ELEVATION NOTES

1. Elevations shown are geoidic and are referred to the CGVD28 geoidic datum.
 2. It is the responsibility of the user of this information to verify that the job benchmark has not been altered or disturbed and that its relative elevation and description agrees with the information shown on this drawing.
 3. Elevations derived from benchmark 019119680388 having an elevation of 92.16 metres.

UTILITY NOTES

1. This drawing cannot be accepted as acknowledging all of the utilities and it will be the responsibility of the user to contact the respective utility authorities for confirmation.
 2. Only visible surface utilities were located.
 3. A field location of underground plant by the pertinent utility authority is mandatory before any work involving breaking ground, probing, excavating etc.

Bearings are grid, and are referred to the Central Meridian of MTM Zone 9 (76°30' West Longitude) NAD-83 (original).
 For Bearing Comparisons, (P1) and (P2) are Astronomic Plans.
 SITE AREA = 4.048 Hectares.

Topographic data was collected under Spring Conditions. Spring load conditions preclude determining location and elevation of some topographical data that is otherwise visible.

Scale 1 : 300

Metric
 DISTANCES SHOWN ON THIS PLAN ARE IN METRES AND CAN BE CONVERTED TO FEET BY DIVIDING BY 0.3048
