Attn: **Colette Gorni, Planner**

Project No.: **(RMA)18146**

Re: **Technical Comments – Site Plan Control**
Application 31 Antares Drive

Date: **10/03/2019**

Drawing / Plans

Robertson Martin Architects confirms that the roof design, and rooftop scuppers, are designed in compliance to the 100- year storm design as per SWM calculations, identified by McIntosh Perry SWM Calculations.

Height of scuppers are at 115 mm above roof drains, which exceeds the 75 mm ponding requirements of the SWM design.

Best Regards,

Luke Boonstra
