GENERAL NOTES

.1 All general site information and conditions compiled from existing plans, surveys and consultant's field notes. Report all discrepancies prior to any work. No responsibility is born by the Consultant for unknown subsurface

.2 The location of the utilities is approximate only, and the exact location should be determined by consulting the municipal authorities and utility companies concerned. The Contractor shall prove the location of utilities and shall be responsible for adequate protection from damage.

.3 All dimensions shown are to be verified on site prior to any construction. No deviations are to be made from the layouts as shown on this plan without prior consultation with the Landscape Architect and Owner.

.4 Obtain approval of the Consultant(s) for granular base and layout of all pavement areas prior to construction. .5 Stake planting locations and receive

approval of Landscape Architect, prior to excavation of any planting pits. No substitutions of plant material shall be made without prior approval of the Landscape Architect. .6 Where clay is encountered proper drainage

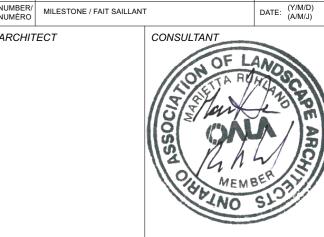

must be ensured in tree/shrub pits, prior to planting. Have method approved by Landscape .7 Maintain positive surface runoff through the

entire construction period. .8 Reinstate all areas and items damaged as a result of construction activities.
