## D. Comments / Calculations

The requested relief from the Minimum Lot Area, Minimum Corner Yard Setback and Minimum Rear Yard Setback is already permitted on the subject lands under the R3YY [2527]. However, as a result of the requested relief for the Minimum Front Yard Setback from 5m to 3m in the R3YY [2527], a new urban exception is required to capture these changes. The requested relief can be very as technical in nature to permit the development as proposed and described in the Planning Rationale.

We trust that the above Zoning Confirmation Report Checklist will satisfy the City's requirements. Should have any questions related to the information provided above, please feel free to contact the undersigned.
