditions of this Permit.

1.4 This Permit is not transferable to another person.

1.5 This Permit provides the Permit Holder with permission to take water in accordance with the conditions of this Permit, up to the date of the expiry of this Permit. This Permit does not constitute a legal right, vested or otherwise, to a water allocation, and the issuance of this Permit does not guarantee that, upon its expiry, it will be renewed.

1.6 The Permit Holder shall keep this Permit available at all times at or near the site of the taking, and shall produce this Permit immediately for inspection by a Provincial Officer upon his or her request.

1.7 The Permit Holder shall report any changes of address to the Director within thirty days of any such change. The Permit Holder shall report any change of ownership of the property for which this Permit is issued within thirty days of any such change. A change in ownership in the property shall cause this Permit to be cancelled.

## 2. General Conditions and Interpretation

2.1 Inspections
The Permit Holder must forthwith, upon presentation of credentials, permit a Provincial Officer to carry out any and all inspections authorized by the OWRA, the *Environmental Protection Act*, R.S.O. 1990, the *Pesticides Act*, R.S.O. 1990, or the *Safe Drinking Water Act*, S. O. 2002.

CONTENT COPY OF ORIGINAL

2.2 Other Approvals
The issuance of, and compliance with this Permit, does not:

(a) relieve the Permit Holder or any other person from any obligation to comply with any other applicable legal requirements, including the provisions of the *Ontario Water Resources Act*, and the *Environmental Protection Act*, and any regulations made thereunder; or

(b) limit in any way any authority of the Ministry, a Director, or a Provincial Officer, including the authority to require certain steps be taken or to require the Permit Holder to furnish any further information related to this Permit.

2.3 Information
The receipt of any information by the Ministry, the failure of the Ministry to take any action or require any person to take any action in relation to the information, or the failure of a Provincial Officer to prosecute any person in relation to the information, shall not be construed as:

(a) an approval, waiver or justification by the Ministry of any act or omission of any person that contravenes this Permit or other legal requirement; or

(b) acceptance by the Ministry of the information's completeness or accuracy.

2.4 Rights of Action
The issuance of, and compliance with this Permit shall not be construed as precluding or limiting any legal claims or rights of action that any person, including the Crown in right of Ontario or any agency thereof, has or may have against the Permit Holder, its officers, employees, agents, and contractors.

2.5 Severability
The requirements of this Permit are severable. If any requirements of this Permit, or the application of any requirements of this Permit to any circumstance, is held invalid or unenforceable, the application of such requirements to other circumstances and the remainder of this Permit shall not be affected thereby.

2.6 Conflicts
Where there is a conflict between a provision of any submitted document referred to in this Permit, including its Schedules, and the conditions of this Permit, the conditions in this Permit shall take precedence.

**3. Water Takings Authorized by This Permit**

3.1 **Expiry**
This Permit expires on **March 1, 2018**. No water shall be taken under authority of this Permit after the expiry date.

CONTENT COPY OF ORIGINAL

3.2 Amounts of Taking Permitted
The Permit Holder shall only take water from the source, during the periods and at the rates and amounts of taking specified in Table A. Water takings are authorized only for the purposes specified in Table A.

**Table A**

| | Source Name / Description: | Source: Type: | Taking Specific Purpose: | Taking Major Category: | Max. Taken per Minute (litres): | Max. Num. of Hrs Taken per Day: | Max. Taken per Day (litres): | Max. Num. of Days Taken per Year: | Zone/ Easting/ Northing: |
|---|---|---|---|---|---|---|---|---|---|
| 1 | Building Excavation Sump - Higher Inflows | Pond<br>Dugout | Construction | Dewatering Construction | 10,000 | 24 | 5,500,000 | 90 | 18<br>445430<br>5030120 |
| 2 | Building Excavation Sump - Steady State | Pond<br>Dugout | Construction | Dewatering Construction | 10,000 | 24 | 1,500,000 | 274 | 18<br>445430<br>5030120 |
| | | | | | | **Total Taking:** | 5,500,000 | | |

## 4. Monitoring

4.1 The Permit Holder shall maintain a record of all water takings. This record shall include the dates and times of water takings, the rates of taking, and an estimated calculation of the total amounts of water taken per day for each day that water is taken under the authorization of this Permit. A separate record shall be maintained for each source. The Permit Holder shall keep all required records up to date and available at or near the site of the taking and shall produce the records immediately for inspection by a Provincial Officer upon his or her request.

## 5. Impacts of the Water Taking

5.1 Notification
The Permit Holder shall immediately notify the local District Office of any complaint arising from the taking of water authorized under this Permit and shall report any action which has been taken or is proposed with regard to such complaint. The Permit Holder shall immediately notify the local District Office if the taking of water is observed to have any significant impact on the surrounding waters. After hours, calls shall

be directed to the Ministry's Spills Action Centre at 1-800-268-6060.

5.2 For Surface-Water Takings
The taking of water (including the taking of water into storage and the subsequent or simultaneous withdrawal from storage) shall be carried out in such a manner that streamflow is not stopped and is not reduced to a rate that will cause interference with downstream uses of water or with the natural functions of the stream.
5.2 For Groundwater Takings
If the taking of water is observed to cause any negative impact to other water supplies obtained from any adequate sources that were in use prior to initial issuance of a Permit for this water taking, the Permit Holder shall take such action necessary to make available to those affected, a supply of water equivalent in quantity and quality to their normal takings, or shall compensate such persons for their reasonable costs of so doing, or shall reduce the rate and amount of taking to prevent or alleviate the observed negative impact. Pending permanent restoration of the affected supplies, the Permit Holder shall provide, to those affected, temporary water supplies adequate to meet their normal requirements, or shall compensate such persons for their reasonable costs of doing so.

If permanent interference is caused by the water taking, the Permit Holder shall restore the water supplies of those permanently affected.

5.3 Prevention of Adverse Effects:
The Permit Holder shall ensure the taking of water under authority of this Permit does not result in an adverse effect on area waters.

5.4 Prevention of Structural Adverse Effects:
The Permit Holder shall take all measures necessary to prevent damage to buildings, bridges, structures, roads and/or railway lines that may be impacted either directly or indirectly by this taking.

5.5 Discharge Control Measures for Water that is Discharged to the Natural Environment:
Siltation control measures shall be installed at the discharge site(s) and shall be sufficient to control the volumes. Continuous care shall be taken to properly maintain the siltation control devices.

5.6 The discharge of water shall be controlled in such a way as to avoid erosion and sedimentation in the receiving stream.

5.7 The Permit Holder shall ensure that any water discharged to the natural environment does not result in scouring, erosion or physical alteration of stream channels or banks and that there is no flooding in the receiving area or water body, downstream water bodies, ditches or properties caused or worsened by this discharge.

5.8 The Permit Holder shall not discharge turbid water to any watercourse. Turbid water shall be defined as any discharge water from the excavation or diverted water with a maximum increase of 8 NTUs above the receiving stream's background levels.

5.9 Discharged Water to the Sanitary or Storm Sewer System:
The Permit Holder shall ensure that any water that is taken for dewatering purposes and discharged to the City of Ottawa sewer system is in accordance with a City of Ottawa Sewer Use Agreement.

**6. Director May Amend Permit**
The Director may amend this Permit by letter requiring the Permit Holder to suspend or reduce the taking to an amount or threshold specified by the Director in the letter. The suspension or reduction in taking shall be effective immediately and may be revoked at any time upon notification by the Director. This condition does not affect your right to appeal the suspension or reduction in taking to the Environmental Review Tribunal under the *Ontario Water Resources Act*, Section 100 (4).

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition 1 is included to ensure that the conditions in this Permit are complied with and can be enforced.

2. Condition 2 is included to clarify the legal interpretation of aspects of this Permit.

3. Conditions 3 through 6 are included to protect the quality of the natural environment so as to safeguard the ecosystem and human health and foster efficient use and conservation of waters. These conditions allow for the beneficial use of waters while ensuring the fair sharing, conservation and sustainable use of the waters of Ontario. The conditions also specify the water takings that are authorized by this Permit and the scope of this Permit.

*In accordance with Section 100 of the Ontario Water Resources Act, R.S.O. 1990, you may by written notice served upon me, the Environmental Review Tribunal and the Environmental Commissioner,* ***Environmental Bill of Rights****, R.S.O. 1993, Chapter 28, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 101 of the Ontario Water Resources Act, as amended provides that the Notice requiring a hearing shall state:*

1. The portions of the Permit or each term or condition in the Permit in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*In addition to these legal requirements, the Notice should also include:*

a. The name of the appellant;
b. The address of the appellant;
c. The Permit to Take Water number;

d. The date of the Permit to Take Water;

e. The name of the Director;

f. The municipality within which the works are located;

CONTENT COPY OF ORIGINAL

## 1. Compliance with Permit

1.1 Except where modified by this Permit, the water taking shall be in accordance with the application for this Permit To Take Water, dated March 5, 2015 and signed by Paul Rothwell, and all Schedules included in this Permit.

1.2 The Permit Holder shall ensure that any person authorized by the Permit Holder to take water under this Permit is provided with a copy of this Permit and shall take all reasonable measures to ensure that any such person complies with the conditions of this Permit.

1.3 Any person authorized by the Permit Holder to take water under this Permit shall comply with the conditions of this Permit.

1.4 This Permit is not transferable to another person.

1.5 This Permit provides the Permit Holder with permission to take water in accordance with the conditions of this Permit, up to the date of the expiry of this Permit. This Permit does not constitute a legal right, vested or otherwise, to a water allocation, and the issuance of this Permit does not guarantee that, upon its expiry, it will be renewed.

1.6 The Permit Holder shall keep this Permit available at all times at or near the site of the taking, and shall produce this Permit immediately for inspection by a Provincial Officer upon his or her request.

1.7 The Permit Holder shall report any changes of address to the Director within thirty days of any such change. The Permit Holder shall report any change of ownership of the property for which this Permit is issued within thirty days of any such change. A change in ownership in the property shall cause this Permit to be cancelled.

## 2. General Conditions and Interpretation

2.1 Inspections
The Permit Holder must forthwith, upon presentation of credentials, permit a Provincial Officer to carry out any and all inspections authorized by the OWRA, the *Environmental Protection Act*, R.S.O. 1990, the *Pesticides Act*, R.S.O. 1990, or the *Safe Drinking Water Act,* S. O. 2002.

2.2 Other Approvals
The issuance of, and compliance with this Permit, does not:

(a) relieve the Permit Holder or any other person from any obligation to comply with any other applicable legal requirements, including the provisions of the *Ontario Water Resources Act*, and the *Environmental Protection Act*, and any regulations made thereunder; or

(b) limit in any way any authority of the Ministry, a Director, or a Provincial Officer, including the authority to require certain steps be taken or to require the Permit Holder to furnish any further information related to this Permit.

2.3 Information

The receipt of any information by the Ministry, the failure of the Ministry to take any action or require any person to take any action in relation to the information, or the failure of a Provincial Officer to prosecute any person in relation to the information, shall not be construed as:

(a) an approval, waiver or justification by the Ministry of any act or omission of any person that contravenes this Permit or other legal requirement; or

(b) acceptance by the Ministry of the information's completeness or accuracy.

2.4 Rights of Action
The issuance of, and compliance with this Permit shall not be construed as precluding or limiting any legal claims or rights of action that any person, including the Crown in right of Ontario or any agency thereof, has or may have against the Permit Holder, its officers, employees, agents, and contractors.

2.5 Severability
The requirements of this Permit are severable. If any requirements of this Permit, or the application of any requirements of this Permit to any circumstance, is held invalid or unenforceable, the application of such requirements to other circumstances and the remainder of this Permit shall not be affected thereby.

2.6 Conflicts
Where there is a conflict between a provision of any submitted document referred to in this Permit, including its Schedules, and the conditions of this Permit, the conditions in this Permit shall take precedence.

**3. Water Takings Authorized by This Permit**

3.1 **Expiry**
This Permit expires on **April 30, 2016**. No water shall be taken under authority of this Permit after the expiry date.

3.2 Amounts of Taking Permitted
The Permit Holder shall only take water from the source, during the periods and at the rates and amounts of taking specified in Table A. Water takings are authorized only for the purposes specified in Table A.

**Table A**

## 4. Monitoring

4.1 The Permit Holder shall maintain a record of all water takings. This record shall include the dates and times of water takings, the rates of taking, and an estimated calculation of the total amounts of water taken per day for each day that water is taken under the authorization of this Permit. A separate record shall be maintained for each source. The Permit Holder shall keep all required records up to date and available at or near the site of the taking and shall produce the records immediately for inspection by a Provincial Officer upon his or her request.

## 5. Impacts of the Water Taking

5.1 Notification
The Permit Holder shall immediately notify the local District Office of any complaint arising from the taking of water authorized under this Permit and shall report any action which has been taken or is proposed with regard to such complaint. The Permit Holder shall immediately notify the local District Office if the taking of water is observed to have any significant impact on the surrounding waters. After hours, calls shall be directed to the Ministry's Spills Action Centre at 1-800-268-6060.

5.2 For Surface-Water Takings
The taking of water (including the taking of water into storage and the subsequent or simultaneous withdrawal from storage) shall be carried out in such a manner that streamflow is not stopped and is not reduced to a rate that will cause interference with downstream uses of water or with the natural functions of the stream.

For Groundwater Takings
If the taking of water is observed to cause any negative impact to other water supplies obtained from any adequate sources that were in use prior to initial issuance of a Permit for this water taking, the Permit Holder shall take such action necessary to make available to those affected, a supply of water equivalent in quantity and quality to their normal takings, or shall compensate such persons for their reasonable costs of so doing, or shall reduce the rate and amount of taking to prevent or alleviate the observed negative impact. Pending permanent restoration of the affected supplies, the Permit Holder shall provide, to those affected, temporary water supplies adequate to meet their normal requirements, or shall compensate such persons for their reasonable costs of doing so.

If permanent interference is caused by the water taking, the Permit Holder shall restore the water supplies of those permanently affected.

5.3 Prevention of Adverse Effects:
The Permit Holder shall ensure the taking of water under authority of this Permit does not result in an adverse effect on area waters.

5.4 Prevention of Structural Adverse Effects:
The Permit Holder shall take all measures necessary to prevent damage to buildings, bridges, structures, roads and/or railway lines that may be impacted either directly or indirectly by this taking.

5.5 Discharge Control Measures for Water that is Discharged to the Natural Environment:
Siltation control measures shall be installed at the discharge site(s) and shall be sufficient to control the volumes. Continuous care shall be taken to properly maintain the siltation control devices.

5.6 The discharge of water shall be controlled in such a way as to avoid erosion and sedimentation in the receiving stream.

5.7 The Permit Holder shall ensure that any water discharged to the natural environment does not result in scouring, erosion or physical alteration of stream channels or banks and that there is no flooding in the receiving area or water body, downstream water bodies, ditches or properties caused or worsened by this discharge.

5.8 The Permit Holder shall not discharge turbid water to any watercourse. Turbid water shall be defined as any discharge water from the excavation or diverted water with a maximum increase of 8 NTUs above the receiving stream's background levels.

5.9 Discharged Water to the Sanitary or Storm Sewer System:
The Permit Holder shall ensure that any water that is taken for dewatering purposes and discharged to the City of Ottawa sewer system is in accordance with a City of Ottawa Sewer Use Agreement.

**6. Director May Amend Permit**

The Director may amend this Permit by letter requiring the Permit Holder to suspend or reduce the taking to an amount or threshold specified by the Director in the letter. The suspension or reduction in taking shall be effective immediately and may be revoked at any time upon notification by the Director. This condition does

not affect your right to appeal the suspension or reduction in taking to the Environmental Review Tribunal under the *Ontario Water Resources Act*, Section 100 (4).

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition 1 is included to ensure that the conditions in this Permit are complied with and can be enforced.

2. Condition 2 is included to clarify the legal interpretation of aspects of this Permit.

3. Conditions 3 through 6 are included to protect the quality of the natural environment so as to safeguard the ecosystem and human health and foster efficient use and conservation of waters. These conditions allow for the beneficial use of waters while ensuring the fair sharing, conservation and sustainable use of the waters of Ontario. The conditions also specify the water takings that are authorized by this Permit and the scope of this Permit.

*In accordance with Section 100 of the Ontario Water Resources Act, R.S.O. 1990, you may by written notice served upon me, the Environmental Review Tribunal and the Environmental Commissioner,* ***Environmental Bill of Rights****, R.S.O. 1993, Chapter 28, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 101 of the Ontario Water Resources Act, as amended provides that the Notice requiring a hearing shall state:*

1. The portions of the Permit or each term or condition in the Permit in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*In addition to these legal requirements, the Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Permit to Take Water number;
6. The date of the Permit to Take Water;
7. The name of the Director;
8. The municipality within which the works are located;

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 1393-6GULS7*
*Issue Date: October 12, 2005*

Gillin Engineering and Construction Ltd.
141 Laurier Avenue West
Ottawa, Ontario
K1P 5J3

Site Location: 123 Metcalfe Street
Ottawa , Ontario

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) standby diesel generator set, having a rating of 150 kilowatts, to provide power for the hotel during emergency situations;

all in accordance with the Application for Approval (Air & Noise) dated June 28, 2005, and all supporting documentation and information, signed by Christopher Gillin, (Vice President), Gillin Engineering and Construction Ltd.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment;

(6) "Owner" means Gillin Engineering and Construction Ltd., and includes its successors and assignees;

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(8) "Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between

the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

**OPERATION AND MAINTENANCE**

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

**CONTENT COPY OF ORIGINAL**

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

Issue Date: March 1, 2013

Metcalfe Realty Company Limited
130 Albert Street, Suite No. 210
Ottawa, Ontario
K1P 5G4

Site Location: 130 Albert Street
City of Ottawa , K1P 5G4

*You have applied under section 20.2 of Part II.1 of the Environmental Protection Act , R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:*

- two (2) cooling towers to provide comfort cooling;

all in accordance with the application for an Environmental Compliance Approval Application submitted by Metcalfe Realty Company Limited, dated October 17, 2011 and signed by Sheila Olivieri, Project Manager; and the supporting information, including the Emission Summary and Dispersion Modelling Report, submitted by Airzone One Ltd., dated December 21, 2011 and signed by Jessica Mousseau.

*For the purpose of this environmental compliance approval, the following definitions apply:*

(1) "Approval" means this Environmental Compliance Approval, including the application and supporting information listed above;

(2) "District Manager" means the District Manager, Ottawa District Office of the Ministry;

(3) "EPA" means Environmental Protection Act , R.S.O. 1990, c.E. 19, as amended;

(4) "Equipment" means the cooling tower units described in the Owner's application, this Approval and in the supporting documentation submitted with the application, to the extent approved by this Approval;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the ministry of the government of Ontario responsible for the EPA and includes all officials, employees or other persons acting on its behalf;

(7) "Owner" means Metcalfe Realty Company Limited, and includes its successors and assignees;

(8) "Publication NPC-205" means the Ministry Publication NPC-205, "Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban)", October, 1995, as amended; and

(9) "Publication NPC-232" means the Ministry Publication NPC-232, "Sound Level Limits for

Stationary Sources in Class 3 Areas (Rural)", October, 1995, as amended.

