

17th March, 2015

IBI Group
400-333 Preston Street
Ottawa, Ontario K1S 5N4

Attention: Peter Spal

Dear: Mr. Spal

Subject: **Kanata Lakes Summary of High Level Stormwater Solution for Beaver Pond**

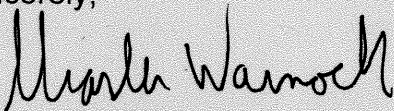

We have reviewed the following document, provided by your firm, for the above noted project:

1. **Memorandum from IBI to Charles Warnock dated March 16, 2015.**

The City approves the high level stormwater concepts identified as options 1 and 2 in the above noted memo, solely for the purpose of demonstrating that stormwater servicing of KNL Phases 7, 8 and 9 is technically feasible. No further stormwater approvals have been given or implied. The computer modeling procedure is acceptable however the computer coding will be verified as part of the final design. The City and KNL have acknowledged that additional studies will be completed prior to provision of any further stormwater approvals or detailed design, which could result in the reduction or elimination of the requirement for additional stormwater capacity and compensation for lost development land.

If you have any questions or concerns, please contact Charles Warnock by telephone, at 613-580-2424, 27809 or by e-mail at Charles.warnock@ottawa.ca.

Sincerely,

Charles Warnock
