

**Record of Site Condition**  
**Under Part XV.1 of the Environment Protection Act**

**Summary**

Record of Site Condition Number	223064
Date Filed to Environmental Site Registry	2017/02/09
Certification Date	2016/10/21
Current Property Use	Industrial
Intended Property Use	Residential
Certificate of Property Use Number	No CPU
Applicable Site Condition Standards	Full Depth Generic Site Conditions Standard, with Potable Ground Water, Coarse Textured Soil, for Residential property use
Property Municipal Address	335 ST. LAURENT BLVD., OTTAWA, ON, K1K 2Z5

**Notice to Readers Concerning Due Diligence**

This record of site condition (RSC) has been filed in the Environmental Site Registry to which the public has access and which contains a notice advising users of the Environmental Site Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Environmental Site Registry.

**Contents of this Record of Site Condition**

This RSC consists of this document which is available to be printed directly from the Environmental Site Registry as well as all supporting documentation indicated in this RSC to have been submitted in electronic format to the Ministry of the Environment and Climate Change.

## Part 1: Property Ownership, Property Information and Owner's Certifications

Information about the owner who is submitting or authorizing the submission of the record of site condition

Owner name	CANADA LANDS COMPANY CLC LIMITED
Authorized person	RODGER MARTIN
Mailing address	601, 30 METCALFE STREET, OTTAWA Ontario, Canada
Postal Code	K1P 5L4
Phone	(416) 952-6191
Fax	
Email address	rmartin@clc.ca

**Record of site condition property location information**

Municipal address(es)	335 ST. LAURENT BLVD., OTTAWA, ON K1K 2Z5
Municipality	Ottawa
Legal description	<b>See attached Lawyer's letter</b>
Assessment roll number(s)	
Property identifier number(s)	04273-0433 (LT)

**Record of site condition property geographical references**

Coordinate system	UTM
Datum	NAD 83
Zone	18
Easting	450,745.19
Northing	5,033,299.45

**Record of site condition property use information**

The following types of property uses are defined by the Regulation: Agricultural or other use, Commercial use, Community use, Industrial use, Institutional use, Parkland use, and Residential use.

Current property use	Industrial
Intended property use	Residential
Certificate of property use has been issued under section 168.6 of the Environmental Protection Act	No

**Please see the signed statements of property owner, or agent,  
or receiver at the end of this record of site condition**

The rest of this page has been left intentionally blank

**Part 2: List of reports, summary of site conditions and qualified person's statements and certifications**

**Qualified person's information**

Name	GEORGE THOMAS
Type of licence under Professional Engineers Act	Licence
Licence number	90302761
Qualified person's employer name	DST CONSULTING ENGINEERS INC.
Mailing address	203, 2150 THURSTON DRIVE, OTTAWA Ontario, K1G 5T9 Canada
Phone	(613) 748-1415
Fax	(613) 748-1356
Email address	gthomas@dstgroup.com

**Municipal information**

Local or single-tier municipality	Ottawa
-----------------------------------	--------

**Ministry of the Environment and Climate Change District Office**

District office	Ottawa District Office
District office address	2430 Don Reid Drive, Ottawa ON K1H 1E1

## Phase one environmental site assessment report

### Document used as the phase one environmental site assessment report and updates in submitting the record of site condition for filing

The date the last work on all of the records review, interviews and site reconnaissance components of the phase one environmental site assessment was done (refer to clause 28(1) (a) of O. Reg. 153/04)	(yyyy/mm/dd) 2016-10-21
--	----------------------------

Type of report	Report title	Date of report (yyyy/mm/dd)	Author of report	Name of consulting company
Phase one environmental site assessment	Phase One Environmental Site Assessment, Former CFB Rockcliffe, Ottawa, Ontario	2015-03-31	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Update to phase one environmental site assessment	Phase One Environmental Site Assessment Update Letter, Former CFB Rockcliffe, Ottawa, Ontario	2016-10-21	Andrew Naoum	DST CONSULTING ENGINEERS INC.