*You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:*

**TERMS AND CONDITIONS**

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Approval, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Approval.

2. Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or Publication NPC-232, as applicable.

## OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Approval or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

**NOTIFICATION OF COMPLAINTS**

5. The Owner shall notify the District Manager, in writing, of each environmental complaint and the measures taken to address the cause of the complaint within five (5) business days of the complaint.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Approval.

4. Condition No. 5 is included to require the Owner to notify staff of the Ministry so that compliance with the Act, the regulations and this Approval can be verified.

*In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, 1993 , S.O. 1993, c. 28 (Environmental Bill of Rights), the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:*

1. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The environmental compliance approval number;
6. The date of the environmental compliance approval;
7. The name of the Director, and;
8. The municipality or municipalities within which the project is to be engaged in.

*And the Notice should be signed and dated by the appellant.*

# Record of Site Condition

# For Part XV.1 of the *Environmental Protection Act*

## Summary

| | |
|---|---|
| Registration Number | 1008 |
| Status | Filed |
| Filing Date | 2004/11/10 |
| Certification Date | 2004/10/26 |
| Current Property Use | Commercial |
| Intended Property Use | Commercial |
| Certificate of Property Use Number | No CPU |
| Applicable Standards | Full Depth Site Conditions Standard, with Nonpotable Ground Water, Coarse Textured Soil, for Industrial/Commercial/Community property use |
| Property Municipal Address | 131 QUEEN ST, OTTAWA, ON, K1P 5C7 |

## Notice to Readers Concerning Due Diligence

This record of site condition has been filed on the Environment Site Registry to which the public has access and which contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

## Contents of this Record of Site Condition

This record of site condition consists of this document which is available to be printed directly from the Environmental Site Registry as well as all documentation indicated in this document to have been submitted in paper format to the Ministry of the Environment.

## Definitions

The following definitions are taken from the *Environmental Protection Act* or Regulation 153/04 under that Act and are included for ease of reference. The Act and Regulation should be referenced for other applicable definitions.

In this Record of Site Condition,

"Act" means the *Environmental Protection Act*, as amended;

"Cleanup Guideline 1996" means the Ministry publication entitled "Guideline for Use at Contaminated Sites in Ontario" originally dated June 1996 and later revised;

"Intended property use", in relation to a record of site condition, means the type of property use in respect of which the record of site condition is filed;

"phase one environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"phase two environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"Regulation" means Ontario Regulation 153/04, Records of Site Condition Part XV.1 of the Act, as amended;

"risk assessment" has the same meaning as defined in the Act at s. 168.1;

"RSC" means a record of site condition under Part XV.1 of the Act;

"RSC property", in relation to a record of site condition, means the property in respect of which the record of site condition is filed;

"SSRA" means a site specific risk assessment conducted in accordance with the Cleanup Guideline 1996.

## Part 1: Property Ownership, Property Information and Owner's Certifications

### Information about the owner who is filing or authorizing the filing of the RSC

| | |
|---|---|
| Owner Name | 131 Queen Street Limited and Morguard Corporation |
| Corporate Contact (Authorized Officer) | Paul Snyder |
| Mailing Address | 104 DUNEDIN DRTORONTO, ON, M8X 2K5 |
| Phone | 416-2338090 |
| Fax | 416-2338090 |
| Email | paul.snyder@sympatico.ca |

### RSC Property Location Information

| | |
|---|---|
| Municipal Address | 131 QUEEN ST<br>OTTAWA, ON, K1P 5C7 |
| Municipality | OTTAWA |
| Legal Description | Lots 1,2,3,6,7,8,9&10, The Eight Foot Passageway (East of Lot 6) AND Part of The Lane (Closed By BY-LAW 74-74, INST.No.CR649237 or Judge's Order INST.No. CR651480) Registered Plan 6506 AND Lot 16&Part of Lots 17&18 (Numbering Eastward) South Sparks Street AND Lots 16,17 & Part of Lot 18 (Numbering Eastward) North Queen Street Registered Plan 3922, City Of Ottawa |

| Property Identification Number (PIN) | 04115-0024 LT, 04115-0025 LT, 04115-0281 LT |
| RSC applies to entire legal property | YES |

### RSC Property Geo Reference

| | |
|---|---|
| UTM Coordinates | NAD83 18-445349-5030061 |
| Latitude & Longitude | 45.42193430N 75.69855220W (converted from UTM) |
| Accuracy Estimate | 0 to 1 meters |
| Measurement Method | Digitized from a map |

### RSC Property Use Information

The following types of property uses are defined by the Regulation: Agricultural or other use, Commercial use, Community use, Industrial use, Institutional use, Parkland use, and Residential use.

| | |
|---|---|
| Current Property Use | Commercial |
| Intended Property Use | Commercial |
| Certificate of Property Use has been issued under section 168.6 of the Act | NO |

### Additional Documentation Provided by Property Owner or Agent

The following documents have been submitted to the Ministry of the Environment as part of the record of site condition:

| | |
|---|---|
| 1 | Deed or Transfer for the property |
| 2 | Certificate of Status |

## Signature and Statements of Property Owner or Agent

As an authorized officer acting on behalf of the owner of the RSC property:

1. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

2. I have conducted reasonable inquiries to obtain all information relevant to this RSC, including information from the other current owners of the RSC property named in this part of the RSC.

3. I have disclosed all information referred to in paragraph 2 to any qualified person named in this RSC.

4. To my knowledge, the statements made in this part of the RSC are true as of _____.

As an authorized officer making the certifications on behalf of the owner:

1. I certify that I have been authorized by the owner of the RSC property to make the statements prescribed by this section on their behalf and that the owner of the RSC property has read and understands the statements being made on their behalf.

Name of Authorized Officer_____ Signature _____ Date _____

A signed and dated copy of this Part of the record of site condition has been received by the Ministry of the Environment prior to the filing of this record of site condition in the Environmental Site Registry.

## Part 2 List of Reports, Summary of Site Conditions, Qualified Person's Certifications

### Qualified Person Information

| | |
|---|---|
| Name | Ismail Mohamad Taki |
| Company | Trow Associates Inc. |
| Job Title | |
| Business Address | 154 COLONNADE RD SOTTAWA, ON, K2E 7J5 |

## Remedial Action and Mitigation

### Remediated Soils

Estimate of quantities of soil, if any, originating and remaining on the RSC property that have been remediated, at a location either on or off the RSC property, to reduce the concentration of contaminants in the soil.

| Soil Remediation Process | Estimated Quantity of Soil (in-situ cubic meters) |
|---|---|
| No Remediation Provided | |

### Removed Soils

Estimated quantity of soil or sediment, if any, removed from and not returned to the RSC property (in-situ cubic meters):
5735

### Deposited Soils

Estimated quantity of soil or sediment, if any, being brought to and deposited at the RSC property not including any soil that has been remediated off the RSC property (identified in the Soil Remediation Process above) (in-situ cubic meters): 0

### Remediated or Removed Soil From Near Property Boundary

Has any soil, sediment or ground water at the RSC property that is or was located within 3 meters of the RSC property boundary been remediated or removed for the purpose of remediation: NO

### Ground Water Control or Treatment Measures

Ground Water Control or treatment measures that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

No groundwater control measures are required for the RSC.

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

No other activities are required to control or mitigate groundwater movement.

### Other Activities Including Risk Management Measures

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No other activities are required to control or mitigate groundwater movement.

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No other activities are required to control or mitigate groundwater movement.

### Monitoring or Maintenance

Soil monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

All soil has been removed from the site to the bedrock level. No soil monitoring is required at the subject site.

Ground Water monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No groundwater monitoring is required at the subject site.

## Certifications

As the qualified person, and in relation to this Part of the RSC, I certify that:

1. A phase one environmental site assessment of the RSC property, which includes the evaluation of the information gathered from a records review, site visit and interviews, has been conducted in accordance with the Regulation by or under the supervision of a qualified person as required by the Regulation.

2. I have conducted or supervised a phase two environmental site assessment, which includes the evaluation of information gathered through the sampling and analysis of soil and other site investigation or assessment activities, of all or part of the

RSC property with respect to one or more contaminants, in accordance with the Regulation.

3. The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.

4. As of 2004/10/26, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the RSC property that would interfere with the type of property use to which the RSC property will be put, as specified in the RSC.

5. If non-potable ground water standards have been applied,

    a. I have given written notice of intention to apply non-potable ground water site condition standards to the clerk of the local municipality in which the property is located and the clerk of any upper-tier municipality in which the property is located.

    b. The owner of the property has informed me that either,

        i. the owner did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality or upper-tier municipality receiving the notice described in paragraph a, or

        ii. after receiving a notice of objection from the municipality, the municipality has withdrawn its objection and given written consent to the application of non-potable ground water standards.

    c. I did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality receiving the notice described in paragraph a, or, after I received a notice of objection from the municipality, the municipality gave written consent to the application of non-potable ground water standards.

6. As of 2004/10/26, in my opinion, based on the phase one and phase two environmental site assessments and any confirmatory sampling, the RSC property meets the applicable Full Depth site condition standards prescribed by section 37 of the Regulation for all contaminants prescribed by the Regulation in relation to the type of property use for which this RSC is filed, except for those contaminants (if any) specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards.

7. As of 2004/10/26, the maximum known concentration of each contaminant in soil, sediment and ground water at the RSC property for which sampling and analysis has been performed is specified in this RSC at Final RSC Property Profile.

8. In relation to any contaminant excepted from the certification mentioned above and as specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards, or in relation to any other contaminant that in my opinion is likely to cause an adverse effect:

    a. A risk assessment was prepared for the contaminant with respect to the property for which the phase two environmental site assessment was conducted.

    b. The Director has accepted the risk assessment under clause 168.5 (1) (a) of the Act.

    c. As of 2004/10/26, the property for which the phase two environmental site assessment was conducted meets the standards specified in the risk assessment for the contaminant.

As the qualified person, and in relation to this Part of the RSC, I also certify that:

1. I am a qualified person and have the qualifications required by section 5 of the Regulation.

2. I have in place an insurance policy that satisfies the requirements of section 7 of the Regulation.

3. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

4. The opinions expressed in this RSC are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practising at the same time and in the same or similar location.

5. To the best of my knowledge, the certifications and statements in this part of the RSC are true as of 2004/10/26.

6. By signing this RSC, I make no express or implied warranties or guarantees.

I, the qualified person named below, on the date stated below, make all of the stated certifications applicable to the qualified person in this Part of the record of site condition.

Name of Qualified Person _____ Signature _____ Date _____

A signed and dated copy of this Part of the record of site condition has been received by the Ministry of the Environment prior to the filing of this record of site condition in the Environmental Site Registry.

# Record of Site Condition Filing Form

## IMPORTANT notes for submission of Record of Site Condition (RSC) to Ministry of the Environment (MOE):

After completing RSC on Brownfields website, ensure that a signed copy of RSC is submitted to MOE.

Print the downloaded version of RSC in PDF.

Ensure that footer of each page of RSC detail indicates that the RSC is on "Submitted" status.

Forward the signed copy of PDF file together with the additional documentation listed under sections:

- Additional Documentation Provided by Property Owner or Agent
- Additional Documentation Provided by Qualified Person

The forwarding address and fax information for MOE office is:

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 3839-7AGJMH*
*Issue Date: February 7, 2008*

Morguard Corporation
350 Sparks St. Suite 402
Ottawa, Ontario
K1R 7S8

Site Location: 131 Queen Street
Ottawa, Ontario

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- two (2) natural gas fired boilers, two (2) natural gas fired humidifiers, and five (5) natural gas fired air handling units, having a maximum combined thermal input of 28,433,759 kilojoules per hour, and,

- one (1) standby diesel generator set, having a rating of 1750 kilowatts, to provide power for the facility during emergency situations;

all in accordance with the Application for Approval (Air & Noise) dated February 27, 2007 and signed by Ian McKie, Operations Manager, Ellis Don Corp., for Morguard Corporation, and all supporting information associated with the application including additional information provided by Jacques Whitford Limited dated January 18, 2008 and February 5, 2008.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Acoustic Report" means the noise study entitled "*Final Report , Acoustic Assessment , Ellis Don Corporation , Project No. 1006421*", prepared by Jacques Whitford Environmental Engineering Scientific Management Consultants, dated April 5, 2007.

(2) "Act" means the *Environmental Protection Act;*

(3) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(4) "Director" means any Ministry employee appointed by the Minister pursuant to Section 5 of the Act;

(5) "District Manager" means the District Manager, Ottawa District Office, Eastern Region of the Ministry;

(6) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(7) "Facility" means the entire operation where the Equipment is located;

(8) "Generator Set" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(9) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(10) "Ministry" means the Ontario Ministry of the Environment;

(11) "Noise Abatement Measures" means the noise control equipment detailed in Schedule A of this Certificate;

CONTENT COPY OF ORIGINAL

(12) "Owner" means Morguard Corporation, and includes its successors and assignees;

(13) "Publication NPC-103" means Publication NPC-103, Measurement Procedures, August 1978;

(14) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(15) "Publication NPC-233" means Publication NPC-233, Information To Be Submitted For Approval of Stationary Sources Of Sound, October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

**TERMS AND CONDITIONS**

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**OPERATION AND MAINTENANCE**

3. The Owner shall restrict the periodic testing of the Generator Set to the daytime hours from 7:00 am to 7:00 pm.

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

**ACOUSTIC AUDIT**

5. The Owner shall:

(1) ensure that the noise emissions from the Facility comply with the limits set in Publication NPC-205; and

(2) incorporate the noise abatement measures detailed in Schedule A, of this Certificate.

CONTENT COPY OF ORIGINAL

6. The Owner shall carry out acoustic audit measurements on the actual noise emissions due to the operation of the Facility, in accordance with the measurement procedures in Publication NPC-103.

7. The Owner shall submit an acoustic audit report, in accordance with Publication NPC-233, to the District Manager and the Director not later than three (3) months after the date on his Certificate.

8. The Director may not accept the results of the acoustic audit if the requirements of Publication NPC-233 were not followed.

9. If the Director does not accept the results of the acoustic audit the Director may :
a) require the Owner to repeat the acoustic audit, and/or
b) revoke this certificate, or

c) in accordance with the Act, impose additional conditions to the Owner's Certificate of Approval.

10. If the acoustic audit report indicates that the Facility is not in compliance with the noise limits stated in Ministry Publication NPC-205 then the Owner shall submit a new application for a Certificate of Approval containing a Noise Abatement Action Plan.

The Noise Abatement Action Plan shall include a detailed timetable of scheduled mitigating measures, with the objective to ensure that the noise emissions from the Facility comply with limits in Publication NPC-205. The Noise Abatement Action Plan shall also be based upon the objective to complete the implementation of the required mitigating measures by a date not exceeding six (6) months after the date noted on this Certificate.

If applicable, the new application must be sent to the District Manager and the Director, by a date not exceeding four (4) months, after the date noted on this Certificate.

SCHEDULE “A”

Note : Acoustic Report means - the noise study entitled `*Final Report , Acoustic Assessment , Ellis Don Corporation , Project No. 1006421*, prepared by Jacques Whitford Environmental Engineering Scientific Management Consultants, dated April 5, 2007.

1. One (1) muffler for the diesel engine combustion exhaust, capable of providing the following values of Insertion-Loss in 1/1 octave frequency bands:

| Centre Frequency (Hertz) | 63 | 125 | 250 | 500 | 1000 | 2000 | 4000 | 8000 |
|---|---|---|---|---|---|---|---|---|
| Insertion-Loss (decibel) | 10 | 30 | 38 | 30 | 25 | 20 | 20 | 20 |

2. One (1) 3 metre high, 6 m long acoustic barrier, located 2m from the diesel engine exhaust louvre (S22) positioned as described in Section 4.0 of the Acoustic Report, continuous without holes, gaps and other penetrations, and having surface mass at least 20 kilograms per square metres.

3. One (1) 3 metre high, 7 m long acoustic barrier, located 1m from the diesel engine intake louvre (S23) positioned as described in Section 4.0 of the Acoustic Report, continuous without holes, gaps and other penetrations, and having surface mass at least 20 kilograms per square metres.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

3. Condition No. 3 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Set.

**CONTENT COPY OF ORIGINAL**

4. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

5. Condition No. 5 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Facility.

6. Condition Nos. 6 and 7 are included to require the Owner to gather accurate information so that the environmental impact and subsequent compliance with the Act, the regulations and this Certificate can be verified.

7. Condition Nos. 8 and 9 are included to ensure that the acoustic audit is carried out in accordance with procedures set in the Ministry's Noise Guidelines.

8. Condition No. 10 is included to require the Owner to develop a Noise Abatement Action Plan (if necessary) designed to ensure that the noise emissions from the Facility are in compliance with applicable limits set in the Ministry's Noise Guidelines.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

The Secretary*
Environmental Review Tribunal
2300 Yonge St., Suite 1700

*PERMIT TO TAKE WATER*
*Ground Water*

*NUMBER 4047-69NM75*

*Pursuant to Section 34 of the Ontario Water Resources Act, R.S.O. 1990 this Permit To Take Water is hereby issued to:*

131 Queen Street Limited
65 Queen Street West, Suite 210
Toronto, Ontario, M5H 2M5
Canada

*For the water taking from:* a construction excavation to install a building foundation
*Located at:* 131 Queen Street
Ottawa

*For the purposes of this Permit, and the terms and conditions specified below, the following definitions apply:*

**DEFINITIONS**

(a) "Director" means any person appointed in writing as a Director pursuant to section 5 of the OWRA for the purposes of section 34, OWRA.

(b) "Provincial Officer" means any person designated in writing by the Minister as a Provincial Officer pursuant to section 5 of the OWRA.

(c) "Ministry" means Ontario Ministry of the Environment.

(d) "District Office" means the Ottawa District Office.

(e) "Permit" means this Permit to Take Water No. 4047-69NM75 including its Schedules, if any, issued in accordance with Section 34 of the OWRA.

(f) "Permit Holder" means 131 Queen Street Limited.

(g) "OWRA " means the *Ontario Water Resources Act*, R.S.O. 1990, c. O. 40, as amended.

(h) "Ottawa" means the former City of Ottawa in the City of Ottawa.

(i) "Permit Holder" also means Morguard Corporation.

