  - PROPOSED WOOD BENCH
  - PROPOSED BENCH
- PRODUCT INFORMATION**
- Install products as per manufacturer specifications. Shop drawings required.
- PRECAST RETAINING WALL**
- 1-D1: Precast Modular Planter Wall - Brandon by Techo-Bloc. Size: As Shown, 500mm HL. Colour: Shale Grey.
  - 1-D2: Precast Modular Seat Wall (Freestanding) Brandon by Techo-Bloc. Size: As Shown, 630mm HL. Colour: Shale Grey.
  - 1-D3: Precast Wall Cap Ruffinato Smooth by Techo-Bloc. Size: 60mm Thickness. Colour: Greyed Nickel.
- PAVERS**
- Edge of pavers to receive edge restraint.
- 1-D3: Porcelain Tile Paver by Porcea Stone. Size: 40x120cm. Pattern: 1/4 Offset Running Bond. Colour: Birch Timber.
  - 1-D4: Blu 80 Smooth Interlock Paver by Techo-Bloc. Size: All sizes. Pattern: Linear - 03. Colour: Greyed Nickel.
  - 1-D5: Westmount Interlock Paver by Techo-Bloc. Size: 240x60x60mm. Pattern: Herringbone. Colour: Shale Grey w/ Onyx Soldier Course & Banding.
  - 1-D6: Westmount Interlock Paver by Techo-Bloc. Size: 240x60x60mm. Pattern: Running Bond. Colour: Shale Grey w/ Onyx Soldier Course & Banding.
  - 1-D7: Floating Block Step by Porcea Stone. Size: As Shown. Pattern: n/a. Colour: Seashell.
- FENCE**
- 1-D8: TBD. Panel Height: n/a. Post Cap: n/a.
- LIGHTING LEGEND: REFER TO ELECTRICAL / LIGHTING PLANS**
- PROPOSED LIGHT POLE TBD
  - PROPOSED WALL SCONCE TBD
  - PROPOSED BOLLARD / LIGHTING BOLLARD TBD
- SITE FURNITURE**
- 1-D9: Fasten all site furnishing to surface with stainless steel anti-vandal anchors.
  - 1-D10: Rough & Ready Hugg a Tubs Square by Streetlife. Options: Integrated Bench (2 sides). Size: 230x230cm (90cm HL) (4.4m'). Colour: Corten Steel.
  - 1-D11: Rough & Ready Hugg a Tubs Square by Streetlife. Options: Integrated Bench (1 side only). Size: 230x230cm (90cm HL) (4.4m'). Colour: Corten Steel.
  - 1-D12: Rough & Ready Hugg a Tubs Square by Streetlife. Options: Integrated Bench (2 sides). Size: 200x200cm (90cm HL) (3.0m'). Colour: Corten Steel.
  - 1-D13: Rough & Ready Hugg a Tubs Square by Streetlife. Options: Integrated Bench (1 side only). Size: 200x200cm (90cm HL) (3.0m'). Colour: Corten Steel.
  - 1-D14: Shrububs Square by Streetlife. Size: 230x230cm (90cm HL) (4.4m'). Colour: Corten Steel.
  - 1-D15: Shrububs Square by Streetlife. Size: 200x200cm (90cm HL) (3.0m'). Colour: Corten Steel.
  - 1-D16: Rough & Ready Crosswise Closed Top Seat Bench by Streetlife. Size: Size Varies - Custom Length. Frame: Corten Steel. Slats: FSC Louro.
  - 1-D17: Rough & Ready Crosswise Bench by Streetlife. Size: 207cm Length. Frame: Corten Steel. Slats: FSC Louro.
  - 1-D18: Shrike Trillix by Hauser. Options: n/a. Size: As Shown. Colour: TBD.

**SOIL VOLUME CALCULATIONS:**

This plan has trees proposed in planters and some areas where the soil volume is limited. In these instances the soil volumes have been calculated and reviewed to determine an appropriate size of tree. Those trees which are lost over time will be replanted to maintain the original aesthetic and functional design intent.

Other trees are proposed in open areas with extensive soil volumes available on the site and/or on adjacent properties.

