Photo 1

Notes: Stage 6 lands facing east from Mer Bleue Road. Dense Forb Meadow patch on right with small strip of cattails separating soybean field (Annual Row Crop) on left

Photo 2

Notes: Facing northeast from Mer Bleue. Soybean field (Annual Row Crop) in front, behind contains Stage 6 lands with thin strip of shrubs separating Disturbed Meadow with scattered Trembling Aspen trees in the distance

Photo 3

Notes: Facing southeast from Brian Coburn Boulevard towards Mer Bleue Road, thin strip of roadside Graminoid Meadow (inclusion).

Photo 4

Notes: Stage 6 lands facing southwest from Gerry Lalonde Drive towards Mer Bleue Road. Highly Disturbed Land with soil stock piles and patches of forbs and graminoids.

Photo 5

Notes: Stage 6 lands facing southwest from Gerry Lalonde Drive towards Mer Bleue Road. Disturbed Land with patches of forbs and graminoids.

Photo 6

Notes: Stage 6 lands facing southwest from Gerry Lalonde Drive towards Mer Bleue Road. Previously disturbed lands (Disturbed Meadow) with some existing fragmented Trembling Aspen. Meadow plants are present which do not form continuous cover due to past disturbance. Soil stock piles are visible in the distance.
