CEDARVIEW RURAL VS. URBAN EXPANSION

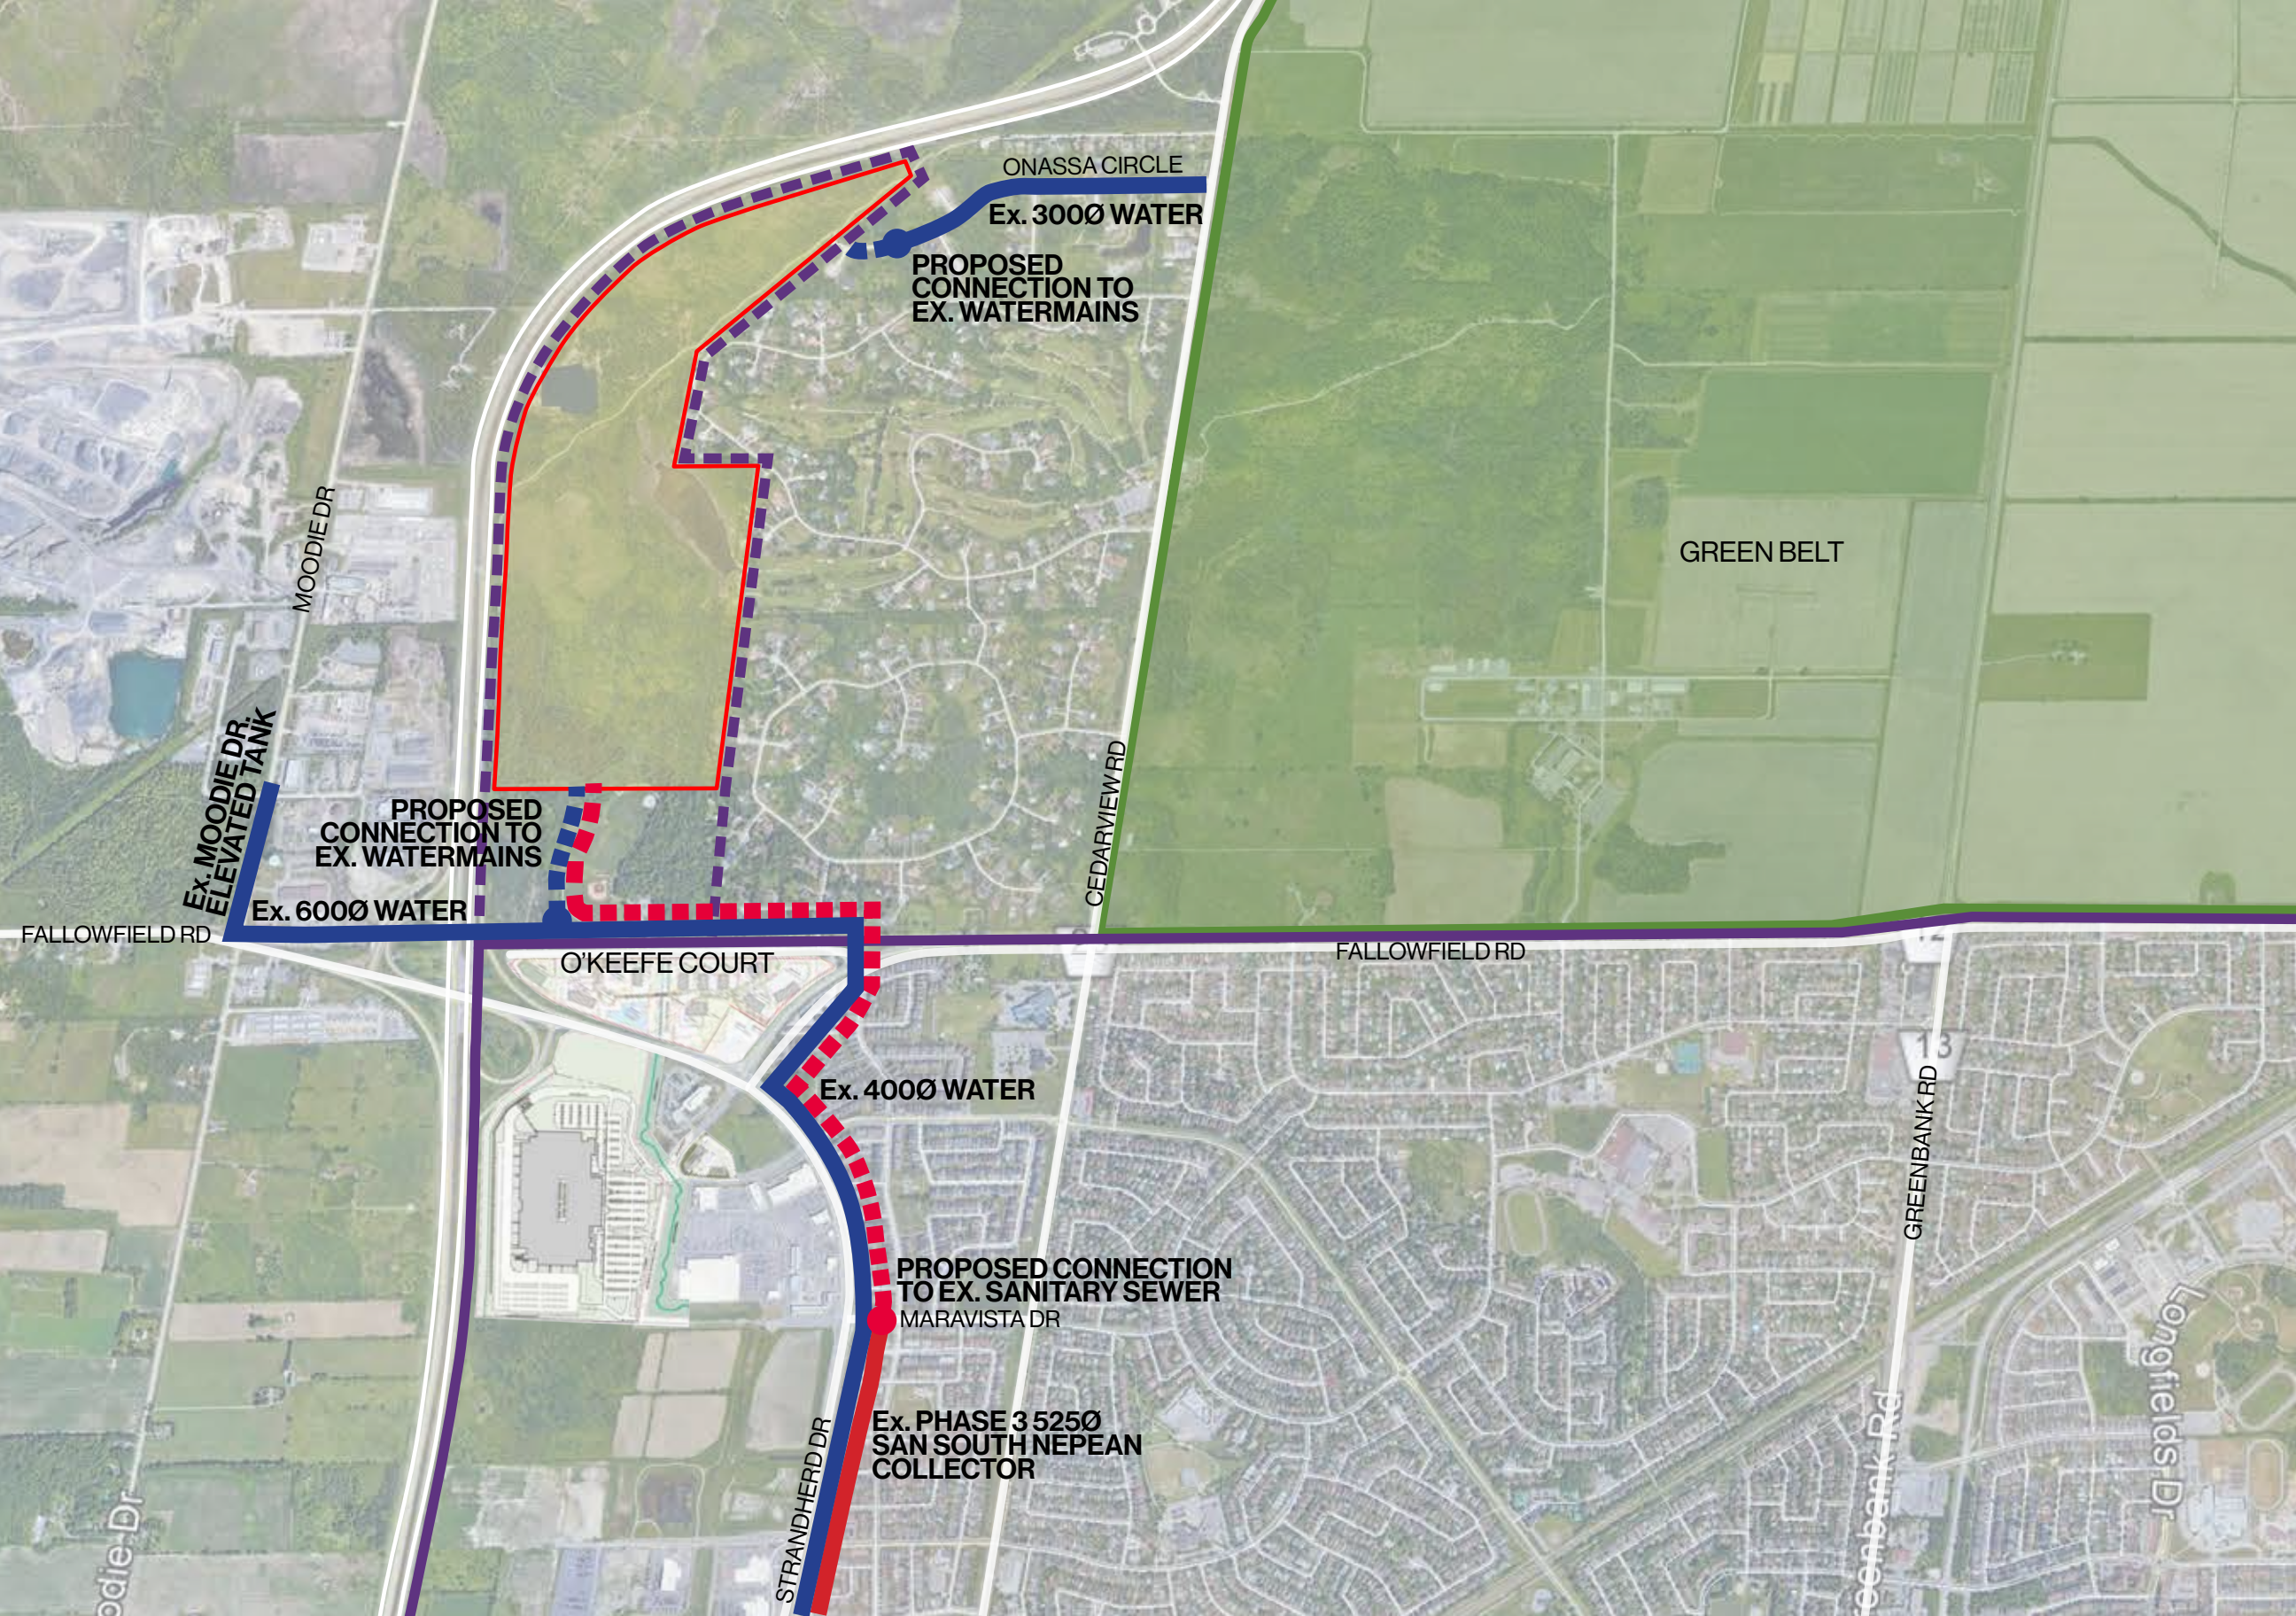

The Barrhaven CITIGATE Mixed Use Node Urban Expansion lands can be serviced by connecting directly to the surrounding municipal water and wastewater system. Current surface drainage patterns can be maintained by treating and directing all stormwater runoff to the existing drains south to the O’Keefe Drain and eventually to the Jock River.

CHECKLIST

- ☒ Access to watermains
- ☒ Access to existing wastewater connections
- ☒ Access to stormwater management outlet
- ☒ Offsite infrastructure cost/upgrade requirement minimized
- ☒ Avoiding receiving drainage systems
- ☒ No grade raise issues
