Attention: **Mr. Jean-Luc Rivard**

Subject: **Geotechnical Response to City Comments
Proposed Residential Development
8466 Jeanne d'Arc Boulevard - Ottawa**

Dear Sir,

Further to your request, Paterson Group (Paterson) has prepared the present report to outline our responses to the Rideau Valley Conservation Area (RVCA) comments contained within the City of Ottawa review comments dated November 3, 2017 for the engineering submission prepared for the aforementioned development.

RVCA - Comment 2 - Natural Hazard

Paterson Report PG0448-1 dated August 3, 2005, determined the limit of hazard lands to be an 8 m setback from the top of slope. The proposed development was designed to provide a 15 m setback from the top of slope. Paterson confirms that proposed block layouts within the proposed subdivisions comply with the aforementioned report. Additionally, Paterson confirms that the site conditions have not been modified and that the conclusions of the original report are valid.

Mr. Jean-Luc Rivard