*You are hereby notified that this Permit is issued subject to the terms and conditions outlined below:*

CONTENT COPY OF ORIGINAL

## TERMS AND CONDITIONS

### 1. Compliance with Permit

1.1 Except where modified by this Permit, the water taking shall be in accordance with the application for this Permit To Take Water, dated September 16, 2004 and signed by Michael Elliott, Elliott Realty Advisors Inc., and all Schedules included in this Permit.

1.2 The Permit Holder shall ensure that any person authorized by the Permit Holder to take water under this Permit is provided with a copy of this Permit and shall take all reasonable measures to ensure that any such person complies with the conditions of this Permit.

1.3 Any person authorized by the Permit Holder to take water under this Permit shall comply with the conditions of this Permit.

1.4 This Permit is not transferable to another person.

1.5 This Permit provides the Permit Holder with permission to take water in accordance with the conditions of this Permit, up to the date of the expiry of this Permit. This Permit does not constitute a legal right, vested or otherwise, to a water allocation, and the issuance of this Permit does not guarantee that, upon its expiry, it will be renewed.

1.6 The Permit Holder shall keep this Permit available at all times at or near the site of the taking, and shall produce this Permit immediately for inspection by a Provincial Officer upon his or her request.

1.7 The Permit Holder shall report any changes of address to the Director within thirty days of any such change. The Permit Holder shall report any change of ownership of the property for which this Permit is issued within thirty days of any such change. A change in ownership in the property shall cause this Permit to be cancelled.

### 2. General Conditions and Interpretation

2.1 Inspections
The Permit Holder must forthwith, upon presentation of credentials, permit a Provincial Officer to carry out any and all inspections authorized by the OWRA, the *Environmental Protection Act*, R.S.O. 1990, the *Pesticides Act*, R.S.O. 1990, or the *Safe Drinking Water Act,* S. O. 2002.

2.2 Other Approvals
The issuance of, and compliance with this Permit, does not:

(a) relieve the Permit Holder or any other person from any obligation to comply with any other applicable legal requirements, including the provisions of the *Ontario Water Resources Act*, and the *Environmental Protection Act*, and any regulations made thereunder; or

(b) limit in any way the authority of the Director or a Provincial Officer to require certain steps be

taken or to require the Permit Holder to furnish any further information related to this Permit.

2.3 Information
The receipt of any information by the Ministry, the failure of the Ministry to take any action or require any person to take any action in relation to the information, or the failure of a Provincial Officer to prosecute any person in relation to the information, shall not be construed as:

(a) an approval, waiver or justification by the Ministry of any act or omission of any person that contravenes this Permit or other legal requirement; or

(b) acceptance by the Ministry of the information's completeness or accuracy.

2.4 Rights of Action
The issuance of, and compliance with this Permit shall not be construed as precluding or limiting any legal claims or rights of action that any person, including the Crown in right of Ontario or any agency thereof, has or may have against the Permit Holder, its officers, employees, agents, and contractors.

2.5 Severability
The requirements of this Permit are severable. If any requirements of this Permit, or the application of any requirements of this Permit to any circumstance, is held invalid or unenforceable, the application of such requirements to other circumstances and the remainder of this Permit shall not be affected thereby.

2.6 Conflicts
Where there is a conflict between a provision of any submitted document referred to in this Permit, including its Schedules, and the conditions of this Permit, the conditions in this Permit shall take precedence.

**3. Water Takings Authorized by This Permit**

3.1 **Expiry**
This Permit expires on **February 15, 2006**. No water shall be taken under authority of this Permit after the expiry date.

3.2 Amounts of Taking Permitted
The Permit Holder shall only take water from the source, during the periods and at the rates and amounts of taking specified in Table A. Water takings are authorized only for the purposes specified in Table A.

**Table A**

| | Source Name / Description: | Source: Type: | Taking Specific Purpose: | Taking Major Category: | Max. Taken per Minute (litres): | Max. Num. of Hrs Taken per Day: | Max. Taken per Day (litres): | Max. Num. of Days Taken per Year: | Zone/ Easting/ Northing: |
|---|---|---|---|---|---|---|---|---|---|
| 1. | Construction Excavation | Pond<br><br>Dugout | Construction | Dewatering Construction | 567.00 | 24.00 | 408204.00 | 240.00 | 18<br>445300<br>5029830 |
| | | | | | | **Total Taking:** | | | |

3.3 Based on section F of the Permit Holder's September 16, 2004 Application for a Permit To Take Water, the Permit Holder shall only take water from the excavation for a total of tweleve (12) hours on each day.

## 4. Monitoring

4.1 In compliance with the Conclusions and Recommendations section (pages 3 and 4) of the May 14, 2004 Trow Associates Inc. report on the *Groundwater Characterization for the City of Ottawa Sewer Discharge Compliance 131 Queen Street Ottawa, Ontario,*the Permit Holder shall treat all excavated water prior to the discharge of the water into the City of Ottawa's sewer system.

4.2 In compliance with the Conclusions and Recommendations section (pages 3 and 4) of the May 14, 2004 Trow Associates Inc. report on the *Groundwater Characterization for the City of Ottawa Sewer Discharge Compliance 131 Queen Street Ottawa, Ontario,*the Permit Holder shall remove all observed liquid layer petroleum hydrocarbons by vacuum truck for disposal at a licenced facillity.

4.3 In compliance with the Conclusions and Recommendations section (pages 3 and 4) of the May 14, 2004 Trow Associates Inc. report on the *Groundwater Characterization for the City of Ottawa Sewer Discharge Compliance 131 Queen Street Ottawa, Ontario,*on a daily basis the Permit Holder shall use appropriate qualified personnel and either appropriate field and/or laboratory devices to monitor the concentrations of volatile parameters in the treated water quality being discharged into the sewer.

## 5. Impacts of the Water Taking

5.1 Notification
The Permit Holder shall immediately notify the local District Office of any complaint arising from the taking of water authorized under this Permit and shall report any action which has been taken or is proposed with regard to such complaint. The Permit Holder shall immediately notify the local District Office if the taking of water is observed to have any significant impact on the surrounding waters. After hours, calls shall be directed to the Ministry's Spills Action Centre at 1-800-268-6060.

5.2 For Groundwater Takings
If the taking of water is observed to cause any negative impact to other water supplies obtained from any adequate sources that were in use prior to initial issuance of a Permit for this water taking, the Permit Holder shall take such action necessary to make available to those affected, a supply of water equivalent in quantity

and quality to their normal takings, or shall compensate such persons for their reasonable costs of so doing, or shall reduce the rate and amount of taking to prevent or alleviate the observed negative impact. Pending permanent restoration of the affected supplies, the Permit Holder shall provide, to those affected, temporary water supplies adequate to meet their normal requirements, or shall compensate such persons for their reasonable costs of doing so.
If permanent interference is caused by the water taking, the Permit Holder shall restore the water supplies of those permanently affected.

5.3 If the water quality of the treated water exceeds a petroleum hydrocarbon or other tested parameter in the City of Ottawa's guidelines for sewer discharge, then the Permit Holder shall cease pumping and immediately report the incident to the local Disrtict office and the City of Ottawa. Pumping shall only be allowed to continue if the Permit Holder can demonstrate to the local District office and the City of Ottawa that future pumping activites will not cause parameters to exceed the City of Ottawa's guidelines for sewer discharge.

**6. Director May Amend Permit**
The Director may amend this Permit by letter requiring the Permit Holder to suspend or reduce the taking to an amount or threshold specified by the Director in the letter. The suspension or reduction in taking shall be effective immediately and may be revoked at any time upon notification by the Director. This condition does not affect your right to appeal the suspension or reduction in taking to the Environmental Review Tribunal under the *Ontario Water Resources Act*, Section 100 (3).

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition 1 is included to ensure that the conditions in this Permit are complied with and can be enforced.

2. Condition 2 is included to clarify the legal interpretation of aspects of this Permit.

3. Conditions 3 through 6 are included to protect the quality of the natural environment so as to safeguard the ecosystem and human health and foster efficient use and conservation of waters. These conditions allow for the beneficial use of waters while ensuring the fair sharing, conservation and sustainable use of the waters of Ontario. The conditions also specify the water takings that are authorized by this Permit and the scope of this Permit.

*In accordance with Section 100 of the Ontario Water Resources Act, R.S.O. 1990, you may by written notice served upon me, the Environmental Review Tribunal and the Environmental Commissioner,* ***Environmental Bill of Rights****, R.S.O. 1993, Chapter 28, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 101 of the Ontario Water Resources Act, as amended provides that the Notice requiring a hearing shall state:*

1. The portions of the Permit or each term or condition in the Permit in respect of which the hearing is required, and;

**CONTENT COPY OF ORIGINAL**

2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*In addition to these legal requirements, the Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Permit to Take Water number;
6. The date of the Permit to Take Water;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 1595-6NTRUM*
*Issue Date: April 19, 2006*

WHWW Hotels (Ottawa) Company
5090 Explorer Drive, 7th Floor
Mississauga, Ontario
L4W 4T9

Site Location: Arc The Hotel
140 Slater Street
Ottawa City, Ontario

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- four (4) natural gas fired hot water boilers, one (1) natural gas fired hot water tank, one (1) natural gas fired air make up unit, having a maximum combined thermal input of 5.0 Gigajoules per hour, and,

- one (1) standby natural gas generator set, having a rating of 7.0 kilowatts, to provide power for the hotel during emergency situations,

all in accordance with the Application for Approval (Air & Noise) dated January 31, 2006, and all supporting documentation and information, signed by Kenny Gibson, (Assistant V.P.), WHWW Hotels (Ottawa) Company.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the natural gas generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment; and

(7) "Owner" means WHWW Hotels (Ottawa) Company, and includes its successors and assignees.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the

CONTENT COPY OF ORIGINAL

Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**OPERATION AND MAINTENANCE**

3. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

**CONTENT COPY OF ORIGINAL**

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) standby diesel generator set, having a rating of 350 kilowatts, to provide power for the facility during emergency situations;

all in accordance with the Application for Approval (Air & Noise) dated July 12, 2011 and signed by Jeffrey Smith, National Real Estate Consultant, The Canadian Red Cross Society, and all supporting information associated with the application including additional information provided by Virtual Engineers, dated July 13, 2011, and signed by Bhagwant Singh, P.Eng.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment;

(6) "Owner" means The Canadian Red Cross Society, and includes its successors and assignees;

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(8) "Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

CONTENT COPY OF ORIGINAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

**OPERATION AND MAINTENANCE**

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

(8) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

CONTENT COPY OF ORIGINAL

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Owner shall ensure that the Generator Set is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Generator Set, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Generator Set, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Generator Set suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Generator Set;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Generator Set, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to emphasize that the Generator Set must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

**This Certificate of Approval revokes and replaces Certificate(s) of Approval No. 3982-6C4NWS issued on May 9,**

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 5570-67XKUY*

The Cadillac Fairview Corporation Limited
20 Queen Street West, 5th Floor
Toronto, Ontario
M5H 3R4

Site Location: Sir Richard Scott Building
191 Laurier Avenue West
Ottawa City, Ontario, K1P 1E7

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) natural gas fired humidifier, one (1) natural gas fired water heater and four (4) natural gas fired boilers, having a total thermal input of 14,955,419 kilojoules per hour;

- one (1) standby natural gas generator set, having a rating of 115 kilowatts, to provide power for the Sir Richard Scott Building during emergency situations; and

- one (1) cooling tower;

all in accordance with the Application for Approval (Air) dated October 29, 2004, and signed by Wayne Banting, Director, Environmental and Health & Safety Services, National Operations, The Cadillac Fairview Corporation Limited and all supporting information associated with the application.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the natural gas generator set, combustion equipment and cooling tower described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the natural gas generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means The Cadillac Fairview Corporation Limited, and includes its successors and assignees; and

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

CONTENT COPY OF ORIGINAL

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Generator Set comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Owner shall restrict the periodic testing of the Generator Set to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Set.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

**CONTENT COPY OF ORIGINAL**

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

# Record of Site Condition

# For Part XV.1 of the *Environmental Protection Act*

## Summary

| | |
|---|---|
| Registration Number | 3378 |
| Status | Filed |
| Filing Date | 2006/06/23 |
| Certification Date | 2006/06/12 |
| Current Property Use | Commercial |
| Intended Property Use | Commercial |
| Certificate of Property Use Number | No CPU |
| Applicable Standards | Full Depth Site Conditions Standard, with Nonpotable Ground Water, Medium/Fine Textured Soil, for Industrial/Commercial/Community property use |
| Property Municipal Address | 199 Slater Street, City of Ottawa, Ontario |

## Notice to Readers Concerning Due Diligence

This record of site condition has been filed on the Environment Site Registry to which the public has access and which contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

## Contents of this Record of Site Condition

This record of site condition consists of this document which is available to be printed directly from the Environmental Site Registry as well as all documentation indicated in this document to have been submitted in paper format to the Ministry of the Environment.

## Definitions

The following definitions are taken from the *Environmental Protection Act* or Regulation 153/04 under that Act and are included for ease of reference. The Act and Regulation should be referenced for other applicable definitions.

In this Record of Site Condition,

"Act" means the *Environmental Protection Act*, as amended;

"Cleanup Guideline 1996" means the Ministry publication entitled "Guideline for Use at Contaminated Sites in Ontario" originally dated June 1996 and later revised;

"Intended property use", in relation to a record of site condition, means the type of property use in respect of which the record of site condition is filed;

"phase one environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"phase two environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"Regulation" means Ontario Regulation 153/04, Records of Site Condition Part XV.1 of the Act, as amended;

"risk assessment" has the same meaning as defined in the Act at s. 168.1;

"RSC" means a record of site condition under Part XV.1 of the Act;

"RSC property", in relation to a record of site condition, means the property in respect of which the record of site condition is filed;

"SSRA" means a site specific risk assessment conducted in accordance with the Cleanup Guideline 1996.

## Part 1: Property Ownership, Property Information and Owner's Certifications

### Information about the owner who is filing or authorizing the filing of the RSC

| | |
|---|---|
| Owner Name | Slater Street (Ottawa) Inc. |
| Corporate Contact (Authorized Officer) | Mr. Anthony Broccolini |
| Mailing Address | Suite 300126 YORK STOTTAWA, ON, K1N 5T5 |
| Phone | 613-2440076x112 |
| Fax | 613-2442028 |
| Email | anthony@broccolini.com |

### RSC Property Location Information

| | |
|---|---|
| Municipal Address | 199 Slater Street, City of Ottawa, Ontario |
| Municipality | OTTAWA |
| Legal Description | Part of Lot 36 and 37, Plan 3922, N. Slater Street, as in CR569677, Ottawa;Part of Lot 36, Plan 3922 N. Slater Street as in CR667688.&Part Lot 37, PLan 3922 N. Slater Street, being Part 2, 5R3458, Ottawa.&Part Lot 37, and Lots 38 39 and 40, Plan 3922, N. Slater Street, being Part 1, 5R3458, except Part 1, 5R13986; S/T N567081; Ottawa. |
| Assessment Roll Number | |
| Property Identification Number (PIN) | 04115 - 0294 LT,  04115 - 0190 LT, 04115 - 0072 LT |
| RSC applies to entire legal property | NO |

### RSC Property Geo Reference

| | |
|---|---|
| UTM Coordinates | NAD83 18-445299-5029816(converted from Latitude & Longitude) |
| Latitude & Longitude | 45.41972220N 75.69916670W |
| Accuracy Estimate | 21 to 100 meters |
| Measurement Method | Digitized from a satellite image |

### RSC Property Use Information

The following types of property uses are defined by the Regulation: Agricultural or other use, Commercial use, Community use, Industrial use, Institutional use, Parkland use, and Residential use.

| | |
|---|---|
| Current Property Use | Commercial |
| Intended Property Use | Commercial |
| Certificate of Property Use has been issued under section 168.6 of the Act | NO |

### Additional Documentation Provided by Property Owner or Agent

The following documents have been submitted to the Ministry of the Environment as part of the record of site condition:

| | |
|---|---|
| 1 | Deed or Transfer for the property |
| 2 | Certificate of Status |
| 3 | Survey of the property |

### Signature and Statements of Property Owner or Agent

As an authorized officer acting on behalf of the owner of the RSC property:

1. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

2. I have conducted reasonable inquiries to obtain all information relevant to this RSC, including information from the other current owners of the RSC property named in this part of the RSC.

3. I have disclosed all information referred to in paragraph 2 to any qualified person named in this RSC.

4. To my knowledge, the statements made in this part of the RSC are true as of _____.

As an authorized officer making the certifications on behalf of the owner:

1. I certify that I have been authorized by the owner of the RSC property to make the statements prescribed by this section on their behalf and that the owner of the RSC property has read and understands the statements being made on their behalf.

Name of Authorized Officer_____ Signature _____ Date _____

A signed and dated copy of this Part of the record of site condition has been received by the Ministry of the Environment prior to the filing of this record of site condition in the Environmental Site Registry.

## Part 2 List of Reports, Summary of Site Conditions, Qualified Person's Certifications

### Qualified Person Information

| | |
|---|---|
| Name | Mark S D'Arcy |
| Company | Paterson Group Inc. |
| Job Title | |
| Business Address | Unit 128 CONCOURSE GATENEPEAN, ON, K2E 7T7 |
| Phone | 613-2267381 |
| Fax | 613-2266344 |
| Email | mdarcy@patersongroup.ca |

### Additional Documentation Provided by the Qualified Person

The following documents have been submitted to the Ministry of the Environment as part of the record of site condition:

| | |
|---|---|
| 1 | Business Name Report in relation to the employer of the qualified person |

### Municipal Information

#### Local or Single-Tier Municipality

| | |
|---|---|
| Municipality | OTTAWA |
| Municipal Clerk | Mr. Joseph Phelan |
| Address | 4th Floor110 LAURIER AVE WOTTAWA, ON, K1P 1J1 |
| Phone | 613-5802424x21609 |
| Fax | 613-5802459 |
| Email | joseph.phelan@ottawa.ca |

### Ministry of the Environment District Office

| | |
|---|---|
| District Office | OTTAWA |
| District Office Address | 2435 Holly LANE, Ottawa, ON, K1V 7P2 |

### Reports Supporting Record of Site Condition

The following types of assessments have been conducted in support of this record of site condition:

- A phase one environmental site assessment
- A phase two environmental site assessment

#### Previous RSCs applying to any part of the RSC property

#### Previous risk assessments or SSRA applying to any part of the RSC property

#### Assessments or other reports have been relied upon in certifying the information set out in this Part

| Date | Report Title | Report Type | Author | Affiliation |
|---|---|---|---|---|
| 2006/06/12 | Environmental Consultation Proposed Telus Building 199 Slater Street (215 Slater Street) - Ottawa | | Mr. Mark D'Arcy | Paterson Group Inc. |

| Date | Report Title | Report Type | Author | Affiliation |
|---|---|---|---|---|
| 2005/11/30 | Preliminary Phase II Environmental Site Asssessment 199 Slater Ottawa, Ontario | | Joseph Bennett | Fondex Ontario Limited |
| 2005/11/01 | Phase I Environmental Ste Assessment 199 Slater Ottawa, Ontario | | Joseph Bennett | Fondex Ontario Limited |

## Site Condition Information

| | |
|---|---|
| Total area of the RSC property (in hectares) | 0.3 |
| Phase Two Environmental Site Assessment applies to the entire RSC property | YES |
| Risk assessment has been prepared and accepted | NO |
| Environmentally Sensitive Area | No |
| Sediment Present | N |
| Soil Texture | Medium/Fine |
| Assessment/Restoration Approach | Full Depth |
| Property Use for Site Condition Standards Determination | Industrial/Commercial/Community |
| Ground Water Condition | Nonpotable |
| Contaminant testing on the Ground Water | Y |
| Local Municipality Non-Potable Water Notification Date | 2006/06/07 |
| Certification Date | 2006/06/12 |

The applicable site condition standards applied for the purpose of this record of site condition are: Full Depth Site Conditions Standard, with Nonpotable Ground Water, Medium/Fine Textured Soil, for Industrial/Commercial/Community property use.