## Reports and other documents related to the phase one environmental site assessment

### Reports and other documents relied upon in certifying the information set out in section 10 of Schedule A or otherwise used in conducting the phase one environmental site assessment

Report title	Date of report (yyyy/mm/dd)	Author of report	Name of consulting company
Phase II Environmental Site Assessment – Lands Associated with the Remediation of Various Former Building Sites at Canadian Forces Base Rockcliffe, Ottawa, Ontario	2009-04-30	Shahid Mansur	DST CONSULTING ENGINEERS INC.
Remedial Action Plan, Lands Associated with Various Former Building Sites and Developed Areas at Canadian Forces Base Rockcliffe, Ottawa, Ontario	2009-04-30	Jonathon Markiewicz	DST CONSULTING ENGINEERS INC.
Phase III Environmental Site Assessment (ESA) Building 164, CFB Rockcliffe, Ottawa, Ontario	2010-09-30	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Phase III Environmental Site Assessment (ESA) Former CANEX/Shell Site, CFB Rockcliffe, Ottawa, Ontario	2010-09-30	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Phase II Environmental Site Assessment Former Golf Driving Range, CFB Rockcliffe, Ottawa, Ontario	2011-02-28	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Phase II Environmental Site Assessment Former PMQ's and Former Building Footprint Site, CFB Rockcliffe, Ottawa, Ontario	2011-02-28	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Hydrogeological Report, Stormwater Management Support Study, Former CFB Rockcliffe Development, Ottawa, Ontario	2014-06-30	Milan Makusa	DST CONSULTING ENGINEERS INC.
Soil Remediation at Former Building 164, Former Building 79 and Via Venus and Bishop Private Former CFB Rockcliffe Ottawa, Ontario	2014-01-31	Salim Eid and Eric Sly	DST CONSULTING ENGINEERS INC.

## Phase two environmental site assessment report

### Document used as the phase two environmental site assessment report and updates in submitting the record of site condition for filing

The date the last work on all of the planning of the site investigation and conducting the site investigation components of the phase two environmental site assessment was done (refer to clause 33.5(1)(a) of O. Reg. 153/04)	(yyyy/mm/dd) 2016-10-21
---	----------------------------

Type of report	Report title	Date of report (yyyy/mm/dd)	Author of report	Name of consulting company
Phase two environmental site assessment	Phase II Environmental Site Assessment – Lands Associated with the Remediation of Various Former Building Sites at Canadian Forces Base Rockcliffe, Ottawa, Ontario	2009-04-30	Shahid Mansur	DST CONSULTING ENGINEERS INC.
Update to phase two environmental site assessment	Phase II Environmental Site Assessment (ESA), Former PMQs and Former Building Footprint Site, CFB Rockcliffe, Ottawa, Ontario	2011-02-28	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Update to phase two environmental site assessment	Phase Two Environmental Site Assessment Update, Volume 4, Former CFB Rockcliffe, Ottawa, Ontario	2016-10-21	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Update to phase two environmental site assessment	Soil Remediation, Volume 4, Former CFB Rockcliffe, Ottawa, Ontario	2016-10-21	Andrew Naoum	DST CONSULTING ENGINEERS INC.
Update to phase two environmental site assessment	Soil Remediation at Former Building 164, Former Building 79 and Via Venus and Bishop Private Former CFB Rockcliffe Ottawa, Ontario	2014-01-31	Salim Eid and Eric Sly	DST CONSULTING ENGINEERS INC.

## Reports and other documents related to the phase two environmental site assessment

### Reports and other documents relied upon in making any certifications in the record of site condition for the purposes of Part IV of Schedule A or otherwise used in conducting the phase two environmental site assessment

Report title	Date of report (yyyy/mm/dd)	Author of report	Name of consulting company
Results of Intrusive Investigation, Buildings 41 and 44, Buildings 43 and 45, Building 80, Building 84, Building 86, Buildings 114 and 163, Former CFB Rockcliffe	2004-11-18	Rod Rose and Michael Connolly	GREENBANK ENVIRONMENTAL LTD.
Hydrogeological Report, Stormwater Management Support Study, Former CFB Rockcliffe Development, Ottawa, Ontario	2014-06-30	Milan Makusa	DST CONSULTING ENGINEERS INC.

