LIGHT-DUTY

[illegible]

A cross-sectional diagram of a riparian buffer strip. From left to right, it shows: a 'Flow' arrow indicating water direction; an 'End run' (a small pond or pool); a 'Barrier main run' (a narrow channel); an 'Area under protection' (the main buffer zone); another 'End run'; and a 'Watershed' area. The 'Area under construction' is indicated on the far left. The diagram illustrates how the buffer strip acts as a barrier between the watershed and the main water body.