## Final RSC Property Profile - Site Condition Standards

### Soil

## Remedial Action and Mitigation

### Remediated Soils

Estimate of quantities of soil, if any, originating and remaining on the RSC property that have been remediated, at a location either on or off the RSC property, to reduce the concentration of contaminants in the soil.

| Soil Remediation Process | Estimated Quantity of Soil (in-situ cubic meters) |
|---|---|
| No Remediation Provided | |

### Removed Soils

Estimated quantity of soil or sediment, if any, removed from and not returned to the RSC property (in-situ cubic meters): 1600

### Deposited Soils

Estimated quantity of soil or sediment, if any, being brought to and deposited at the RSC property not including any soil that has been remediated off the RSC property (identified in the Soil Remediation Process above) (in-situ cubic meters): 0

### Remediated or Removed Soil From Near Property Boundary

Has any soil, sediment or ground water at the RSC property that is or was located within 3 meters of the RSC property boundary been remediated or removed for the purpose of remediation: YES

### Ground Water Control or Treatment Measures

Ground Water Control or treatment measures that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

none

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

none

### Other Activities Including Risk Management Measures

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known

existing contaminants that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

none

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

none

**Monitoring or Maintenance**

Soil monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

none

Ground Water monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

none

## Certifications

As the qualified person, and in relation to this Part of the RSC, I certify that:

1. A phase one environmental site assessment of the RSC property, which includes the evaluation of the information gathered from a records review, site visit and interviews, has been conducted in accordance with the Regulation by or under the supervision of a qualified person as required by the Regulation.

2. I have conducted or supervised a phase two environmental site assessment, which includes the evaluation of information gathered through the sampling and analysis of soil and other site investigation or assessment activities, of all or part of the RSC property with respect to one or more contaminants, in accordance with the Regulation.

3. The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.

4. As of 2006/06/12, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the RSC property that would interfere with the type of property use to which the RSC property will be put, as specified in the RSC.

5. If non-potable ground water standards have been applied,

    a. I have given written notice of intention to apply non-potable ground water site condition standards to the clerk of the local municipality in which the property is located and the clerk of any upper-tier municipality in which the property is located.

    b. The owner of the property has informed me that either,

        i. the owner did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality or upper-tier municipality receiving the notice described in paragraph a, or

        ii. after receiving a notice of objection from the municipality, the municipality has withdrawn its objection and given written consent to the application of non-potable ground water standards.

    c. I did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality receiving the notice described in paragraph a, or, after I received a notice of objection from the municipality, the municipality gave written consent to the application of non-potable ground water standards.

6. As of 2006/06/12, in my opinion, based on the phase one and phase two environmental site assessments and any

confirmatory sampling, the RSC property meets the applicable Full Depth site condition standards prescribed by section 37 of the Regulation for all contaminants prescribed by the Regulation in relation to the type of property use for which this RSC is filed, except for those contaminants (if any) specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards.

7. As of 2006/06/12, the maximum known concentration of each contaminant in soil, sediment and ground water at the RSC property for which sampling and analysis has been performed is specified in this RSC at Final RSC Property Profile.

8. In relation to any contaminant excepted from the certification mentioned above and as specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards, or in relation to any other contaminant that in my opinion is likely to cause an adverse effect:

    a. A risk assessment was prepared for the contaminant with respect to the property for which the phase two environmental site assessment was conducted.

    b. The Director has accepted the risk assessment under clause 168.5 (1) (a) of the Act.

    c. As of 2006/06/12, the property for which the phase two environmental site assessment was conducted meets the standards specified in the risk assessment for the contaminant.

As the qualified person, and in relation to this Part of the RSC, I also certify that:

1. I am a qualified person and have the qualifications required by section 5 of the Regulation.

2. I have in place an insurance policy that satisfies the requirements of section 7 of the Regulation.

3. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

4. The opinions expressed in this RSC are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practising at the same time and in the same or similar location.

5. To the best of my knowledge, the certifications and statements in this part of the RSC are true as of 2006/06/12.

6. By signing this RSC, I make no express or implied warranties or guarantees.

I, the qualified person named below, on the date stated below, make all of the stated certifications applicable to the qualified person in this Part of the record of site condition.

Name of Qualified Person _____ Signature _____ Date _____

A signed and dated copy of this Part of the record of site condition has been received by the Ministry of the Environment prior to the filing of this record of site condition in the Environmental Site Registry.

# Record of Site Condition Filing Form

## IMPORTANT notes for submission of Record of Site Condition (RSC) to Ministry of the Environment (MOE):

After completing RSC on Brownfields website, ensure that a signed copy of RSC is submitted to MOE.

Print the downloaded version of RSC in PDF.

Ensure that footer of each page of RSC detail indicates that the RSC is on "Submitted" status.

Forward the signed copy of PDF file together with the additional documentation listed under sections:

- Additional Documentation Provided by Property Owner or Agent
- Additional Documentation Provided by Qualified Person

The forwarding address and fax information for MOE office is:

**Ministry of the Environment**
**Environmental Assessment and Approval Branch**
**2 St. Clair Avenue West, Floor 12 A**
**Toronto, Ontario M4V 1L5**

**Fax Number: 416-314-6810**

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 4086-6HGQ7P*
*Issue Date: October 25, 2005*

The Manufacturers Life Insurance Company
55 Metcalfe Street
Ottawa, Ontario
K1P 6L5

Site Location: 220 Laurier Avenue
Ottawa, Ontario

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) standby diesel generator set, having a rating of 125 kilowatts, to provide power for the commercial building during emergency situations;

all in accordance with the Application for Approval (Air & Noise) dated April 19, 2005, and signed by Ronald Rich, Property Manager, Ottawa Region, and all supporting documentation and information associated with the application.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment;

(6) "Owner" means The Manufacturers Life Insurance Company, and includes its successors and assignees;

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(8) "Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between

the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

**OPERATION AND MAINTENANCE**

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing*

**CONTENT COPY OF ORIGINAL**

*shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

Site Location: 222-230 Queen Street
Ottawa City, Ontario

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) water cooling tower, having a design flow rate of 117.3 litres per second, exhausting to the atmosphere at 51 metres above grade;

- one (1) diesel generator set, having a rating of 335 kilowatts, to provide emergency power for the facility, exhausting to the atmosphere through a stack having an exit diameter of 0.2 metre, extending 5.5 metre above the roof and 56.5 metres above grade;

- five (5) natural gas fired heating boilers, each having a thermal input of 3,376,320 kilojoules per hour discharging to the atmosphere;

- one (1) natural gas fired domestic water heater, having a thermal input of 515,944 kilojoules per hour discharging to the atmosphere;

- one (1) natural gas fired heating and cooling unit, having a thermal input of 263,775 kilojoules per hour discharging to the atmosphere;

- four (4) natural gas fired heating and cooling units, each having a thermal input of 247,948 kilojoules per hour discharging to the atmosphere;

- one (1) natural gas fired heating and cooling units, having a thermal input of 211,020 kilojoules per hour discharging to the atmosphere;

- one (1) natural gas fired heating and cooling units, having a thermal input of 131,888 kilojoules per hour discharging to the atmosphere;

all in accordance with the application for a Certificate of Approval (Air) dated February 28, 2003, and signed by Laureen DiNardo, Environmental Process Engineer, Jacques Whitford, on behalf of Dundee Realty Management Corp., and all supporting information associated with the application including additional information dated May 6, 2003.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set and cooling tower described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

CONTENT COPY OF ORIGINAL

(5) "Ministry" means the Ontario Ministry of the Environment;

(6) "Owner" means Dundee Realty Management Corp., and includes its successors and assignees; and

(7) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Company shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Company shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

Ottawa City,

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- two (2) standby diesel generator sets each having a rating of 500 kilowatts, and one (1) standby diesel generator set having a rating of 750 kilowatts, all providing power for the office building during emergency situations;

all in accordance with the Application for Approval (Air) dated October 30, 2002, and all supporting documentation and information, submitted by Jacques Whitford Environment Limited on behalf of Tempest Management Corp. signed by Kristian Smith.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Works" means the emergency diesel generator sets described in the owner's application, this Certificate and in the supporting documentation referred to herein, to the extent approved by this Certificate;

(4) "Owner" means the Tempest 240 Sparks Corp., and includes its successors and assignees;

(5) "Works" means the diesel generator sets described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(6) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(7) "Ministry" means Ministry of Environment; and,

(8) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**PERFORMANCE**

2. The Owner shall ensure that the noise emissions from the works comply with the limits set out in Publication NPC-205.

CONTENT COPY OF ORIGINAL

3. The Company shall ensure that:

(1) no other standby generator sets, located at 235 Queen Street Ottawa City, Ontario,

are operational during the periodic testing of the Equipment;

(2) only one (1) of the three (3) standby diesel generator sets approved under this Certificate is periodically tested at any one time; and,
(3) close fresh air intake louvers located on the C.D. Howe Building east of 750 kilowatts standby diesel generator exhaust system shall be closed whenever periodic testing is carried out.

4. The Owner shall restrict the periodic testing of the works to the hours from 7:00 pm to 11:00 pm.

**OPERATION AND MAINTENANCE**

5. The Owner shall ensure that the works are properly operated and maintained at all times. The Owner shall:

(1) prepare, before commencement of operation of the works, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the works, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the works suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the works;
(d) all appropriate measures to minimize air and noise emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the works, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition No. 1 is imposed to ensure that the works are built and operated in the manner in which they were described for review and upon which approval was granted. This condition is also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition Nos. 2 and 3 are included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the works.

3. Condition No. 5 is included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing*

**CONTENT COPY OF ORIGINAL**

*shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 8495-5GPMSE*

TELUS Integrated Communications (2000) Inc.
12040-107 Street
Edmonton, Alberta
T5G 2S7

Site Location: 250 Albert Street
Ottawa City,

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) standby diesel generator set, having a rating of 230 kilowatts, to provide power for the telecommunications facility during emergency situations;

all in accordance with the Application for Approval (Air) dated September 3, 2002, signed by Brian Love (Project Manager, Real Estate Services), TELUS Integrated Communications (2000) Inc, and all supporting documentation and information,

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Owner" means TELUS Integrated Communications (2000) Inc., and includes its successors and assignees;

(4) "Works" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means Ministry of Environment and Energy; and,

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL CONDITION**

1.1 Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the works in accordance with the description given in this Certificate, the application for approval of the works and the submitted supporting documents and plans and specifications as listed in this Certificate.

1.2 Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

2. The Owner shall ensure that the noise emissions from the works comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

3. The Owner shall restrict the periodic testing of the works to the daytime hours from 7:00 am to 7:00 pm.

4. The Owner shall ensure that the works are properly operated and maintained at all times. The Owner shall:

(1) prepare, before commencement of operation of the works, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the works, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the works suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the works;
(d) all appropriate measures to minimize noise emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the works, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition No. 1 is imposed to ensure that the works are built and operated in the manner in which they were described for review and upon which approval was granted. This condition is also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 2 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the works.

3. Condition No. 3 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the works.

4. Condition No. 4 is included to emphasize that the works must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. *You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) standby diesel generator set, having a rating of 300 kilowatts, to provide power for the office building during emergency situations;

all in accordance with the Application for Approval (Air) dated May 5, 2005, and all supporting documentation and information, signed by Ben Whiting, P.Eng., (Senior Technical Reviewer), an authorized agent of the Office of the Superintendent of Financial Institutions of Canada.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment;

(6) "Owner" means Office of the Superintendent of Financial Institutions of Canada, and includes its successors and assignees;

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(8) "Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Owner shall ensure that:

(1) no other standby generator sets, located at 255 Albert Street, Ottawa, Ontario, are operational during the periodic testing of the Equipment; and,

(2) only one (1) of the two (2) standby diesel generator sets can be periodically tested at any one time.

5. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

6. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

4. Condition No. 5 is included to ensure that the proposed operation, excluding emergency situations, is not extended

**CONTENT COPY OF ORIGINAL**

beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

5. Condition No. 6 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

TERMS AND CONDITIONS

CONTENT COPY OF ORIGINAL

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

**OPERATION AND MAINTENANCE**

4. The Owner shall carry out periodic testing of the Generator Set under practicable reduced loading conditions.

5. The Owner shall carry out the periodic testing of the Generator Set at a reduced load of 30% or less.

6. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- three (3) natural gas fired boilers and two (2) hot water heater, having a maximum combined thermal input of 16.25 Gigajoules per hour, and;

- one (1) standby diesel generator set, having a rating of 900 kilowatts, to provide power for the office building during emergency situations,

all in accordance with the Application for Approval (Air & Noise) dated July 21, 2005, and all supporting documentation and information, signed by Andrew Hollins, (Director, Development Services), GWL Realty Advisors Inc.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment; and

(7) "Owner" means GWL Realty Advisors Inc., and includes its successors and assignees.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**OPERATION AND MAINTENANCE**

3. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 4631-4KSJAA*

GT Group Telecom Services Corp.
840 Howe Street, 3rd Floor, P.O. Box 40
Vancouver, British Columbia
V6Z 2L2

Site Location: 270 Albert Street
Ottawa City, Regional Municipality Of Ottawa-Carleton

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) standby diesel generator set, having a rating of 400 kilowatts, to provide power during emergency situations, exhausting to the atmosphere at a maximum volumetric flow rate of 1.61 actual cubic metres per second at an approximate temperature of 573 degrees Celsius, through a stack having an exit diameter of 0.152 metre, extending 12.1 metres above grade;

all in accordance with the Application for a Certificate of Approval (Air), and all supporting information signed by David Bordignon, MBA, M.Eng., P.Eng., and dated April 3, 2000, as well as additional information provided by Briggs Canada Limited on behalf of GT Group Telecom Services Corp., signed by David Bordignon, and dated May 23, 2000 and May 26, 2000.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(i) "Act" means the *Environmental Protection Act;*

(ii) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(iii) "Company" means GT Group Telecom Services Corp.;

(iv) "Equipment" means the diesel generator set described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(v) “Manual” means a document or a set of documents that provide written instructions to staff of the Company;

(vi) "Ministry" means the Ontario Ministry of the Environment;

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

**TERMS AND CONDITIONS**

**OPERATION AND MAINTENANCE**

1. The Company shall carry out periodic testing of the Equipment at a reduced load of 30%.

2. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, before commencement of operation of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition No. 1 is included to ensure that the nitrogen oxides emissions will not result in an adverse effect at a sensitive receptor.

2. Condition No. 2 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Appeal Board within 15 days after receipt of this Notice, require a hearing by the Board. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 4489-69WR8Z*

Canadian Nuclear Safety Commission
280 Slater Street
Ottawa, Ontario
K1P 5S9

Site Location: 280 Slater Street
Ottawa City, Ontario

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- one (1) standby diesel generator set, having a rating of 910 kilowatts, to provide power for the office building during emergency situations;

all in accordance with the Application for Approval (Air) dated August 16, 2004, and all supporting documentation and information, signed by M. Bergeron (Facilities Manager), Canadian Nuclear Safety Commission.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment; and

(6) "Owner" means Canadian Nuclear Safety Commission, and includes its successors and assignees.

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**OPERATION AND MAINTENANCE**

3. The Owner shall ensure that no other standby generator sets, located at 280 Slater Street, Toronto, Ontario, are operational during the periodic testing of the Equipment.

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;

**CONTENT COPY OF ORIGINAL**

6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

# Record of Site Condition

# For Part XV.1 of the *Environmental Protection Act*

## Summary

| | |
|---|---|
| Registration Number | 40506 |
| Status | Filed |
| Filing Date | 2007/12/14 |
| Certification Date | 2007/11/22 |
| Current Property Use | Commercial |
| Intended Property Use | Residential |
| Certificate of Property Use Number | No CPU |
| Applicable Standards | Full Depth Site Conditions Standard, with Nonpotable Ground Water, Coarse Textured Soil, for Residential/Parkland/Institutional property use |
| Property Municipal Address | 324 LAURIER AVE W, OTTAWA, ON, K1P 0A4 |

## Notice to Readers Concerning Due Diligence

This record of site condition has been filed on the Environment Site Registry to which the public has access and which contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

## Contents of this Record of Site Condition

This record of site condition consists of this document which is available to be printed directly from the Environmental Site Registry as well as all documentation indicated in this document to have been submitted in paper format to the Ministry of the Environment.

## Definitions

The following definitions are taken from the *Environmental Protection Act* or Regulation 153/04 under that Act and are included for ease of reference. The Act and Regulation should be referenced for other applicable definitions.

In this Record of Site Condition,

"Act" means the *Environmental Protection Act*, as amended;

"Cleanup Guideline 1996" means the Ministry publication entitled "Guideline for Use at Contaminated Sites in Ontario" originally dated June 1996 and later revised;

"Intended property use", in relation to a record of site condition, means the type of property use in respect of which the record of site condition is filed;

"phase one environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"phase two environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"Regulation" means Ontario Regulation 153/04, Records of Site Condition Part XV.1 of the Act, as amended;

"risk assessment" has the same meaning as defined in the Act at s. 168.1;

"RSC" means a record of site condition under Part XV.1 of the Act;

"RSC property", in relation to a record of site condition, means the property in respect of which the record of site condition is filed;

"SSRA" means a site specific risk assessment conducted in accordance with the Cleanup Guideline 1996.

