1	Site & Landscape Plan Issued for Review	C. Clarke	23/02/01
2	Revised per Comments dated April 24, 2023	C. Clarke	23/05/12
3	Revised per Comments dated November 2, 2023	C. Clarke	24/02/23

**Notes:**

- Phase I of the site plan for the new use will utilize existing on-site buildings for operations. No new buildings and no building demolition is proposed at this time.
- Open storage will be directed to the concrete area east of the existing timber / concrete block building previously used for mushroom production. Open storage / Pick-up of goods is proposed beyond the required front yard of 15m.
- Existing driveways and site accesses will be maintained for the proposed use. The current fire route with access to the on-site fire suppression reservoir is shown.
- New plantings are proposed along the front of the site as screening. A new mix of plantings in clusters with an opaque fence is shown to screen the open storage / pick up area.
- Boundary and dimensions of the subject property and the locations of all on-site features derived from a topographic plan of survey completed by Callon Dietz in January of 2023.
- All ditches shown on this plan are considered watercourses pursuant to the GeoOttawa Interactive Mapping.
