

To whom it may concern.

The following is Doran Contractors Limited Construction Management Plan for Phase I – 1822 Bank Street at Walkley

- 1) Please see the following page for Section 1 (Diagram)
- 2) Section 2 (Check List)
 - a) Will construction require the temporary detour of a bus route?
OC Transpo's Route 44 and 92 uses Walkley Road for westbound bus service. We do not intend to close any roads to facilitate construction unless absolutely necessary.
 - b) Will this work block a bike lane?
The site does not front onto any streets with bike lanes, therefore no bike lanes will be affected
 - c) Will this work block a sidewalk?
Bank Street sidewalk and Walkley Road sidewalk are more than 4.5 meters away from future construction and currently do not require overhead protection overhead protection, therefore pedestrians will have access so they will not be blocked.
 - d) Will this work require a lane of traffic to be closed?
Currently Bank Street and Walkley Road do not require any lane closures, we will contact the City and meet with a Traffic Management Inspector to initiate a TCE Permit if required.

Yours truly