## Part 1: Property Ownership, Property Information and Owner's Certifications

### Information about the owner who is filing or authorizing the filing of the RSC

| | |
|---|---|
| Owner Name | Ambassador-Mondrian Inc. |
| Corporate Contact (Authorized Officer) | Mr. Arthur Loeb |
| Mailing Address | Suite 200185 SOMERSET ST WOTTAWA, ON, K2P 0J2 |
| Phone | 613-2331104 |
| Fax | 613-2336582 |
| Email | kamlo@bellnet.ca |

### RSC Property Location Information

| | |
|---|---|
| Municipal Address | 324 LAURIER AVE W<br>OTTAWA, ON, K1P 0A4 |
| Municipality | OTTAWA |
| Legal Description | Lots 33 and 34, Plan 2996; S/S of Laurier Avenue West; Lot 1, Plan 2996, W/S of Bank Bank Street; Lot 33, Plan 2996, N/S of Gloucester Street; Ottawa/Nepean. |
| Assessment Roll Number | 0614041 - 80108300 |
| Property Identification Number (PIN) | 04114 - 0045 LT |
| RSC applies to entire legal property | YES |

### RSC Property Geo Reference

| | |
|---|---|
| UTM Coordinates | NAD83 18-445363-5029723(converted from Latitude & Longitude) |
| Latitude & Longitude | 45.41888890N 75.69833330W |
| Accuracy Estimate | 11 to 20 meters |
| Measurement Method | Digitized from a satellite image |

### RSC Property Use Information

The following types of property uses are defined by the Regulation: Agricultural or other use, Commercial use, Community use, Industrial use, Institutional use, Parkland use, and Residential use.

| | |
|---|---|
| Current Property Use | Commercial |
| Intended Property Use | Residential |
| Certificate of Property Use has been issued under section 168.6 of the Act | NO |

### Additional Documentation Provided by Property Owner or Agent

The following documents have been submitted to the Ministry of the Environment as part of the record of site condition:

| | |
|---|---|
| 1 | Deed or Transfer for the property |
| 2 | Certificate of Status |

### Signature and Statements of Property Owner or Agent

As an authorized officer acting on behalf of the owner of the RSC property:

1. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

2. I have conducted reasonable inquiries to obtain all information relevant to this RSC, including information from the other current owners of the RSC property named in this part of the RSC.

3. I have disclosed all information referred to in paragraph 2 to any qualified person named in this RSC.

4. To my knowledge, the statements made in this part of the RSC are true as of _____.

As an authorized officer making the certifications on behalf of the owner:

1. I certify that I have been authorized by the owner of the RSC property to make the statements prescribed by this section on their behalf and that the owner of the RSC property has read and understands the statements being made on their behalf.

Name of Authorized Officer_____ Signature _____ Date _____

A signed and dated copy of this Part of the record of site condition has been received by the Ministry of the Environment prior to the filing of this record of site condition in the Environmental Site Registry.

## Part 2 List of Reports, Summary of Site Conditions, Qualified Person's Certifications

### Qualified Person Information

| | |
|---|---|
| Name | Mark S D'Arcy |
| Company | Paterson Group Inc. |
| Job Title | |
| Business Address | Unit 128 CONCOURSE GATENEPEAN, ON, K2E 7T7 |
| Phone | 613-2267381 |
| Fax | 613-2266344 |
| Email | mdarcy@patersongroup.ca |

### Additional Documentation Provided by the Qualified Person

The following documents have been submitted to the Ministry of the Environment as part of the record of site condition:

| | |
|---|---|
| 1 | Business Name Report in relation to the employer of the qualified person |

### Municipal Information

#### Local or Single-Tier Municipality

| | |
|---|---|
| Municipality | OTTAWA |
| Municipal Clerk | Mr. Joseph Phelan |
| Address | 4th Floor110 LAURIER AVE WOTTAWA, ON, K1P 1J1 |
| Phone | 613-5802424x21609 |
| Fax | 613-5802459 |
| Email | joseph.phelan@ottawa.ca |

### Ministry of the Environment District Office

| | |
|---|---|
| District Office | OTTAWA |
| District Office Address | 2435 Holly LANE, Ottawa, ON, K1V 7P2 |

### Reports Supporting Record of Site Condition

The following types of assessments have been conducted in support of this record of site condition:

- A phase one environmental site assessment
- A phase two environmental site assessment

#### Previous RSCs applying to any part of the RSC property

#### Previous risk assessments or SSRA applying to any part of the RSC property

#### Assessments or other reports have been relied upon in certifying the information set out in this Part

| Date | Report Title | Report Type | Author | Affiliation |
|---|---|---|---|---|

## Remedial Action and Mitigation

### Remediated Soils

Estimate of quantities of soil, if any, originating and remaining on the RSC property that have been remediated, at a location either on or off the RSC property, to reduce the concentration of contaminants in the soil.

| Soil Remediation Process | Estimated Quantity of Soil (in-situ cubic meters) |
|---|---|
| No Remediation Provided | |

### Removed Soils

Estimated quantity of soil or sediment, if any, removed from and not returned to the RSC property (in-situ cubic meters): 1300

### Deposited Soils

Estimated quantity of soil or sediment, if any, being brought to and deposited at the RSC property not including any soil that has been remediated off the RSC property (identified in the Soil Remediation Process above) (in-situ cubic meters): 0

**Remediated or Removed Soil From Near Property Boundary**

Has any soil, sediment or ground water at the RSC property that is or was located within 3 meters of the RSC property boundary been remediated or removed for the purpose of remediation: YES

**Ground Water Control or Treatment Measures**

Ground Water Control or treatment measures that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

none

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

none

**Other Activities Including Risk Management Measures**

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

none

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

none

**Monitoring or Maintenance**

Soil monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

none

Ground Water monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

none

## Certifications

As the qualified person, and in relation to this Part of the RSC, I certify that:

1. A phase one environmental site assessment of the RSC property, which includes the evaluation of the information gathered from a records review, site visit and interviews, has been conducted in accordance with the Regulation by or under the supervision of a qualified person as required by the Regulation.

2. I have conducted or supervised a phase two environmental site assessment, which includes the evaluation of information gathered through the sampling and analysis of soil and other site investigation or assessment activities, of all or part of the RSC property with respect to one or more contaminants, in accordance with the Regulation.

3. The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.

4. As of 2007/11/22, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the RSC property that would interfere with the type of property use to which the RSC property will

be put, as specified in the RSC.

5. If non-potable ground water standards have been applied,

    a. I have given written notice of intention to apply non-potable ground water site condition standards to the clerk of the local municipality in which the property is located and the clerk of any upper-tier municipality in which the property is located.

    b. The owner of the property has informed me that either,

        i. the owner did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality or upper-tier municipality receiving the notice described in paragraph a, or

        ii. after receiving a notice of objection from the municipality, the municipality has withdrawn its objection and given written consent to the application of non-potable ground water standards.

    c. I did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality receiving the notice described in paragraph a, or, after I received a notice of objection from the municipality, the municipality gave written consent to the application of non-potable ground water standards.

6. As of 2007/11/22, in my opinion, based on the phase one and phase two environmental site assessments and any confirmatory sampling, the RSC property meets the applicable Full Depth site condition standards prescribed by section 37 of the Regulation for all contaminants prescribed by the Regulation in relation to the type of property use for which this RSC is filed, except for those contaminants (if any) specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards.

7. As of 2007/11/22, the maximum known concentration of each contaminant in soil, sediment and ground water at the RSC property for which sampling and analysis has been performed is specified in this RSC at Final RSC Property Profile.

8. In relation to any contaminant excepted from the certification mentioned above and as specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards, or in relation to any other contaminant that in my opinion is likely to cause an adverse effect:

    a. A risk assessment was prepared for the contaminant with respect to the property for which the phase two environmental site assessment was conducted.

    b. The Director has accepted the risk assessment under clause 168.5 (1) (a) of the Act.

    c. As of 2007/11/22, the property for which the phase two environmental site assessment was conducted meets the standards specified in the risk assessment for the contaminant.

As the qualified person, and in relation to this Part of the RSC, I also certify that:

1. I am a qualified person and have the qualifications required by section 5 of the Regulation.

2. I have in place an insurance policy that satisfies the requirements of section 7 of the Regulation.

3. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

4. The opinions expressed in this RSC are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practising at the same time and in the same or similar location.

5. To the best of my knowledge, the certifications and statements in this part of the RSC are true as of 2007/11/22.

6. By signing this RSC, I make no express or implied warranties or guarantees.

I, the qualified person named below, on the date stated below, make all of the stated certifications applicable to the qualified person in this Part of the record of site condition.

Name of Qualified Person _____ Signature _____ Date _____

A signed and dated copy of this Part of the record of site condition has been received by the Ministry of the Environment prior to the filing of this record of site condition in the Environmental Site Registry.

# Record of Site Condition Filing Form

## IMPORTANT notes for submission of Record of Site Condition (RSC) to Ministry of the Environment (MOE):

After completing RSC on Brownfields website, ensure that a signed copy of RSC is submitted to MOE.

Print the downloaded version of RSC in PDF.

Ensure that footer of each page of RSC detail indicates that the RSC is on "Submitted" status.

Forward the signed copy of PDF file together with the additional documentation listed under sections:

- Additional Documentation Provided by Property Owner or Agent
- Additional Documentation Provided by Qualified Person

The forwarding address and fax information for MOE office is:

**Ministry of the Environment**
**Environmental Assessment and Approval Branch**
**2 St. Clair Avenue West, Floor 12 A**
**Toronto, Ontario M4V 1L5**

**Fax Number: 416-314-6810**

*PERMIT TO TAKE WATER*
*Surface and Ground Water*

*NUMBER 7211-6BVK95*

*Pursuant to Section 34 of the Ontario Water Resources Act, R.S.O. 1990 this Permit To Take Water is hereby issued to:*

Oxford Properties Group
Suite 200 - 350 Albert Street (Constitution Square),
Ottawa, Ontario, K1R 1A4
Canada

*For the water taking from:* One (1) excavation
*Located at:* 350 Albert Street
Ottawa

*For the purposes of this Permit, and the terms and conditions specified below, the following definitions apply:*

**DEFINITIONS**

(a) "Director" means any person appointed in writing as a Director pursuant to section 5 of the OWRA for the purposes of section 34, OWRA.

(b) "Provincial Officer" means any person designated in writing by the Minister as a Provincial Officer pursuant to section 5 of the OWRA.

(c) "Ministry" means Ontario Ministry of the Environment.

(d) "District Office" means the Ottawa District Office.

(e) "Permit" means this Permit to Take Water No. 7211-6BVK95 including its Schedules, if any, issued in accordance with Section 34 of the OWRA.

(f) "Permit Holder" means Oxford Properties Group.

(g) "OWRA " means the *Ontario Water Resources Act*, R.S.O. 1990, c. O. 40, as amended.

(h) "Ottawa" means the former Geographic Township of Ottawa, now located in the City of Ottawa.

*You are hereby notified that this Permit is issued subject to the terms and conditions outlined below:*

**TERMS AND CONDITIONS**

CONTENT COPY OF ORIGINAL

## 1. Compliance with Permit

1.1 Except where modified by this Permit, the water taking shall be in accordance with the application for this Permit To Take Water, dated March 21, 2005 and signed by Paul Hurst (Golder Associates Ltd. - authorized agent), and all Schedules included in this Permit.

1.2 The Permit Holder shall ensure that any person authorized by the Permit Holder to take water under this Permit is provided with a copy of this Permit and shall take all reasonable measures to ensure that any such person complies with the conditions of this Permit.

1.3 Any person authorized by the Permit Holder to take water under this Permit shall comply with the conditions of this Permit.

1.4 This Permit is not transferable to another person.

1.5 This Permit provides the Permit Holder with permission to take water in accordance with the conditions of this Permit, up to the date of the expiry of this Permit. This Permit does not constitute a legal right, vested or otherwise, to a water allocation, and the issuance of this Permit does not guarantee that, upon its expiry, it will be renewed.

1.6 The Permit Holder shall keep this Permit available at all times at or near the site of the taking, and shall produce this Permit immediately for inspection by a Provincial Officer upon his or her request.

1.7 The Permit Holder shall report any changes of address to the Director within thirty days of any such change. The Permit Holder shall report any change of ownership of the property for which this Permit is issued within thirty days of any such change. A change in ownership in the property shall cause this Permit to be cancelled.

## 2. General Conditions and Interpretation

2.1 Inspections
The Permit Holder must forthwith, upon presentation of credentials, permit a Provincial Officer to carry out any and all inspections authorized by the OWRA, the *Environmental Protection Act*, R.S.O. 1990, the *Pesticides Act*, R.S.O. 1990, or the *Safe Drinking Water Act,* S. O. 2002.

2.2 Other Approvals
The issuance of, and compliance with this Permit, does not:

(a) relieve the Permit Holder or any other person from any obligation to comply with any other applicable legal requirements, including the provisions of the *Ontario Water Resources Act*, and the *Environmental Protection Act*, and any regulations made thereunder; or

(b) limit in any way the authority of the Director or a Provincial Officer to require certain steps be

taken or to require the Permit Holder to furnish any further information related to this Permit.

2.3 Information
The receipt of any information by the Ministry, the failure of the Ministry to take any action or require any person to take any action in relation to the information, or the failure of a Provincial Officer to prosecute any person in relation to the information, shall not be construed as:

(a) an approval, waiver or justification by the Ministry of any act or omission of any person that contravenes this Permit or other legal requirement; or

(b) acceptance by the Ministry of the information's completeness or accuracy.

2.4 Rights of Action
The issuance of, and compliance with this Permit shall not be construed as precluding or limiting any legal claims or rights of action that any person, including the Crown in right of Ontario or any agency thereof, has or may have against the Permit Holder, its officers, employees, agents, and contractors.

2.5 Severability
The requirements of this Permit are severable. If any requirements of this Permit, or the application of any requirements of this Permit to any circumstance, is held invalid or unenforceable, the application of such requirements to other circumstances and the remainder of this Permit shall not be affected thereby.

2.6 Conflicts
Where there is a conflict between a provision of any submitted document referred to in this Permit, including its Schedules, and the conditions of this Permit, the conditions in this Permit shall take precedence.

**3. Water Takings Authorized by This Permit**

3.1 **Expiry**
This Permit expires on **April 30, 2006**. No water shall be taken under authority of this Permit after the expiry date.

3.2 Amounts of Taking Permitted
The Permit Holder shall only take water from the source, during the periods and at the rates and amounts of taking specified in Table A. Water takings are authorized only for the purposes specified in Table A.

**Table A**

| | Source Name / Description: | Source: Type: | Taking Specific Purpose: | Taking Major Category: | Max. Taken per Minute (litres): | Max. Num. of Hrs Taken per Day: | Max. Taken per Day (litres): | Max. Num. of Days Taken per Year: | Zone/ Easting/ Northing: |
|---|---|---|---|---|---|---|---|---|---|
| 1. | excavation | Pond<br><br>Dugout | Construction | Dewatering Construction | 173.00 | 24.00 | 248760.00 | 365.00 | 18<br>445050<br>5029700 |
| | | | | | | **Total Taking:** | 248760.00 | | |

## 4. Monitoring

4.1 The Permit Holder shall maintain a record of all water takings. This record shall include the dates and times of water takings, the rates of pumping, and an estimated calculation of the total amounts of water pumped per day for each day that water is taken under the authorization of this Permit. A separate record shall be maintained for each source. The Permit Holder shall keep all required records up to date and available at or near the site of the taking and shall produce the records immediately for inspection by a Provincial Officer upon his or her request.

## 5. Impacts of the Water Taking

5.1 Notification
The Permit Holder shall immediately notify the local District Office of any complaint arising from the taking of water authorized under this Permit and shall report any action which has been taken or is proposed with regard to such complaint. The Permit Holder shall immediately notify the local District Office if the taking of water is observed to have any significant impact on the surrounding waters. After hours, calls shall be directed to the Ministry's Spills Action Centre at 1-800-268-6060.

5.2 For Surface-Water Takings
The taking of water (including the taking of water into storage and the subsequent or simultaneous withdrawal from storage) shall be carried out in such a manner that streamflow is not stopped and is not reduced to a rate that will cause interference with downstream uses of water or with the natural functions of the stream.

For Groundwater Takings
If the taking of water is observed to cause any negative impact to other water supplies obtained from any adequate sources that were in use prior to initial issuance of a Permit for this water taking, the Permit Holder shall take such action necessary to make available to those affected, a supply of water equivalent in quantity and quality to their normal takings, or shall compensate such persons for their reasonable costs of so doing,

or shall reduce the rate and amount of taking to prevent or alleviate the observed negative impact. Pending permanent restoration of the affected supplies, the Permit Holder shall provide, to those affected, temporary water supplies adequate to meet their normal requirements, or shall compensate such persons for their reasonable costs of doing so.
If permanent interference is caused by the water taking, the Permit Holder shall restore the water supplies of those permanently affected.

**6. Director May Amend Permit**
The Director may amend this Permit by letter requiring the Permit Holder to suspend or reduce the taking to an amount or threshold specified by the Director in the letter. The suspension or reduction in taking shall be effective immediately and may be revoked at any time upon notification by the Director. This condition does not affect your right to appeal the suspension or reduction in taking to the Environmental Review Tribunal under the *Ontario Water Resources Act*, Section 100 (3).

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition 1 is included to ensure that the conditions in this Permit are complied with and can be enforced.

2. Condition 2 is included to clarify the legal interpretation of aspects of this Permit.

3. Conditions 3 through 6 are included to protect the quality of the natural environment so as to safeguard the ecosystem and human health and foster efficient use and conservation of waters. These conditions allow for the beneficial use of waters while ensuring the fair sharing, conservation and sustainable use of the waters of Ontario. The conditions also specify the water takings that are authorized by this Permit and the scope of this Permit.

*In accordance with Section 100 of the Ontario Water Resources Act, R.S.O. 1990, you may by written notice served upon me, the Environmental Review Tribunal and the Environmental Commissioner,* ***Environmental Bill of Rights****, R.S.O. 1993, Chapter 28, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 101 of the Ontario Water Resources Act, as amended provides that the Notice requiring a hearing shall state:*

1. The portions of the Permit or each term or condition in the Permit in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*In addition to these legal requirements, the Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Permit to Take Water number;

**CONTENT COPY OF ORIGINAL**

6. The date of the Permit to Take Water;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*CERTIFICATE OF APPROVAL*
*AIR*
*NUMBER 0625-7CFSTA*
*Issue Date: March 7, 2008*

360 Laurier Avenue West Limited
130 Slater St., Suite 1025
Ottawa, Ontario
K1P 6E2

Site Location: 360 Laurier Avenue West
Ottawa, Ontario
K1P 1C8

*You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:*

- Various natural gas-fired HVAC equipment consisting of two (2) boilers and one (1) hot water heater having a maximum combined thermal input of 5,543,374 kilojoules per hour, and

- one (1) standby diesel generator set, having a rating of 150 kilowatts, to provide power for the facility during emergency situations, and

- one (1) cooling tower

all in accordance with the Application for Approval (Air & Noise) dated November 13, 2007 and signed by Brady Welch, (Managing Director), 360 Laurier Avenue West Limited, and all supporting information associated with the application including additional information provided by Pinchin Environmental Ltd., dated November 15, 2007, and signed by Roslyn Miller.

