

# Zoning Confirmation Report

## Terms of Reference

### 1. Description

The purpose of the Zoning Confirmation Report (ZCR) is to identify all zoning compliance issues, if any, at the outset of a *Planning Act* application.

### 2. When Required

- All zoning by-law amendment applications; and
- All site plan control applications.

### 3. Contents

The Zoning Confirmation Report comprises two components depending on the type of application submitted:

#### Component 1 – Zoning Confirmation Report Checklist

Is required for all Site Plan Control applications and all Zoning By-law amendment applications. The intent of the ZCR Checklist is to determine whether a proposal meets the requirements of the Zoning By-law or whether relief is required before the application can be deemed complete. The applicant is required to fill out the ZCR Checklist that forms part of this Terms of Reference.

- ZCR Checklist - Refer to Annex 1

#### Component 2 – Zoning Confirmation Report Draft List of Requested Relief

Is required for all Zoning By-law amendment applications only and consists of a draft list of requested relief from the Zoning By-law. The intent is for the applicant to ensure that the requested relief is comprehensive, specific and consistent with the rest of the Zoning By-law.

- ZCR Draft List of Requested Relief - Refer to Annex 2

NOTE: The requirements of the two ZCR components may be modified by staff on a case-by-case basis to suit the development.

### 4. Roles and Responsibilities / Qualifications

A Zoning Confirmation Report must be signed by the applicant or an authorized representative of the applicant.

## 5. Annex 1 - Zoning Confirmation Report Checklist

A. Project Information			
<b>Review Date:</b>	February 28 2025	<b>Official Plan designation:</b>	Industrial & Logistics (C17) Rural Industrial & Logistics (B9)
<b>Municipal Address(es):</b>	145 Walgreen Road	<b>Legal Description:</b>	Part of Block 5, Plan 4M-300

<sup>1</sup> This template represents a small selection of applicable provisions. Please consider the lot's geography (i.e. corner/through lot, proximity to water, inside/outside Greenbelt) and proposed land use (i.e. drive through operation, outdoor commercial patio, Planned Unit Development, long semi) and consult the by-law to determine which other sections of the By-law must be met. This can be attached in a separate document.

<sup>2</sup> Note that different performance standards apply to low-rise residential development inside the Greenbelt. Please reference Section 144 for these standards, where applicable.

<sup>3</sup> This includes maximum building height, minimum building height and setback provisions, where they exist
