Re: 1740-1760 St. Laurent Blvd. -Lighting Certificate (Project # 20-Q091)

Dear Raad,

We have designed the site lighting for the development of four (4) rental towers at 1740-1760 St Laurent Blvd., in accordance with the following guides as requested by the City of Ottawa:

1. It must be designed using only fixtures that meet the criteria for Full Cut-Off (Sharp cut-off) Classification as recognized by the Illuminating Engineering Society of North America (IESNA or IES), and;
2. It must result in minimal spillage onto adjacent properties. As a guideline, 0.5 fc is normally the maximum allowable spillage.

Should you have any questions or comments, please do not hesitate to contact the undersigned.

Yours truly,

Luc van der Leeden, P.Eng.