*For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:*

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means 360 Laurier Avenue West Limited, and includes its successors and assignees; and

(8) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

**CONTENT COPY OF ORIGINAL**

*You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:*

TERMS AND CONDITIONS

**GENERAL**

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

**PERFORMANCE**

3. The Owner shall ensure that the noise emissions from the Generator Set comply with the limits set out in Publication NPC-205.

**OPERATION AND MAINTENANCE**

4. The Owner shall carry out periodic testing of the Generator Set under practicable reduced loading conditions.

5. The Owner shall carry out the periodic testing of the Generator Set at a reduced load of 30% or less.

6. The Owner shall restrict the periodic testing of the Generator Set to the daytime hours from 5:00 pm to 7:00 pm.

7. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

**CONTENT COPY OF ORIGINAL**

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition Nos. 4 and 5 are included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

4. Condition No. 6 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Set.

5. Condition No. 7 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:*

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

*The Notice should also include:*

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

*And the Notice should be signed and dated by the appellant.*

*This Notice must be served upon:*

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

**OPERATION AND MAINTENANCE**

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

*The reasons for the imposition of these terms and conditions are as follows:*

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

*In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by*

Dear Hailey Perras:

RE: **MECP FOI A-2025-02500 / Your Reference G2S25042A – Acknowledgement Letter**

The Ministry is in receipt of your request made pursuant to the Freedom of Information and Protection of Privacy Act. **The search will be conducted on the following:**

**110 O'Connor Street, Ottawa**

**Timeframe: January 01, 1875 to April 15, 2025**

**If there is any discrepancy, please contact us immediately.**

Please note the file number that has been assigned to your request. This number should be referred to in all future communications with our office.

If you have any questions, please contact Daniela Jaramillo at daniela.jaramillo@ontario.ca.

Yours truly,
MECP Access and Privacy Office

Ontario

# Ministry of the Environment, Conservation and Parks

# Freedom of Information Request for Property Information

## Instructions

Use this form to:

- submit and pay for a new FOI request for access to records/information about a property
- pay for a deposit or a final fee on an existing FOI request

Fields marked with an asterisk (*) are mandatory.

**Are you: ***

☑ Submitting a new FOI Request for Property Information

☐ Paying a deposit or final fee for an existing FOI Request for Property Information

## Section 1 – Description of Records Requested

**Time Period for Records Requested**

From (yyyy/mm/dd) * 1875/01/01

To (yyyy/mm/dd) * 2025/04/15

**Type of Record(s) ***

☑ All environmental records relating to the identified property/site exclusive of Environmental Approvals and Registrations

☑ Environmental Approvals and Registrations (e.g. Environmental Compliance Approvals; Certificate of Approval; Renewable Energy Approvals; Environmental Activity and Sector Registry Registrations)

Select only if you are seeking access to an Approval or Registration that is not publicly available or if you are also seeking supporting documents relating to the Approval or Registration.

Operator and vendor Pesticide Licenses from September 4, 2018, final Approvals and Registrations are publicly available on the Access Environment website at:
https://www.accessenvironment.ene.gov.on.ca/AEWeb/ae/GoSearch.action?search=basic&lang=en.

Records of Site Condition (RSC) records are publicly available on the Brownfields Environmental Site Registry (BSER).

- RSC records between 2004 to June 30, 2011 are available at: https://www.lrcsde.lrc.gov.on.ca/besrWebPublic/generalSearch
- RSC records filed after July 2011 are available at: https://www.lrcsde.lrc.gov.on.ca/BFISWebPublic/pub/earchFiledRsc_search?request_locale=en

☐ Other Specific Document(s)

**Type of Approval/Registration ***

☑ Drinking Water Licenses

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Pesticide Licenses

 © King's Printer for Ontario, 2022 

Only pesticide licenses post September 2018 are available. Prior to September 2018, only Pesticide license applications and supporting documentation is available

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Permits to Take Water

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

Water Source *

☑ Groundwater ☐ Surface Water

☑ Noise Vibrations Approvals/Registrations

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Air Emissions Approvals/Registrations

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Water Approvals/Registrations - Ontario Water Resources Commission, treatment, ground level, standpipes & elevated storage, pumping stations (local & booster), mains

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Sewage – Treatment, Stormwater, Storm, Leachate & Lieachate Treatment & Sewage pump stations, Sanitary

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Waste Water - Industrial discharge

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Waste Sites - Disposal, Landfill sites, Transfer stations, Processing sites, Incinerator sites

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

☑ Waste Management Systems - haulers: sewage, non-hazardous & hazardous waste, mobile waste processing units, Polychlorinated Biphenyls (PCBs) storage, transfer or destruction, Waste Generator Systems)

☐ No Supporting Documents ☑ All Supporting Documents ☐ Some Supporting Documents

Company Name

☑ Waste Generator Registration - number/class

List any record(s) that should be excluded from the scope of your request (e.g. email correspondences; records originating from your organization/business; records already in your possession, prior year(s) annual reports for approvals)

Please provide any additional relevant information relating to your request. For example, does your request relate to any other ministry business? Please note that this information is being requested only in order to provide contextual information to the Access and Privacy Office and will not in any way affect or expedite the status of any related ministry business identified.

## Section 2 – Requester Information

Last Name * Perras

First Name * Hailey

Middle Initial

Business/Organization Name (if applicable or indicate "N/A") * G2S

Project/Reference Number (if applicable) G2S25042A

Are you submitting this request on behalf of a client? *

☐ Yes ☑ No

**Mailing Address**

Unit Number

Street Number * 4361

Street Name * Harvester Road, Unit 12

PO Box

City/Town * Burlington

Province * ON

Postal Code * L7L 5M4

Telephone Number * 905-220-8587

ext.

Email Address * haileyp@g2sconsulting.com

Is there an alternate contact (e.g. office admin)? *

☐ Yes ☑ No

## Section 3 – Current Property Address Information

Is the property a:

☐ Park ☐ Lake ☐ First Nation Band ☐ Wind Farm ☐ Federal Land ☐ Island ☐ Unsurveyed Land

Are you requesting information about multiple addresses? *

☐ Yes ☑ No

**Property Address**

Unit Number

Street Number 110

Street Name O'Connor Street

Full Lot Number

Concession

Geographic Township

City/Town/Village * Ottawa

Closest Intersection

## Section 4 – Previous Property Address Information

Do you want the ministry to search all prior historical addresses for this property/site for the time period of the records requested? *

☐ Yes ☑ No

## Section 5 – Owner Information

Please provide all present and previous property owner and/or tenant names for the search years requested.

**Current Property Owner/Tenant**

110 O'Connor Street
Ottawa

Owner Name

ÉDIFICE 110 O'CONNOR INC./110 O'CONNOR BUILDING INC.

Date of Ownership (yyyy/mm/dd)

Tenant Name

## Section 6 – Supporting Documents

Please upload any documents (e.g. Maps) that are relevant to your FOI request.

The total size of all attachments must not be more than 8 MB.

**NO RECORD FOUND IN CURRENT DATABASE**

Hello,

Thank you for your request for confirmation of public information. TSSA has performed a preliminary search of TSSA's current database.

- We confirm that there are no records in our current database of any fuel storage tanks at the subject address(es).

This is not a confirmation that there are no records in the archives. For a further search in our archives, please go to the **TSSA Client Portal** to complete an Application for Release of Public Information.

Please refer to How to Submit a Public Information Request (tssa.org) for instructions.

The associated fee must be paid via credit card (Visa or MasterCard).

Once all steps have been successfully completed you will receive your payment receipt via email.

TSSA does not make any representations or warranties with respect to the accuracy or completeness of any records released. The requestor assumes all risk in using or relying on the information provided.

If you have any questions or concerns, please do not hesitate to contact our Public Information Release team at publicinformationservices@tssa.org.

Kind regards,

**Kimberly Gage | Public Information & Records Agent**

# Well Record for Well Cluster - Part 3 of 3
# Detailed Drawing of All Well Locations

**Note**: This **Well Record for Well Cluster Part 3 - Detailed Drawing of all Well Locations,** must be attached to Parts 1 and 2.
The drawing must include all property boundaries, an arrow indicating the North direction, all named roads and sufficient measurements to locate all wells in the cluster in relation to fixed points. The drawing must show the location of each well and each well must be numbered on the drawing to match number used for that well on the **Well Record for Well Cluster Parts 1 and 2.**
The well with the well tag must be clearly identified on the Drawing.
UTM coordinates should appear beside each well, if space permits. Additional comments on wells can be included on the drawing

# Master Well Record for Cluster Well Construction

*Regulation 903 Ontario Water Resources Act*

Page 1 of 3

## Master Well Owner's and Land Owner's Information

| First Name | Last Name | E-mail Address |
|---|---|---|
| Broccolini Construction Inc. | | |

| Mailing Address (Street Number/Name, RR) | Municipality | Province | Postal Code | Telephone No. (inc. area code) |
|---|---|---|---|---|
| 121 York St. Suite 300 | Ottawa | ON | K1N5T5 | 6132440076 |

## Location and Construction of the Master Well in the Cluster

| Address of Well Location (Street Number/Name, RR) | Township | Lot | Concession |
|---|---|---|---|
| 150 Slater Street | | | |

| County/District/Municipality | City/Town/Village | Province | Postal Code |
|---|---|---|---|
| | Ottawa. | Ontario | |

| UTM Coordinates | Zone | Easting | Northing | GPS Unit Make | Model | Mode of Operation |
|---|---|---|---|---|---|---|
| NAD 83 | 18 | 445417 | 5029884 | Garmin | Etrex | ☐ Undifferentiated ☑ Averaged ☐ Differentiated, specify |

## Overburden and Bedrock Materials *(see instructions on the back of this form)*

| General Colour | Most Common Material | Other Materials | General Description | Depth (Metres) From | Depth (Metres) To |
|---|---|---|---|---|---|
| | Asphalatic concrete slab. | | | 0 | 0.15 |
| Grey Brown | Silty sand, gravel | asphaltic concrete | | 0.15 | 1.75 |
| Grey Brown | Silty clay | | very stiff | 1.75 | 2.62 |
| Grey Brown | Silty sand | trace clay | loose to compact | 2.62 | 5.94 |
| Dk Grey | Silty sand | trace clay | shale fragments | 5.94 | 7.32 |
| Black | Shale Bedrock | some grey limestone | | 7.32 | 30.76 |

## Hole Details

| Depth (Metres) From | Depth (Metres) To | Diameter (Centimetres) |
|---|---|---|
| 0 | 7.3 | 20 |
| 7.3 | 30.7 | 10 |

## Water Use

☐ Public ☐ Industrial ☐ Not used ☐ Other, specify
☐ Domestic ☐ Commercial ☐ Dewatering
☐ Livestock ☐ Municipal ☑ Monitoring
☐ Irrigation ☐ Test Hole ☐ Cooling & Air Conditioning

## Method of Construction

☐ Cable Tool ☐ Air Percussion ☐ Digging
☐ Rotary (Conventional) ☑ Diamond ☐ Boring
☐ Rotary (Reverse) ☐ Jetting ☑ Other, specify
☐ Rotary (Air) ☐ Driving HSA

## Status of Well

☑ Test Hole ☐ Abandoned, Insufficient Supply
☐ Replacement Well ☐ Abandoned, Poor Water Quality
☐ Dewatering Well ☐ Other, specify
☐ Alteration (Construction) ☐ Abandoned, other, specify

## Construction Details

| Inside Diameter (Centimetres) | Material (steel, plastic, fibreglass, concrete, galvanized) | Wall Thickness | Depth (Metres) From | Depth (Metres) To |
|---|---|---|---|---|
| 5.1 | PVC. | Sched 40 | 0 | 30.4 |

## No Casing and Screen Used

Open Hole ☐ Yes ☑ No

## Static Water Level Test

Metres

## Screen

☐ Galvanized ☐ Steel ☐ Fibreglass ☐ Concrete ☑ Plastic

| Outside Diameter (Centimetres) | Slot No. |
|---|---|
| 5.8 | 10 |

## Annular Space/Abandonment Sealing Record

| Depth Set at (Metres) From | Depth Set at (Metres) To | Type of Sealant Used (Material and Type) | Volume Used (Cubic Metres) |
|---|---|---|---|
| 0 | 30.4 | Bentonite grout | 300 Kgs |

## Water Details

| Water found at Depth | Kind of Water |
|---|---|
| No water Metres ☐ Gas | ☐ Fresh ☐ Salty ☐ Sulphur ☐ Minerals |
| Metres ☐ Gas | ☐ Fresh ☐ Salty ☐ Sulphur ☐ Minerals |
| Metres ☐ Gas | ☐ Fresh ☐ Salty ☐ Sulphur ☐ Minerals |

Disinfected ☐ Yes ☑ No If no, provide reason: Monitoring well

Date Master Well Completed (yyyy/mm/dd): 2008/08/12

## Cluster Information *(Please also fill out the additional Cluster Well Information for Well Construction for each parcel of land and cluster.)*

| Total Wells in Cluster | Please indicate Number of Cluster Well Information Log Sheets Submitted |
|---|---|
| 6 | 1 |
| Total Wells on this Property: unknown | |

## Location of Well Cluster

Detailed Map must be provided as an attachment no larger than legal size (8.5" x 14"). Sketches are not allowed.

# Master Well Record for Cluster Well Construction

*Regulation 903 Ontario Water Resources Act*

Page 1 of 2

## Master Well Owner's and Land Owner's Information

| First Name | Last Name | E-mail Address |
|---|---|---|
| Shell Canada Products | | |

| Mailing Address (Street Number/Name, RR) | Municipality | Province | Postal Code | Telephone No. (inc. area code) |
|---|---|---|---|---|
| 90 Sheppard Ave. Ste 600 | Toronto | ON | M2N1G4J2 | 416 212 7171 |

## Location and Construction of the Master Well in the Cluster

| Address of Well Location (Street Number/Name, RR) | Township | Lot | Concession |
|---|---|---|---|
| 154 O'Connor Street | | | |

| County/District/Municipality | City/Town/Village | Province | Postal Code |
|---|---|---|---|
| | Ottawa | Ontario | |

| UTM Coordinates | Zone | Easting | Northing | GPS Unit Make | Model | Mode of Operation |
|---|---|---|---|---|---|---|
| NAD 8 3 | 18 | 445141815 | 5012976147 | Garmin | Etrex | ☐ Undifferentiated ☑ Averaged ☐ Differentiated, specify |

## Overburden and Bedrock Materials *(see instructions on the back of this form)*

| General Colour | Most Common Material | Other Materials | General Description | Depth (Metres) From | Depth (Metres) To |
|---|---|---|---|---|---|
| Asphalt surface | | | | 0 | 0.1 |
| Grey | Sand + Gravel Fill | | moist | 0.1 | 0.4 |
| Brown | Sand Fill | | | 0.4 | 0.5 |
| Brown/Black | Sandy clay fill | | moist | 0.5 | 1.5 |
| Grey | Silty clay | some sand fractured | | 1.5 | 4.8 |
| Black/Brown | unconsolidated shale | | | 4.8 | 6.1 |

## Hole Details

| Depth (Metres) From | Depth (Metres) To | Diameter (Centimetres) |
|---|---|---|
| 0 | 4.8 | 20 |
| 4.8 | 6.1 | 10 |
| | | |
| | | |

## Water Use

☐ Public ☐ Industrial ☐ Not used ☐ Other, specify
☐ Domestic ☐ Commercial ☐ Dewatering
☐ Livestock ☐ Municipal ☑ Monitoring
☐ Irrigation ☐ Test Hole ☐ Cooling & Air Conditioning

## Method of Construction

☐ Cable Tool ☐ Air Percussion ☐ Digging
☐ Rotary (Conventional) ☐ Diamond ☐ Boring
☐ Rotary (Reverse) ☐ Jetting ☐ Other, specify Geoprobe
☐ Rotary (Air) ☐ Driving

## Status of Well

☑ Test Hole ☐ Abandoned, Insufficient Supply
☐ Replacement Well ☐ Abandoned, Poor Water Quality
☐ Dewatering Well ☐ Other, specify
☐ Alteration (Construction) ☐ Abandoned, other, specify

## Construction Details

| Inside Diameter (Centimetres) | Material (steel, plastic, fibreglass, concrete, galvanized) | Wall Thickness | Depth (Metres) From | Depth (Metres) To |
|---|---|---|---|---|
| 3.2 | ~~Abandoned~~ PVC | Sched 40 | 0 | 3.0 |

## No Casing and Screen Used

Open Hole ☐ Yes ☑ No

## Static Water Level Test

>6.8 Metres

## Screen

☐ Galvanized ☐ Steel ☐ Fibreglass ☐ Concrete ☑ Plastic

| Outside Diameter (Centimetres) | Slot No. |
|---|---|
| 3.8 | 10 |

## Water Details

| Water found at Depth | Kind of Water |
|---|---|
| Metres ☐ Gas | ☐ Fresh ☐ Salty ☐ Sulphur ☐ Minerals |
| Metres ☐ Gas | ☐ Fresh ☐ Salty ☐ Sulphur ☐ Minerals |
| Metres ☐ Gas | ☐ Fresh ☐ Salty ☐ Sulphur ☐ Minerals |

## Annular Space/Abandonment Sealing Record

| Depth Set at (Metres) From | Depth Set at (Metres) To | Type of Sealant Used (Material and Type) | Volume Used (Cubic Metres) |
|---|---|---|---|
| 0.1 | 2.4 | Bentonite | 40 kgs |

| Disinfected | If no, provide reason | Date Master Well Completed (yyyy/mm/dd) |
|---|---|---|
| ☐ Yes ☑ No | Monitoring Well | 2009/07/25 |

## Cluster Information *(Please also fill out the additional Cluster Well Information for Well Construction for each parcel of land and cluster.)*

| Total Wells in Cluster | Please indicate Number of Cluster Well Information Log Sheets Submitted |
|---|---|
| 7 | |
| Total Wells on this Property | |
| Unknown | 1 |

## Location of Well Cluster

Detailed Map must be provided as an attachment no larger than legal size (8.5" x 14"). Sketches are not allowed.
☐ Check box to confirm detailed map is provided as per Section 11.1 (3)

## Well Cluster Location Information

| Address of Well Location (Street Number(s)/Name(s), RR, if available) | Lot(s) | Concession(s) | Geographic Township | County/District/Upper Tier Municipality |
|---|---|---|---|---|
| 176 NEPEAN STREET, 293-309 LISGAR STREET | | | | |

| City, Town, Village or Hamlet | Province | GPS Unit Make | Model | Unit Mode of Operation |
|---|---|---|---|---|
| OTTAWA | Ontario | GARMIN | ETREX | ☐ Undifferentiated ☐ Averaged ☐ Differentiated, specify: |

## Mandatory Attachments/Additional Information

☒ Land Owner Consent Form must be attached.

