Sun Shadow Analysis Written Summary

Shadow impacts:

Sensitive areas within the sun shadow analysis' study area include a Public Space (Dundonald park), and an Arterial Mainstreet (Bank Street). The sun shadow study represents the park space as a shaded green area and Bank Street as a purple dashed line.

The park space is not impacted by the criteria of any new net shadow resulting in an average of 50% of any public space being cast in shadow for 5 or more hourly interval times during the September test date.

The arterial mainstreet of Bank Street is not impacted by the criteria of a new net shadow in any one spot for more than 3 consecutive hourly test times of the sidewalk on the opposite side of the street, being cast in shadow during the September test date.

Latitude and Longitude of Site:

Lat: N 45°24'48.8"

Lng: W 75°41'49.53"