**Environmental condition**

Section 41 applies?	No
Section 43.1 applies?	No

**Site condition information**

Certification date (yyyy/mm/dd)	2016/10/21
Total area of record of site condition property (in hectares)	20.83000
Number of any previously filed record of site condition that applies to any part of the record of site condition property	
Number of any previously filed transition notice that applies to any part of the record of site condition property	
Soil texture	Coarse
Assessment/restoration approach	Full depth generic
Site investigation includes the investigation, sampling and analysis of ground water?	Yes
Is there soil present that is sufficient to investigate, sample and analyze soil on, in or under the property in accordance with s. 6, Schedule E of O.Reg. 153/04?	Yes
Site investigation includes the investigation, sampling and analysis of soil on, in or under the property which is used in the record of site condition?	Yes
Name of the laboratory used to analyze any samples collected of soil, ground water or sediment	MAXXAM ANALYTICS INC.
Ground water condition (potable, non-potable)	Potable
Applicable site condition standard	TABLE 2

**Table 1 – Maximum contaminant concentrations compared to applicable site condition standards**

**Measured concentration for contaminants in soil**

Contaminant name		Maximum concentration		Applicable site condition	Unit of measure
1	Dioxin/Furan		<b>0.0000021</b>	0.000013	µg TEQ/g

## Remedial action and mitigation

### Remediated soils

Estimated quantities of the soil, if any, originating at and remaining on the record of site condition property that have been remediated, at a location either on or off the property, to reduce the concentration of contaminants in the soil. Indicate the remediation process or processes used and the estimated amount of soil remediated by each identified process.

Soil remediation process	Estimated quantity of soil (in ground-volume in cubic metres)

### Description of remediation

Description of any action taken to reduce the concentration of contaminants (including soil removals) on, in or under the record of site condition property.

Impacted soil was removed from property and disposed of at a licensed facility.

### Soil or sediment removed and not returned

Estimated quantities of soil or sediment, if any, removed from and not returned to the record of site condition property.

Estimated quantity of soil (in ground-volume in cubic metres)	3,188.0
Estimated quantity of sediment (in ground-volume in cubic metres)	

### Soil brought to the property

Estimated quantity of the soil, if any, being brought from another property to and deposited at the record of site condition property, not including any soil that may have originated at but been remediated off the record of site condition property and that is identified in section 28 of Schedule A.

Estimated quantity of soil brought to the property (in ground-volume in cubic metres)	3,188.0
---	---------

**Ground water control or treatment measures**

Ground water control or treatment measures that were required for the record of site condition property prior to the certification date for the purpose of submitting the record of site condition for filing.

Groundwater infiltrating into the excavation was pumped and treated on site using a mobile water treatment system (2015). Treated groundwater was discharged into the municipal sanitary sewer system, under an agreement with the City of Ottawa.

Ground water control or treatment measures that are required for the record of site condition property after the certification date.

Estimated volume of ground water, if any, removed from and not returned to the record of site condition property.

Estimated volume of ground water (in litres)	2,000.0
--	---------

**Other activities including risk management measures**

Constructed works that prior to the certification date for the purpose of submitting the record of site condition for filing, were required to control or otherwise mitigate the release or movement of known existing contaminants at the record of site condition property.

Constructed works that after the certification date, are required to control or otherwise mitigate the release or movement of known existing contaminants at the record of site condition property.

**Monitoring or Maintenance****Soil Management Measures**

Soil monitoring requirements or any requirements for care, maintenance or replacement or any monitoring or control works for known existing contaminants, if any, on the record of site condition property, after the certification date.