**MATURE CANOPY CALCULATION**

SIZE OF TREE	AVERAGE MATURE SPREAD	AVERAGE MATURE CANOPY COVERAGE PER TREE (m <sup>2</sup> )	QUANTITY OF TREES	TOTAL CANOPY COVERAGE (m <sup>2</sup> )
Deciduous - Small/Column (<7.5m tall)	5m	20	23	460
Deciduous - Medium (7.5-14m tall)	10m	79	15	1178
Deciduous - Large (14m+ tall)	15m	177	16	2832
Coniferous	5m	20	2	39
<b>PROPOSED TOTAL CANOPY COVERAGE (m<sup>2</sup>):</b>				4500
<b>EXISTING RETAINED TOTAL CANOPY COVERAGE (m<sup>2</sup>):</b>				0
<b>TOTAL SITE AREA (m<sup>2</sup>):</b>				6,407
<b>EST. CANOPY COVERAGE (%):</b>				70%

Area of a circle = (π x r) x π  
Canopy coverage per tree calculation: (average mature spread/2) x (average mature spread/2) x π

- GENERAL**
- Read and interpret this drawing/drawing set in conjunction with all the contract details and specifications, including related civil, utility, structural, architectural, mechanical, electrical, environmental, geotechnical, and survey information.
  - The Contractor is to determine the exact location, size, material, and elevation of all existing utilities prior to commencing construction. Protect and assume responsibility for all existing utilities regardless of being shown on the drawings.
  - It is essential to use the plans and details in conjunction with the specifications and notes.
  - Do not scale drawings. Work to dimensions only.
  - Protect all existing and retained vegetation for the duration of construction according to the contract details and specifications.
  - Reinstate all areas and items damaged or disturbed, beyond the Limit of Work, because of construction activities, including but not limited to construction staging areas, haul roads, stockpile areas, etc. to the satisfaction of the Consultant. Unless otherwise noted, Contractor is to reinstate all areas to pre-construction condition or better to the satisfaction of the Contract Administrator.
- PLANTING**
- Plant material to be No. 1 Grade and is to comply with Canadian Standards for Nursery Stock (latest edition) published by the Canadian Nursery Landscape Association.
  - Use structurally sound plant material with strong fibrous root system free of disease, defects, and injuries. Use trees with straight trunks, well and characteristically branched for species. Obtain approval from consultant of plant material at source prior to digging. All trees and shrubs to be container grown, potted, W/B or B/B, as indicated on Plant List. Bare root plants are only acceptable for certain species and as approved by the Landscape Architect.
  - Plant material substitutions are not permitted without the written approval from the Consultant, with 48 hours notice, prior to shipping plant material.
  - Plant locations are schematic / approximate only. Contractor is to stake out locations on site for approval by the Landscape Architect prior to installation.
  - The illustrated number of plants shown in the Planting Plan supersedes the estimated number in the Plant List. Contractor to report any discrepancies to the Landscape Architect prior to installation. Contractor will assume full responsibility if the Landscape Architect is not notified. Ensure trees are thoroughly watered following planting. Monitor material and ensure adequate moisture until acceptance.
  - In heavy clay or poorly drained soils, set root ball with root collar 75-100mm higher than finished grade.
  - Approved topsoil depths are as follows:
    - Plant Beds - 450mm continuous depth. Applies to shrubs, perennials, vines, and groundcovers.
    - Sod Seed Areas - 100mm depth.
    - Reforestation - 300mm depth.
  - Sod to be No. 1 Kentucky Bluegrass Sod grown from minimum mixture of 3 Kentucky Bluegrass cultivars. Quality and source are to comply with Canadian Standards for Nursery Stock, Section 17, (latest edition) published by the Canadian Nursery Landscape Association.
  - Apply the following mineral fertilizer unless soil tests show other requirements:
    - Plant Beds - (8-32-16), i.e. 8% Nitrogen, 32% Phosphorus, 16% Potash per manufacturer specifications.
    - Sod Areas - (8-32-16), i.e. 8% Nitrogen, 32% Phosphorus, 16% Potash at a rate of 50kg/ha.
  - Where applicable, for any plant areas with a mix of species/cultivars notes, Contractor is to cluster like plants in groups of 3-5 and evenly distribute these in the noted areas.

**DISCLAIMER:**  
The elements on this plan illustrate the design intent and general constructability of the proposed landscape which will support the associated development. This is to demonstrate how the canopy cover, urban design, health, and climate change objectives of the Official Plan will be met through tree planting and site design. This drawing is for City review only and is not intended for construction. Final detailed design and construction documentation is to be provided with certified 'Issued for Construction' drawings and specifications prior to construction.
