## **MINOR RE-ZONING BY-LAW AMENDMENT APPLICATION SUPPORTING INFORMATION**

---

**File Number:** D02-02-25-0008

### **SITE LOCATION**

5940 Brophy Drive, as shown on Document 1.

### **SYNOPSIS OF APPLICATION**

The subject property is an irregular lot measuring 42.2 hectares in area. The property fronts onto Brophy Drive, between Eagleson Road and Twin Elm Road. The site consists of a detached residential dwelling, a garage, an accessory building, and agricultural land.

Currently the property is zoned Agricultural Zone (AG) and is designated as Agriculture Resource Area under Schedule B9 of the Official Plan. The Zoning By-Law Amendment application is to fulfill a condition of approval for a Consent to Sever application granted by the Committee of Adjustment on December 20, 2024. Condition number 4 of provisional consent asserts that the applicant must obtain a Zoning By-Law Amendment to prohibit residential development on the severed lands. The application requests to rezone the severed lands from Agricultural Zone (AG) to Agricultural Subzone 5 (AG5). This zone is used for farm consolidation where a severance of a surplus farmhouse has occurred; it prohibits all residential uses. Section 9.1.3 of the Official Plan indicates that a maximum of one lot may be created from an existing farm holding, provided that the retained lands are transferred to an existing farm operation. It additionally requires the retained lands to be re-zoned to prohibit residential uses as a condition of the severance. This is in alignment with section 4.3.3 of the Provincial Planning Statement which permits the creation of one new residential lot per farm consolidation for a residence surplus to an agricultural operation provided that any additional residential development is prohibited on the remaining parcel of farmland.

The severed farmlands will have an area of 40.6 hectares and will be conveyed to the adjacent farm property, known municipally as 3325 Eagleson Road. The 1.6 hectares of retained lands will remain municipally known as 5940 Brophy Drive and will consist of the existing dwelling, the garage, and the accessory building.

### **DECISION AND RATIONALE**

This application is approved for the following reasons:

- The proposal conforms to the City of Ottawa’s Official Plan, particularly the policies in section 9.1.3 – Protect farmland from uses that would impede productive farming operations as they relate to surplus farm dwelling severances.
- Staff have reviewed the proposal and have determined that it is consistent with the 2024 Provincial Planning Statement.