**Ground water management measures**

Ground water monitoring requirements or requirements for care, maintenance or replacement of any monitoring or control works or known existing contaminants, if any, on the record of site condition property, after the certification date.

**Remediated or removed soil, sediment or ground water from near property boundary**

Has any soil, sediment or ground water at the record of site condition property that is or was located within 3 metres of the record of site condition property boundary been remediated or removed for the purpose of remediation?

No

## C Qualified person's statements and certifications

As the qualified person, I certify that:

☒ A phase one environmental site assessment of the record of site condition property, which includes the evaluation of the information gathered from a records review, site reconnaissance, interviews, a report and any updates required, has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.

☒ A phase two environmental site assessment of the record of site condition property, which includes the evaluation of the information gathered from planning and conducting a site investigation, a report, and any updates required, has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.

☒ The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.

☒ As of 2016/10/21, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the record of site condition property that would interfere with the type of property use to which the record of site condition property will be put, as specified in the record of site condition.

☒ Ground water sampling has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.

☒ As of 2016/10/21, in my opinion, based on the phase one and phase two environmental site assessments and any confirmatory sampling, the record of site condition property meets the applicable full depth generic site condition standards prescribed by section 36 of the regulation for all contaminants prescribed by the regulation in relation to the type of property use for which this record of site condition is filed, except for those contaminants (if any) specified in this record of site condition at Table 2, Maximum contaminant concentrations compared to standards specified in a risk assessment.

☒ As of 2016/10/21, the maximum known concentration of each contaminant in soil, sediment and ground water at the record of site condition property for which sampling and analysis has been performed is specified in this record of site condition at Table 1, maximum contaminant concentrations compared to applicable full depth generic site condition standards.

☒ I am a qualified person and have the qualifications required by section 5 of the regulation.

☒ I have in place an insurance policy that satisfies the requirements of section 7 of the regulation.

☒ I acknowledge that the record of site condition will be submitted for filing in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

☒ The opinions expressed in this record of site condition are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practising at the same time and in the same or similar location.

I do not hold and have not held and my employer DST CONSULTING ENGINEERS INC.

☒ does not hold and has not held a direct or indirect interest in the record of site condition property or any property which includes the record of site condition property and was the subject of a phase one or environmental site assessment or risk assessment upon which this record of site condition is based.

☒ To the best of my knowledge, the certifications and statements in this part of the record of site condition are true as of 2016/10/21.

☒ By signing this record of site condition, I make no express or implied warranties or guarantees.

By checking the boxes above, and entering my membership/licence number in this submission, I, GEORGE THOMAS, a qualified person as defined in section 5 of O. Reg. 153/04 am, on 2017/02/01:

- a) signing this record of site condition submission as a qualified person; and
- b) making all certifications required as a qualified person for this record of site condition.

☒

☒ I agree

### **Additional documentation provided by property owner or agent**

The following documents have been submitted to the Ministry of the Environment and Climate Change as part of the record of site condition

Certificate of status or equivalent for the owner
Lawyer's letter consisting of a legal description of the property
Copy of any deed(s), transfer(s) or other document(s) by which the record of site condition property was acquired
A Current plan of survey
Area(s) of potential environmental concern
Table of current and past uses of the phase one property
Phase 2 conceptual site model
Owner or agent certification statements

As an owner:

1. I acknowledge that the RSC will be submitted for filing in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.
2. I have conducted reasonable inquiries to obtain all information relevant to this RSC, including information from the other current owners of the RSC property named in this part of the RSC and I have obtained all information relevant to this RSC of which I am aware.
3. I have disclosed all information referred to in paragraph 2 to any qualified person named in this RSC.
4. To my knowledge, the statements made in this part of the RSC are true as of January 25, 2017.
5. I have ensured that access to the entire property, including the phase one property, any phase two property and the RSC property, has been afforded to the qualified person and to persons supervised by the qualified person, for purposes of conducting the site reconnaissance.
