**RE: Review and Entry into the Ontario Public Register of Archaeological Reports: Archaeological Assessment Report Entitled, "Stage 2 Archaeological Assessment Proposed Cardinal Creek Development, Part Lot 25, 26, 27 and 28, Concession 1 in the Geographic Township of Cumberland, Historic County of Russell, Ottawa, Ontario ", Dated Dec 10, 2013, Filed with MTCS Toronto Office on Dec 13, 2013, MTCS Project Information Form Number P369-005-2012, MTCS File Number 06SB184**

Dear Mr. Mortimer:

This office has reviewed the above-mentioned report, which has been submitted to this ministry as a condition of licensing in accordance with Part VI of the Ontario Heritage Act, R.S.O. 1990, c 0.18.<sup>1</sup> This review has been carried out in order to determine whether the licensed professional consultant archaeologist has met the terms and conditions of their licence, that the licensee assessed the property and documented archaeological resources using a process that accords with the 2011 Standards and Guidelines for Consultant Archaeologists set by the ministry, and that the archaeological fieldwork and report recommendations are consistent with the conservation, protection and preservation of the cultural heritage of Ontario.

The report documents the assessment of the study area as depicted in Map 1: Study Area and Operation Areas as Mapped in Maps 6 through 14 of the above titled report and recommends the following:

1. No further archaeological study is required for the study property.
2. Portions of the development area that extend outside of the study area, as shown on Map 2, should be assessed prior to further development.
3. Portions of the development area that are current residential areas, as shown on Map 2, and are not currently scheduled for development, were not assessed in this process. Accordingly those areas should be assessed prior to further development.

and

4. The Ministry of Tourism, Culture and Sport provide a letter confirming that there are no further concerns with regard to alterations to archaeological sites for the property as depicted in Map 1.

Based on the information contained in the report, the ministry is satisfied that the fieldwork and reporting for the archaeological assessment are consistent with the ministry's 2011 Standards and Guidelines for Consultant Archaeologists and the terms and conditions for archaeological licences. This report has been entered into the Ontario Public Register of Archaeological Reports. Please note that the ministry makes no

representation or warranty as to the completeness, accuracy or quality of reports in the register.

Should you require any further information regarding this matter, please feel free to contact me.

Sincerely,  
Thomas Irvin  
Archaeology Review Officer
