(13)

Profile view of the proposed sewer line. The vertical axis shows elevation in feet, ranging from 96.00 to 105.00. The horizontal axis shows stationing from 0+00 to 0+150. The profile includes existing ground (dashed line), existing grade (solid line), and finished grade (dashed line). The proposed sewer line is shown as a solid line with manhole locations marked by 'X' and labeled with stationing and elevation. The sewer line consists of three segments: 2000 SAN 82.0 @ 0.65% (from station 0+00 to 0+100), 2000 SAN 81.5 @ 0.35% (from station 0+100 to 0+150), and 2000 SAN 11.0 @ 0.35% (from station 0+150 to 0+160). The sewer line is shown with a 12.5% slope from station 0+150 to 0+160. The manhole elevations are: 104.00 at station 0+00, 103.00 at station 0+100, 102.00 at station 0+150, and 101.00 at station 0+160. The sewer line is shown with a 12.5% slope from station 0+150 to 0+160.

| Feature             | Station | Elevation (ft) |
|---------------------|---------|----------------|
| Sanitary Invert     | 0+00    | 104.00         |
| Sanitary Invert     | 0+100   | 103.00         |
| Sanitary Invert     | 0+150   | 102.00         |
| Sanitary Invert     | 0+160   | 101.00         |
| Storm Invert        | 0+00    | 104.00         |
| Storm Invert        | 0+100   | 103.00         |
| Storm Invert        | 0+150   | 102.00         |
| Storm Invert        | 0+160   | 101.00         |
| Proposed Grades     | 0+00    | 104.00         |
| Proposed Grades     | 0+100   | 103.00         |
| Proposed Grades     | 0+150   | 102.00         |
| Proposed Grades     | 0+160   | 101.00         |
| Centerline Chainage | 0+00    | 104.00         |
| Centerline Chainage | 0+100   | 103.00         |
| Centerline Chainage | 0+150   | 102.00         |
| Centerline Chainage | 0+160   | 101.00         |