☒ Detailed Drawing of All Well Locations must be attached.

I, the person constructing the well, will promptly submit to the Director, on request, any additional information in my custody or control related to any well in the well cluster that I have constructed.

Signature of Technician/Contractor — Date (yyyy/mm/dd): 2017/09/18

# Well Record for Well Cluster - Part 3 of 3
# Detailed Drawing of All Well Locations

**Note**: This **Well Record for Well Cluster Part 3 - Detailed Drawing of all Well Locations,** must be attached to Parts 1 and 2. The drawing must include all property boundaries, an arrow indicating the North direction, all named roads and sufficient measurements to locate all wells in the cluster in relation to fixed points. The drawing must show the location of each well and each well must be numbered on the drawing to match number used for that well on the **Well Record for Well Cluster Parts 1 and 2.** The well with the well tag must be clearly identified on the Drawing.
UTM coordinates should appear beside each well, if space permits. Additional comments on wells can be included on the drawing

**Well Tag Number:** # A203689

**"Well Record for Well Cluster" Form Audit Number:** # C30157

# Well Record

*Regulation 903 Ontario Water Resources Act*

S-22829 Page ___ of ___

[redacted]

| Address of Well Location (Street Number/Name) | Township | Lot | Concession |
|---|---|---|---|
| 280 Slater St. | | | |

| County/District/Municipality | City/Town/Village | Province | Postal Code |
|---|---|---|---|
| | Ottawa | Ontario | |

| UTM Coordinates | Zone | Easting | Northing | Municipal Plan and Sublot Number | Other |
|---|---|---|---|---|---|
| NAD 83 | 18 | 445234 | 5029749 | | |

**Overburden and Bedrock Materials/Abandonment Sealing Record** *(see instructions on the back of this form)*

| General Colour | Most Common Material | Other Materials | General Description | Depth (m/ft) From | To |
|---|---|---|---|---|---|
| | | | | | |

**Annular Space**

| Depth Set at (m/ft) From | To | Type of Sealant Used (Material and Type) | Volume Placed (m³/ft³) |
|---|---|---|---|
| 0 | .31 | asphalt patch | |
| .31 | 3.1 | bentonite pellets | |
| 3.1 | 10.67 | bentonite slurry | |

**Method of Construction**

☐ Cable Tool ☐ Diamond ☐ Rotary (Conventional) ☐ Jetting ☐ Rotary (Reverse) ☐ Driving ☐ Boring ☐ Digging ☐ Air percussion ☐ Other, *specify* ___

**Well Use**

☐ Public ☐ Commercial ☐ Not used ☐ Domestic ☐ Municipal ☐ Dewatering ☐ Livestock ☐ Test Hole ☐ Monitoring ☐ Irrigation ☐ Cooling & Air Conditioning ☐ Industrial ☐ Other, *specify* ___

**Construction Record - Casing**

| Inside Diameter (cm/in) | Open Hole OR Material (Galvanized, Fibreglass, Concrete, Plastic, Steel) | Wall Thickness (cm/in) | Depth (m/ft) From | To |
|---|---|---|---|---|
| | | | | |

**Status of Well**

☐ Water Supply ☐ Replacement Well ☐ Test Hole ☐ Recharge Well ☐ Dewatering Well ☐ Observation and/or Monitoring Hole ☐ Alteration (Construction) ☐ Abandoned, Insufficient Supply ☐ Abandoned, Poor Water Quality ☒ Abandoned, other, *specify* Not needed ☐ Other, *specify* ___

**Construction Record - Screen**

| Outside Diameter (cm/in) | Material (Plastic, Galvanized, Steel) | Slot No. | Depth (m/ft) From | To |
|---|---|---|---|---|
| | | | | |

**Water Details**

Water found at Depth (m/ft) ☐ Gas — Kind of Water: ☐ Fresh ☐ Untested ☐ Other, *specify* ___

Water found at Depth (m/ft) ☐ Gas — Kind of Water: ☐ Fresh ☐ Untested ☐ Other, *specify* ___

Water found at Depth (m/ft) ☐ Gas — Kind of Water: ☐ Fresh ☐ Untested ☐ Other, *specify* ___

**Hole Diameter**

| Depth (m/ft) From | To | Diameter (cm/in) |
|---|---|---|
| | | |

**Results of Well Yield Testing**

After test of well yield, water was: ☐ Clear and sand free ☐ Other, *specify* ___

If pumping discontinued, give reason:

Pump intake set at (m/ft)

Pumping rate (l/min / GPM)

Duration of pumping ___ hrs + ___ min

Final water level end of pumping (m/ft)

If flowing give rate (l/min / GPM)

Recommended pump depth (m/ft)

Recommended pump rate (l/min / GPM)

Well production (l/min / GPM)

Disinfected? ☐ Yes ☐ No

| Draw Down Time (min) | Water Level (m/ft) | Recovery Time (min) | Water Level (m/ft) |

# Site Photographs

| Picture and Description | |
|---|---|
|  |  |
| **Photo #1:** The southern portion of Site, facing west. | **Photo #2:** Eastern portion of Site, facing north. |
|  |  |
| **Photo #3:** Entrance to Site with temporary fencing, facing southeast. | **Photo #4:** Western portion of Site, facing south. Ramp and demolition equipment storage. |
|  |  |
| **Photo #5:** Vacant room within the ground floor, stored within Running Room. | **Photo #6:** Area within the southern portion of ground floor inaccessible due to active demolition. |

| Picture and Description | |
|---|---|
|  |  |
| **Photo #7:** Portion of wall structure removed within the central portion, facing west. | **Photo #8:** Inactive elevator shafts. |
|  |  |
| **Photo #9:** Catch basins located within the underground parking levels. | **Photo #10:** Inactive generator/transformers located within the central portion of the first level of underground. |
|  |  |
| **Photo #11:** Two diesel ASTs located north of the transformer vault. | **Photo #12:** Entrance to first level of underground parking, facing west. |

| Picture and Description | |
|---|---|
|  |  |
| **Photo #13:** Generator and 944 L diesel AST within the central portion of the Site. | **Photo #14:** Fill and vent pipes are located on the east central building exterior, facing north. |
|  |  |
| **Photo #15:** Two diesel generators associated with the active demolition. | **Photo #16:** Second basement level |
|  |  |
| **Photo #17:** Stormwater sump located within the third basement level. | **Photo #18:** Second floor of building, active demolition. |

| Picture and Description | |
|---|---|
|  |  |
| **Photo #19:** Inactive elevators located within the central portion of the building. | **Photo #20**: Storage of various materials. |
|  |  |
| **Photo #21:** Example of kitchen located within the government office spaces. | **Photo #22:** Stairwell with temporary utilities. |
|  |  |
| **Photo #23:** Floors in the process of demolition. | **Photo #24:** Empty 909 L diesel AST associated with backup generator within the mechanical penthouse. |

| Picture and Description | |
|---|---|
|  |  |
| **Photo #25:** Coloured diesel 458 L day tank associated with the back up generator. | **Photo #26:** Electronic natural gas generator within the mechanical penthouse. |
|  |  |
| **Photo #27:** Vacant elevator shaft. | **Photo #28:** Coolant leak within the second level of mechanical penthouse. |
|  |  |
| **Photo #29:** Rooftop, facing northeast. | **Photo #30**: Western exterior, facing south. |

| Picture and Description | |
|---|---|
|  | **END OF SECTION** |
| **Photo #31:** Catch basin located within the southwestern portion. | |

