General Notes

- This drawing to be read in conjunction with architectural drawings and other consultants' drawings.
- It is the responsibility of the appropriate contractor or official to report any errors, omissions or discrepancies in this plan with actual conditions or other consultant plans prior to commencing work.
- The Landscape Architect is not responsible for subsurface conditions.
- It is the responsibility of the appropriate contractor to obtain all required permits and to obey all local bylaws and regulations.
- It is the responsibility of the appropriate contractor to determine the location of all underground services before the start to include: telephone cables, cable television, hydro cables, lights and power lines, weeping tiles, storm and sanitary sewers, natural gas lines, irrigation lines, etc.
- The contractor is to reinstate all areas and items damaged as a result of construction activities.
- Plant substitutions will not be accepted without prior approval of the Landscape Architect in writing.
- Positive drainage to be maintained at all times away from the building.
- Retain and protect all existing trees except those noted in the drawing.
- Base information for this drawing was prepared using the survey plan prepared by Annis O'Sullivan, Vollebakk LTD. dated January 16, 2023
