

Zoning Confirmation Report

945 & 1015 Bank Street (Lansdowne 2.0)

Annex 1 – Zoning Confirmation Report Checklist

The portion of the subject property to be developed is zoned Major Leisure Facility, Subzone, site-specific schedules 258-A and 258-B (L2C S258-A, S258-B). The site is also subject to the Mature Neighbourhoods Overlay.

The existing zoning framework on the land was established in 2010 through Ottawa City Council approval and Ontario Municipal Board (OMB) settlement. The zoning provisions at that time were tailored to the existing built-form and residential density on the site at the time of approval. The zoning framework for the new event centre and air rights parcel was established through a recent Zoning By-law Amendment application that was approved by Ottawa City Council in November 2023, with a subsequent appeal dismissal by Ontario Land Tribunal. The zoning of the portion of the site proposed to be developed with the new North Side Stands was unchanged during the 2023 development applications.

Table 1, below, outlines the required zoning provisions for the site and assesses the compliance of the proposed North Side Stands with these zoning provisions. For the purposes of this review, the proposed North Side Stands are considered a Sports Arena under the list of permitted uses on the subject property. A sports arena is a permitted use.
