FASTFRATE OTTAWA - NEW FACILITY

OUR PROJECT NO. 2020-514

Dear Sir:

We have designed the site lighting for the new facility located at 301 Somme Street in accordance with the following guidelines as requested by the City of Ottawa:

- 1. It must be designed using only fixtures that meet the criteria for Full Cut-Off (Sharp cutoff) Classification, as recognized by the Illuminating Engineering Society of North America (IESNA or IES), and;
- 2. It must result in minimal light spillage onto adjacent properties. As a guideline, 0.5 fc is normally the maximum allowable spillage.
- 3. In addition to the above requirements, the design also provides 0.0 fc of light spillage along the south property line adjacent to Highway 417, in accordance with the Ministry of Transportations requirements.

Yours very truly,

GOODKEY, WEEDMARK & ASSOCIATES LIMITED

James Moffat, P.Eng.
Partner, Senior Electrical Engineer