# Appendix G:
# PCA and APEC Table

## Table A: Potentially Contaminating Activities

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 110 O'Connor Street Site | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Current and historical presence of three aboveground storage tanks (ASTs) within the underground parking levels. Presence of fill and vent pipes associated with the ASTs. | <2023 – Present | Yes – APEC 1 |
| | | Current and historical presence of two ASTs within the mechanical penthouse associated with two backup diesel generators. | <2023 – Present | No – ASTs located in the penthouse atop the 14-storey building |
| | **PCA #30** – Importation of Fill Material of Unknown Quality | Fill material of unknown quality was identified within a geotechnical report by others in 2023. | <2023 | Yes – APEC 2 |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | The 1912, 1915, and 1922 FIP identified a dry cleaner within the northern portion of the Site. | 1912 – 1922 | Yes – APEC 3A |
| | | The 1912, 1915, and 1922 FIP identified a dry cleaner within the central portion of the Site. | 1912 | Yes – APEC 3B |
| | | The 1948, 1955 and street directories identified a dry cleaner in the southern portion of the Site. | 1948 – 1955 | Yes – APEC 3C |
| | | The 1912 and 1922 FIP and directories identified a dry cleaner within the northwest portion of the Site. | 1912 – 1931 | Yes – APEC 3D |
| | **PCA #55** – Transformer Manufacturing, Processing and Use | Current and historical presence of a transformer vault on-Site, located within the central portion of the Site. | <2025 | Yes – APEC 4 |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| | **PCA Other 2** – Use of de-icing salt on paved portions of the Site.<br>**Not Applicable** – Per Section 49.1 of O. Reg 153/04, assessment of this APEC is not required. | Historical use of de-icing salt located on paved portions of the Site. | <2025 | Yes – APEC 5 |
| 124 O'Connor Street (Historically 120 – 126 O'Connor Street) (South adjacent) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | The 1922 FIP and street directories identified several dry cleaners located within the northern portion of the adjacent property. | 1922 – 1941 | Yes – APEC 6 |
| 170 Slater Street (Historically 263, 236A and 265 Laurier Avenue West and 180 Slater Street, 184, 186, 188 Slater Street) (West adjacent) | **PCA #10** – Commercial Autobody Shops | The 1948, 1955 and 1963 FIP and street directories identified Campbell Motors Ltd. Garage.<br>The 1965 FIP identified Repairs and Garage and Paint Shop as a small shop associated with 263 Laurier Avenue West. | 1920 – 1966 | Yes – APEC 7A |
| | **PCA #28 –** Gasoline and Associated Products Storage in Fixed Tanks | Two USTs were located north of the building on the property. | | Yes – APEC 7B |
| | **PCA #33** – Metal Treatment, Coating, Plating and Finishing | Street directories identified Commandment Industrial Ltd., water pumps and filters Mfg. Co. and Eclipse Plating & Sales Co. Ltd. | 1976 – 1931 | Yes – APEC 7C |
| | **PCA #34** – Metal Fabrication | | | Yes – APEC 7D |
| 150 Slater Street | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | Street directories identified Delta Reprographics, listed as a commercial lithographic printer. | 2006 – 2017 | No – Due to the down gradient location with respect to groundwater flow |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| (Historically 93 O'Connor Street) (~15 m east) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Powell Cleaners & Dyers | 1931 – 1941 | direction relative to the Site. |
| 171 Slater Street (Historically 86 O'Connor Street, 187 Slater Street) (~15 m north) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified Turner's Service Station, and Courtesy & Service Shop. | 1966 1931 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #45** – Pulp, Paper and Paperboard Manufacturing and Processing | Street directories identified Barnard W R Paper Co. Ltd. | 1931 | |
| 251 Laurier Avenue West (Historically 235 and 239 Laurier Avenue West) (~20 m southeast) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Esquire Cleaners. | 1971 | No – Due to the trans gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified Ballantine Fuels Ltd., fuel oil and Cities Service Oils | 1931 – 1966 | |
| 151 Slater Street (Historically 79 - 87 O'Connor Street) (~25 m northeast) | **PCA #10** – Commercial Autobody Shops | The 1948 FIP identified a Gasoline Service Station with six USTs located at the corner of Slater Street and O'Connor Street. An autobody repair garage located east of site. Street directories identified Supertest Petroleum Corp Ltd and Finnegan Jos B Service Station, and Supertest Petroleum Corp. Ltd. The 1965 FIP identified an auto servicing and one UST at the corner of Slater Street and O'Connor. | 1931 – 1965 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | | | |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | Street directories identified Copywork Reproductions. Registered on HWIN. | 1981 – 1987 | |
| | **PCA #8** – Chemical Manufacturing, Processing and Bulk Storage | Street directories identified Ottawa Chemists as a chemical merchant wholesaler | 1997 – 2017 | |
| 171 Bank Street (~35 m south) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Galina's Tailor & Dry Cleaning. | 1997 – 2017 | No – Due to the trans gradient location with respect to groundwater flow direction relative to the Site. |
| 82 O'Connor Street (Historically 84 O'Connor Street) (~40 m north) | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | 1912 FIP identified a Printing & Bindery | 1912 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | FIPs and street directories identified several dry cleaners. | 1920 – 1987 | |
| 300 Laurier Avenue West (Historically 133 O'Connor Street) (~40 m south) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified Paige James w service station. | 1955 – 1960 | No – Due to the trans gradient location with respect to groundwater flow direction relative to the Site. |
| 78 O'Connor Street (Historically 70-80 O'Connor Street, 186 – 218 Albert Street) | **PCA #55** – Transformer Manufacturing, Processing and Use | Street directories identified Bell Telephone Co of Canada. PCB records identified a major storage site, registered on Access Environment, HWIN and National PCB Inventory. | 1966 – 2022 | No – Due to the down gradient location with respect to groundwater flow |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| (~45 m north) | **PCA #10** – Commercial Autobody Shops | The 1922 FIP and street directories identified garage repairs and battery storage and servicing.<br><br>Street directories identified The Motor Co Ltd. | 1920 – 1931 | direction relative to the Site. |
| | **PCA #6** – Battery Manufacturing, Recycling and Bulk Storage | | | |
| | **PCA #34** – Metal Fabrication | Street directories identified Lockeberg Has, elect. Mfrs and metal stamping. | 1931 – 1941 | |
| | **PCA #47** – Rubber Manufacturing and Processing | Street directories identified Seiberling Rubber Co. of Can Ltd. | 1931 | |
| | **PCA #31 –** Ink Manufacturing, Processing and Bulk Storage | Street directories identified Modern Press Co. as a printer | 1920 | |
| 234 Laurier Avenue West (Historically 230 – 234 Laurier Avenue West) (~45 m southeast) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | The 1948 and 1963 FIP identified three USTs and a gasoline service station along the western portion of the property, occupied by Cities Service Ltd. | 1948 – 1963 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | The 1948 and 1963 FIP identified Mutual Press Ltd. | 1941 – 1963 | |
| 227 Laurier Ave West (~55 m east) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Laurier Cleaners & Custom Tailoring and Spic & Span Cleaners. Registered on HWIN. | 1988 – 2007 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 150 Albert Street (Historically 146 – 150 Albert Street) (~55 m northeast) | **PCA #10** – Commercial Autobody Shops | Street directories identified Asbeslonos Corp., brake linings, Albert St Garage Ltd., body shop and Stewart-Warner Sales & Service, autos. | 1931 – 1960 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| 199 Slater Street (~65 m northwest) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Private and Retail Fuel record for Tilden Car Rentals Inc., including a registered private 27,276 L fuel tank, fuel storage tank records for a 18,184 L UST in 1965 and a 9,092 L UST in 1990. | 1965-1990 | No – Due to the trans gradient location with respect to groundwater flow direction relative to the Site. |
| 220 Laurier Ave West (Historically 222 Laurier Avenue West) (~85 m southeast) | **PCA #55 –** Transformer, Manufacturing, Processing and Use | Canada All-News Radio Ltd. was registered on National PCB Inventory. | 1989 – 1993 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #33** – Metal Treatment, Coating, Plating and Finishing | Street directories identified Olivetti Underwood Ltd., business mach. And Olivetti Adding Calculating & Accounting Machines | 1966 | |
| 161 Laurier Avenue West (~90 m west) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified United Fuels (of Ottawa) Ltd. | 1960 – 1966 | No – Due to the trans gradient location with respect to groundwater flow direction relative to the Site. |
| 130 Albert Street (Historically 132 – 146 Albert Street) | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | Street directories identified a Printing House for commercial printing. | 2021 | No – Due to the down gradient location with respect to groundwater flow |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| (~90 m northeast) | **PCA #34** – Metal Fabrication | Street directories identified Northern Shadows Photo Finish for photo finishing laboratories and TPH The Printing House Ltd | 2006 – 2012 | direction relative to the Site. |
| | | Street directories identified Grand Canada Engineering Ltd as a machine shop. | 2021 | |
| | **PCA #10** – Commercial Autobody Shops | The 1955 FIP identified Albert St Garage and the 1948 FIP identified as Waverley Motors Ltd. Street directories identified National Brake & Clutch Service. | 1948 – 1955 | |
| | **PCA #47** – Rubber Manufacturing and Processing | Street directories identified Canadian Goodrich Co Ltd., rubber goods. | 1931 | |
| | **PCA #18** – Electricity Generation, Transformation and Power Stations | Street directories identified Canadian General Electric Co. Ltd. | 1931 | |
| 215 Slater Street (Historically 113 – 117 Bank Street, 233 – 226 and 199 Albert Street) ~90 m northwest | **PCA #32 –** Iron and Steel Manufacturing and Processing | The 1878 and 1895 FIP identified Bank St. Foundry | 1878 – 1895 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #10** – Commercial Autobody Shops | The 1948 FIP identified an autobody repair shop. | 1948 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 130 Slater Street (Historically 118 Slater Street) (~95 m east) | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | The 1955 FIP identified a Printing office off of Bomnc Electrotype Co Ltd. Street directories identified several publishers and printers. HWIN records for Bradda Printing Services Inc. (1988 – 2022). | 1955 – 2023 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| 210 Albert Street ~105 m northwest | **PCA #10** – Commercial Autobody Shops | Street directories identified Canadian Pacific Express Co (garage) | 1950 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 45 O'Connor Street (Historically 135 Albert Street, 147, Albert Street, 59 O'Connor Street, 132 Queen Street, 58 Metcalfe Street) (~105 m northeast) | **PCA #10** – Commercial Autobody Shops | Street directories identified Albert Street Garage and Federal Sales Ltd. | 1950 – 1955 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #34** – Metal Fabrication | Street directories identified Holden Manufacturing Co Ltd. | 1950 | |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Spic & Span Cleaners, Sketchley Cleaners, Star Laundry, Lee Sing Laundry, Monson's Cleaners & Dryers | 1901 – 1971 | |
| 50 O'Connor Street (Historically 199 Albert Street, 155 Queen Street ) (~105 m north) | **PCA #10** – Commercial Autobody Shops | Street directories identified Dominion Auto radiator Experts. The 1922 FIP identified a garage. The 1948 and 1963 FIP identified Auto Repairs & Garage with two USTs identified along Albert St. | 1922 – 1963 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | | | |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | Street directories identified Printing House | 2023 | |
| | | Street directories identified TPH The Printing House | 2006 – 2007 | |
| | **PCA #34** – Metal Fabrication | Street directories identified Ottawa Citizen the Mechanical Department and Capital & Dominion Radiator Co Ltd. | 1955 – 1971 | |
| 222 Albert Street (Historically 210- 220 Albert Street) (~105 m northwest) | **PCA #10** – Commercial Autobody Shops | The 1955 FIP identified as a C.P.R. Express Garage. | 1955 | No – Due to the trans gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified One Hour Cleaners and Spic and Span Cleaners including HWIN records for halogenated solvents for Spic & Span-Waletor-Cash Cleaners (1986 - 1998), Diara Cleaners (1990 - 2001), Queen Street Cleaners (1994 - 2005) and A.C.E. Acquisitions Ltd. (2006 - 2008). | 1986 – 2025 | |
| | **PCA #6** – Battery Manufacturing, Recycling and Bulk Storage | The 1922 FIP identified a storage and battery servicing. | 1922 | |
| 139 Bank Street (~105 m west) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified United Clean Tailors & Pressers | 1950 – 1976 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 123 Bank Street (~115 m northwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Patton's Ltd as a cleaner and dryer | 1950 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site |
| 151 O'Connor Street (~120 m south) | **PCA #10** – Commercial Autobody Shops | Street directories identified Bytown Towing & Autocare, and Edgeworth Service Centre Ltd. | 1955 – 1971 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| 154 O'Connor Street (Historically 156 O'Connor Street) (~120 m south) | **PCA #10** – Commercial Autobody Shops | Street directories identified Bytown Towing & Auto Care Ltd | 1976 – 2000 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified Shell Canada Products Limited and Parker Robert L as a service station. HWIN records for Shell Canada products for light fuels and oil skimmings from 2009- 2010. Fuel storage tank records for Bytown Towing & Autocare Ltd. for fuel ASTs in 1980 and 2009 and USTs in 1979 & 1980. The 1963 FIP identified a gasoline service station with three USTs located along Gloucester. | 1960 – 2010 | |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 150 Gloucester Street (~120 m southwest) | **PCA #34** – Metal Fabrication | Street directories identified Edge Wm G Ltd., heating contract and Pook Sheet Metal Works | 1931<br>1941 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| 99 Bank Street (Historically 109 – 123 Bank Street) (~125 m northwest) | **PCA #18** – Electricity Generation, Transformation and Power Stations | Street directories identified Hydro Electric Power Commission of Ontario. | 1920 – 1955 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Patton Cleaning & Dying Co. | 1912, 1941 | |
| | **PCA #32** – Iron and Steel Manufacturing and Processing | Street directories identified McFarlane Bros iron foundry | 1890-91 | |
| 114 Gloucester Street (~125 m southeast) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Kent Hand Laundry. | 1971 – 1992 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| 109 Bank Street (236 Albert Street) (~130 m northwest) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified Toledo Scale Co Ltd & Bowser S F & CO Inc., oil tanks | 1931 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 111 Albert Street (Historically 126 Sparks Street, 137 Albert Street, 147-149 Albert Street, 130 Queen Street, 134 -136 Queen Street, 126 Queen Street, 133 – 141 Albert Street, ) (~135 m northeast) | **PCA #10** – Commercial Autobody Shops | The 1922 and 1955 FIP and street directories identified Albert St Garage and federal motor sales, and Royal Tailors and Condon Auto Shop Co. | 1912 – 1960 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified Beamish Brake Service Station and Albert Street Service Station | 1931 | |
| | **PCA #31** – Ink, Manufacturing, Processing and Bulk Storage | The 1912 and street directories identified a Paper Box factory and printing, labelled as The Ottawa Paper Box. The 1963 FIP identified paper staging and printing floor. Street directories The Runge Press Ltd.<br><br>Street directories identified Mansfield & Rodney Printers Ltd., Powis Bros Stationers, and Taylor R J Printer.<br><br>One Hour Moto Photo was registered on HWIN. | 1920 – 1971 | |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Hillary's Cleaners. | 2012 – Present | |
| 132 Queen Street (~140 m northeast) | **PCA #37 –** Operation of Dry Cleaning Equipment (where chemicals are used) | HWIN records identified Sketchley Cleaning Services and Hillary Cleaners. | 1986 – 1998 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 116 Albert Street (~140 m northeast) | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | Street directories identified Metro Ottawa as a newspaper publisher | 2006 – 2007 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #34** – Metal Fabrication | Street directories identified Machinery & Equipment Manufacturers Assn of Canada.<br>Registered on HWIN. | 1971 – 2000 | |
| | **PCA #10** – Commercial Autobody Shops | Street directories identified Elgin Motors as a used car dealership. | 1950 | |
| 119 Slater Street (Historically 121 Slater Street) (~140 m northeast) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Paragon Cleaners and Brookshire Cleaners (1970) Ltd. | 1971 – 1981 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| 100 Metcalfe Street (Historically 110 – 114 Slater Street, 122 Slater Street) (~150 m northeast) | **PCA #31** – Ink, Manufacturing, Processing and Bulk Storage | Street directories identified Akins Printing Service Ltd. | 1950 – 1955 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #10** – Commercial Autobody Shops | Street directories identified Asbestonos Corp Ltd (brakes linings and clutches) | 1955 | |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Browns Dry Cleaners, and Sing Lee Laundry. | 2000 – 2012<br>1931 – 1941 | |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 134 Bank Street (~150 m west) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | Street directories identified Graves H C Ltd., refrigeration, Graves Hasbrouck C, oil burners, and Pickthorne Wn I elect supplies | 1931 | No – Due to the distance relative to the Site. |
| 138 Bank Street (~150 m west) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Sanitary Wardrobe, cleaner and dyer. | 1931 | No – Due to the distance relative to the Site. |
| 152 Bank Street (Historically 142 Bank Street) (~150 m west) | **PCA #34** – Metal Fabrication | Street directories identified Dominion Plating Works Wilson & Co bicycles | 1901 | No – Due to the distance relative to the Site. |
| 162 Bank Street (Historically 154 Bank Street) (~150 m west) | **PCA #10** – Commercial Autobody Shops | Street directories identified Campbell Motor Sales. | 1920 | No – Due to the distance relative to the Site. |
| | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Wong Sing laundry | 1901 | |
| 160 Bank Street (~150 m west) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Superior Service Store cleaner. | 1950 | No – Due to the distance relative to the Site. |
| 174 Gloucester Street (~155 m southwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Plus Cleaners and Cash Cleaners. | 1987 – 1993 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 250 Albert Street<br>~160 m northwest | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Spic and Span Cleaners. | 1976 – 1981 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 324 Laurier Avenue West<br>(~160 m southwest) | **PCA #28** – Gasoline and associated Products Storage in Fixed Tanks | Street directories identified Imperial Oil Service Station | 1931 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 186 Bank Street<br>(Historically 178 Bank Street)<br>(~175 m southwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified "de Fonteny" French Cleaners | 1931 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 96 Bank Street<br>(Historically 247 Albert Street, 76 Bank Street)<br>(~180 m northwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified On Hong Chinese Laundry | 1920 – 1941 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #17** – Dye Manufacturing, Processing and Bulk Storage | Street directories identified Ottawa Dye Works | 1920 | |
| 131 Queen Street<br>(Historically 133 Queen Street) | **PCA #34** – Metal Fabrication | 1912 FIP identified a lead melting and press room for an editorial office. | 1912 | No – Due to the distance and down gradient location with |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| (~ 180 m northeast) | **PCA #32** – Iron and Steel Manufacturing and Processing | | | respect to groundwater flow direction relative to the Site. |
| | | The 1895 FIP identified a Louvre Over Foundry and machine shop. | 1895 | |
| | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | The 1922 FIP identified a Couriers and Printing and editorial building. The 1948 FIP identified Citizen's Printing and Linotyping. | 1922-1948 | |
| 136 Sparks Street (~180 m northeast) | **PCA #31** – Ink Manufacturing, Processing and Bulk Storage | The 1963 FIP identified the Citizen Building for pressing and processing. | 1963 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| 177 Nepean St (~190 m southwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Chinese Laundry | 1920 – 1941 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 99 Metcalfe Street (Historically 94 Slater Street) (~200 m east) | **PCA #10** – Commercial Autobody Shops | The 1948 FIP identified an Auto Repairs. | 1948 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site. |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 160 Metcalfe Street (~200 m southeast) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Sunny Cleaners Alterations and Spic and Span Cleaners.<br>Street directories identified Spic Span Cleaners as an upholstery cleaner. | 2021 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 146 Nepean Street (~200 m south) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Monson's Dry Cleaners | 1955, 1950 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 255 Albert Street (~205 m northwest) | **PCA #34** – Metal Fabrication | Street directories identified Abuma Manufacturing Ltd. | 2012 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 200 Bank Street (~205 m southwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Bank Tailoring & Dry Cleaners | 2017, 2006/7 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 77 Metcalfe Street (Historically 98 Albert Street) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories and FIPs identified the presence of several dry cleaners. HWIN records for Paragon Cleaners from 1983-1998. | 1912 – 1998 | No – Due to the distance and down gradient location with respect to |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| (~205 m northeast) | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | FIPs identified historical presence of two oil fired boilers located within the western portion of the Site. | 1955 | groundwater flow direction relative to the Site. |
| | **PCA #10** – Commercial Autobody Shop | Historical use of the Site as commercial auto garage, located within the southern portion of the Site. | 1922 – 1950 | |
| 250 Slater Street (~205 m west) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Sketchley Cleaners and Hillary Cleaners Ltd. | 1981 – 1987 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 207 Queen Street (~205 m northwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | The 1955 FIP identified a Service Centre Cleaners. | 1955 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 203 Queen Street (~210 m northwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Paul Service Stores Ltd (cleaners) and the 1963 FIP identified cleaning & pressing. | 1960-1963 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #47** – Rubber Manufacturing and Processing | Street directories identified Miner Rubber Co. Ltd. | 1931 | |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| 264 Albert Street (~215 m northwest | **PCA #31** – Ink, Manufacturing, Processing and Bulk Storage | Street directories identified Allegra Print & Imaging, Zippy Print and Zen Signs. Registered on HWIN. | 1991 – 2000 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 211 Bank Street (~220 m southwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Brown's Cleaners. | 1981 – 2000 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| 170 Metcalfe Street (~220 m southeast) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Sunny Cleaners Alterations. | 2021, 2000 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| 55 Metcalfe Street (Historically 51 – 53 Metcalfe, 63 Metcalfe Street, 133 Queen Street) (~225 m northeast | **PCA #34** – Metal Fabrication | Street directories identified Vard Machine for welding and machine shops. | 2021 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #31** – Ink, Manufacturing, Processing and Bulk Storage | Street directories identified the Toronto Star publishers and Ottawa Despatch & Agency Co, Ottawa Magazine Service, Globe Envelope Co. | 1941 – 1955 | |
| | **PCA #37** – Operation of Dry Cleaning | The 1955 FIP shows Cleaning & Pressing. | 1941 – 1955 | |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| | Equipment (where chemicals are used) | Street directories identified Modern Building Cleaning Service of Canada Ltd, and Carravatta Bros Cleaners. | 1960 | |
| | **PCA #32 –** Iron and Steel Manufacturing and Processing | Street directories identified Butterworth & Co, foundry. | 1901 | |
| 75 Slater Street (Historically 85 - 87 Slater Street) (~230 m northeast) | **PCA Other 1** – Known Contamination | A RSC identified metal contamination within soil, identified within the native material. Registered on HWIN. | 2022 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #10** – Commercial Autobody Shops | The 1955 FIP identified Meyers Motors Ltd.<br>The 1948 and 1963 FIP identified Paint shop and Repair shop of volcanizing and battery servicing with two 1000-gallon ASTs and one 500-gallon UST. | 1948 – 1963 | |
| | **PCA #6** – Battery Manufacturing, Recycling and Bulk Storage | | | |
| | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | | | |
| 84 Slater Street (Historically 82 - 94 Slater Street) (~230 m east) | **PCA #55 –** Transformer Manufacturing, Processing and Use | Street directories identified Ontario Hydro Ottawa Slater Transformer Station | 1950 – 1993 | No – Due to the distance and down gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #18** – Electricity Generation, Transformation and Power Stations | The 1912 FIP and street directories identified the Ottawa Electric Co. | 1912 – 1920 | |
| | | The 1948 FIP and street directories identified Ottawa Light Heat & Power Co. Ltd. Sub-Station. | 1931 – 1948 | |

| Address Direction and Distance from Site | Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04 | Description | Date(s) | Results in an APEC (yes/no) |
|---|---|---|---|---|
| | **PCA #10** – Commercial Autobody Shops | Street directories identified A O A Service Garage | 1931 | |
| 88 Albert Street (~235 m northeast) | **PCA #55 –** Transformer Manufacturing, Processing and Use | Historical use of the property for Ottawa Hydro Slater Substation. Registered on HWIN. | 1986 – 2001 | No – Due to the down gradient location with respect to groundwater flow direction relative to the Site, and records of non-PCB transformers on-Site. |
| 202 Sparks Street (~240 m northwest) | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Street directories identified Tip Top Tailors Ltd | 1960 | No – Due to the distance and trans gradient location with respect to groundwater flow direction relative to the Site. |
| | **PCA #34** – Metal Fabrication | Street directories identified National Manufacturing Co., A G Cole | 1881 | |

Notes: APEC – Area of Potential Environmental Concern
COPC – Contaminants of Potential Concern
HWIN – Hazardous Waste Inventory Network
UST – Underground Storage Tank
FIP – Fire Insurance Plan
TSSA – Technical Standards and Safety Authority
AST – Aboveground Storage Tank

**Table B: Areas of Potential Environmental Concern (APEC)**

| APEC No. | Description of APEC/ Rationale | Location of APEC on Phase One Property | Potentially Contaminating Activity | Location of PCA (on-Site or off-Site) | Contaminants of Potential Concern | Media Potentially Impacted (Groundwater, soil and/or sediment) |
|---|---|---|---|---|---|---|
| 1 | Current and historical presence of three diesel aboveground storage tanks (ASTs) located within the underground parking levels. Presence of fill and vent pipes associated with the ASTs. | West central | **PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks | On-Site | PHCs F1 to F4, BTEX, PAHs | Soil<br>Groundwater |
| 2 | A geotechnical report by others identified fill material present beneath the Site to a depth of 5.33 m below ground surface (bgs). | Entire Site | **PCA #30** - Importation of Fill Material of Unknown Quality | On-Site | Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs, PAHs | Soil |
| 3A | Historical presence of a dry cleaner within the northern portion of the Site from the years 1912 – 1922. | Northeastern portion of Site | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | On-Site | VOCs | Soil<br>Groundwater |
| 3B | Historical presence of a dry cleaner within the | East central portion of Site | | | | Soil<br>Groundwater |

| APEC No. | Description of APEC/ Rationale | Location of APEC on Phase One Property | Potentially Contaminating Activity | Location of PCA (on-Site or off-Site) | Contaminants of Potential Concern | Media Potentially Impacted (Groundwater, soil and/or sediment) |
|---|---|---|---|---|---|---|
| | central portion of the Site in 1912. | | | | | |
| 3C | Historical presence of a dry cleaner within the southern portion of the Site from the years 1948 - 1955 | Southeastern portion of Site | | | | Soil<br>Groundwater |
| 3D | The 1912 and 1922 FIP and directories identified a dry cleaner within the northwest portion of the Site. | Northwestern portion of Site | | | | Soil<br>Groundwater |
| 4 | Current and historical presence of a transformer vault within the central portion of the Site. | Central portion | **PCA #55** – Transformer Manufacturing, Processing and Use | | PHCs F1 to F4, BTEX, PCBs | Soil<br>Groundwater |
| 5 | Historical use of de-icing salt located on paved portions of the Site. | Western portion of Site | **PCA Other 2** – Use of de-icing salt on paved portions of the Site.<br><br>**Not Applicable –** Per Section 49.1 of O. Reg 153/04, | On-Site | EC, SAR<br><br>Na, Cl | Soil<br>Groundwater |

| APEC No. | Description of APEC/ Rationale | Location of APEC on Phase One Property | Potentially Contaminating Activity | Location of PCA (on-Site or off-Site) | Contaminants of Potential Concern | Media Potentially Impacted (Groundwater, soil and/or sediment) |
|---|---|---|---|---|---|---|
| | | | assessment of this APEC is not required. | | | |
| 6 | Historical presence of a dry cleaner located at 124 O'Connor Street (south adjacent) from the years 1922 – 1941. | Southern portion | **PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used) | Off-Site | VOCs | Groundwater |
| 7A | Historical use of 170 Slater Street (west adjacent) as an autobody shop, from the years 1948 – 1966. | Western portion of Site | **PCA #10** – Commercial Autobody Shops | Off-Site | PHCs F1 to F4, BTEX | Groundwater |
| 7B | Historical presence two underground storage tanks (USTs) in the 1940 - 1960 located along the northeastern portion of 170 Slater Street (west adjacent). | Northwest portion of Site | **PCA #28 –** Gasoline and Associated Products Storage in Fixed Tanks | | PHCs F1 to F4, BTEX | |
| 7C | Historical use of 170 Slater Street (west | Western portion of Site | **PCA #33** – Metal Treatment, Coating, Plating and Finishing | | Metals, including As, Se and Sb, B-HWS, | |

| APEC No. | Description of APEC/ Rationale | Location of APEC on Phase One Property | Potentially Contaminating Activity | Location of PCA (on-Site or off-Site) | Contaminants of Potential Concern | Media Potentially Impacted (Groundwater, soil and/or sediment) |
|---|---|---|---|---|---|---|
| | adjacent) for metal plating in the 1930s. | | | | CN, Cr(VI), Hg, EC, SAR, VOCs | |
| 7D | Historical use of 170 Slater Street (west adjacent) as a metal fabricator in the 1970s. | | **PCA #34** – Metal Fabrication | | Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, VOCs | |

Notes: PHCs F1-F4 – Petroleum Hydrocarbon
BTEX – Benzene, Toluene, Ethylbenzene, Xylenes
VOCs – Volatile Organic Compounds
NA – Sodium
PAHs – Polycyclic Aromatic Hydrocarbons
PCBs – Polychlorinated Biphenyls
BTEX – Benzene, Toluene, Ethylbenzene, Xylenes
SAR – Sodium Adsorption Ratio
VOCs – Volatile Organic Compounds
EC – Electrical Conductivity
Cl – Chloride

Regarding APEC 5 (de-icing salt use), per Section 49.1 of O. Reg 153/04, assessment of this APEC is not required. Under the Regulations, where a substance has been applied to surfaces for the safety of vehicular or pedestrian traffic under conditions of snow or ice or both, the applicable standard is deemed not to be exceeded. In this regard, further assessment of this APEC is not required.
